BLACKSTONE 22 Inch On The Go Portable Gas Griddle Instruction Manual

Model: OTG 22

Brand: BLACKSTONE

1. INTRODUCTION

This manual provides essential information for the safe and efficient operation, maintenance, and care of your BLACKSTONE 22 Inch On The Go Portable Gas Griddle. This portable gas griddle is designed for outdoor cooking, featuring a compact, foldable design and dual burners for versatile temperature control. Please read all instructions thoroughly before assembly and use.

2. SAFETY INFORMATION

Always follow basic safety precautions when using this appliance to reduce the risk of fire, explosion, or injury. This griddle is for outdoor use only. Do not store or use gasoline or other flammable vapors and liquids in the vicinity of this or any other appliance. Always ensure proper ventilation. Keep children and pets away from the hot griddle. Never leave the griddle unattended while in use.

3. UNPACKING AND ASSEMBLY

Carefully remove all components from the packaging. Inspect for any damage. The griddle features a foldable design for easy transport and storage. To set up, unfold the legs and ensure they are securely locked into place. Connect the propane tank as per the instructions provided with your gas regulator.

Figure 2: Griddle unfolded and ready for use, demonstrating its stable setup for outdoor cooking.

Figure 3: Product dimensions, illustrating the overall size of the griddle when set up.

4. INITIAL SEASONING

Before first use, the griddle surface must be seasoned to create a non-stick cooking surface and protect against rust. Apply a thin, even layer of high-heat cooking oil (such as flaxseed, grapeseed, or Blackstone seasoning blend) to the entire griddle surface. Heat the griddle on high until the oil smokes and turns dark brown. Repeat this process 3-5 times, allowing the griddle to cool slightly between layers. This creates a durable, non-stick finish.

Figure 4: Griddle cooking surface after initial seasoning, ready for use.

5. OPERATING INSTRUCTIONS

5.1. Connecting Propane

Ensure the griddle control knobs are in the 'OFF' position. Connect the gas regulator hose to the griddle's gas inlet and then to your propane tank. Tighten all connections securely. This griddle is compatible with standard 1 lb propane cylinders or can be adapted for larger tanks with an appropriate adapter (sold separately).

5.2. Lighting the Burners

1. Open the propane tank valve slowly.
2. Push and turn the desired control knob counter-clockwise to the 'LIGHT' position.

3. The integrated igniter will spark and light the burner. If ignition does not occur within 5 seconds, turn the burner off, wait 5 minutes, and repeat the lighting procedure.
4. Adjust the control knob to your desired temperature setting (Low, Medium, High).

5.3. Cooking

The griddle features two independent burners, allowing for dual heat zones. This enables cooking different foods at varying temperatures simultaneously. The 361 square inches of cooking surface provides ample space for various meals.

6. CLEANING AND MAINTENANCE

6.1. After Each Use

Allow the griddle to cool slightly. Scrape any food debris into the rear grease management system. Wipe the griddle surface clean with a paper towel. For stubborn residue, use a griddle scraper and a small amount of water while the griddle is still warm. Reapply a thin layer of cooking oil to maintain the seasoning.

Figure 5: Rear grease management system, designed to collect excess grease for easy disposal.

6.2. General Care

Regularly clean the exterior of the griddle with a damp cloth. Store the griddle in a dry, protected area when not in use. If storing outdoors, use a weather-resistant cover.

7. STORAGE

To store, ensure the griddle is completely cool and clean. Disconnect the propane tank. The griddle's legs can be folded for compact storage. Store in a dry, sheltered location to prevent rust and damage.

8. SPECIFICATIONS

Brand	BLACKSTONE
Model Name	On the Go 22X-Frame Griddle Bundle
Model Number	OTG 22
Fuel Type	Gas (Propane)
Main Burner Count	2
Cooking Surface Area	361 Square Inches
