VECHTEL 2 Din Car Stereo User Manual

Model: 113266

INTRODUCTION

Thank you for choosing the VECHETEL 2 Din Car Stereo. This device features a 7-inch touchscreen with wireless CarPlay and Android Auto, Bluetooth 5.1, FM radio, Mirror Link functionality, and support for a rear view camera. This manual provides essential information for installation, operation, maintenance, and troubleshooting to ensure optimal performance and user safety.

SAFETY INFORMATION

- Read all instructions carefully before installation and use.
- Professional installation is recommended to prevent damage to the unit or vehicle.
- Do not operate the device in a way that distracts you from driving. Always prioritize road safety.
- Ensure all wiring is correctly connected to avoid short circuits or electrical hazards.
- Keep the unit away from water and excessive moisture.
- Do not attempt to disassemble or modify the unit. This will void the warranty.

PACKAGE CONTENTS

Verify that all items are present in the package:

- 1 x VECHETEL 2 Din Car Stereo
- 1 x Rear View Camera
- 1 x Power Cable
- 1 x Speaker Cable
- 1 x Remote Control

- 1 x External Microphone

SETUP

Installation

This unit is a standard 2 DIN size. Ensure your vehicle's dashboard opening is compatible. It is highly recommended to have the unit installed by a qualified professional to ensure correct wiring and secure mounting.

Wiring Connections

Connect the power cable, speaker cables, external microphone, and rear view camera according to the provided wiring diagram in the included user manual. Pay close attention to positive and negative terminals to avoid damage.

- **Power:** Connect to the vehicle's power supply (ACC, B+, Ground).
- **Speakers:** Connect to your vehicle's speakers (Front Left, Front Right, Rear Left, Rear Right).
- **Rear Camera:** Connect the video input (CVBS) and power for the camera. The unit will automatically display the camera feed when reversing.
- **External Microphone:** Plug into the designated microphone input for improved call clarity.
- **USB/AUX:** Connect USB devices for media playback or charging, and AUX for external audio sources.

OPERATING INSTRUCTIONS

Wireless CarPlay and Android Auto

Connect your smartphone wirelessly via Bluetooth to access CarPlay or Android Auto. This allows safe use of navigation, music, and messaging apps through the car stereo's display. Voice control via Siri or Google Assistant is supported for hands-free operation.

Wireless Carplay / Android Auto

Bluetooth 5.1 Connectivity

The unit features Bluetooth 5.1 for stable and fast wireless connections. Pair your phone to make hands-free calls and stream audio. The dual microphone system (built-in and external) ensures clear communication.

Image: Upgraded Bluetooth 5.1 features.

Mirror Link Function

Connect your iOS or Android smartphone via USB to use the Mirror Link function. This allows you to display your phone's screen content, such as navigation apps, Spotify, or YouTube, directly on the car stereo's display.

IOS / Android Mirror Link

FM Radio

Tune into your favorite FM radio stations. The unit supports 18 preset stations for quick access.

Rear View Camera

When the vehicle is shifted into reverse, the car stereo automatically displays the feed from the included 12-LED night vision rear camera. This feature provides a wide-angle view to assist with parking and maneuvering.

USB/TF/AUX Playback

Insert a USB drive or TF card into the respective ports for media playback. Connect external audio devices via the AUX input.

MAINTENANCE

- **Cleaning:** Use a soft, dry cloth to clean the screen and unit. Avoid abrasive cleaners or solvents.
- **Software Updates:** Check the VECHTEL website or contact support for any available software updates to ensure optimal performance and new features.
- **Environmental Conditions:** Avoid exposing the unit to extreme temperatures or direct sunlight for prolonged periods.

TROUBLESHOOTING

Problem	Possible Cause	Solution
No power	Incorrect wiring; Blown fuse; Vehicle battery issue.	Check power connections (ACC, B+, Ground). Inspect vehicle fuses. Consult a professional if necessary.

Problem	Possible Cause	Solution
No sound	Incorrect speaker wiring; Volume too low; Mute function active; Audio source issue.	Verify speaker connections. Increase volume. Disable mute. Check selected audio source.
Bluetooth connection unstable	Interference; Device too far; Phone Bluetooth issue.	Ensure phone is close to the unit. Restart phone and car stereo. Re-pair the device.
Rear camera not displaying	Incorrect camera wiring; Camera power issue; Reverse trigger not connected.	Check camera video input and power connections. Ensure the reverse trigger wire is correctly connected to the vehicle's reverse light circuit.
Touchscreen unresponsive	System freeze; Dirt on screen.	Restart the unit. Clean the screen with a soft cloth.
