KAWADA NB-061

Kawada NB-061 Nanoblock Mini Nano Display Case Instruction Manual

Introduction

Welcome and thank you for choosing the Kawada NB-061 Nanoblock Mini Nano Display Case. This manual provides essential information for the proper setup, use, and care of your display case. Please read these instructions carefully to ensure optimal use and longevity of your product.

Product Overview

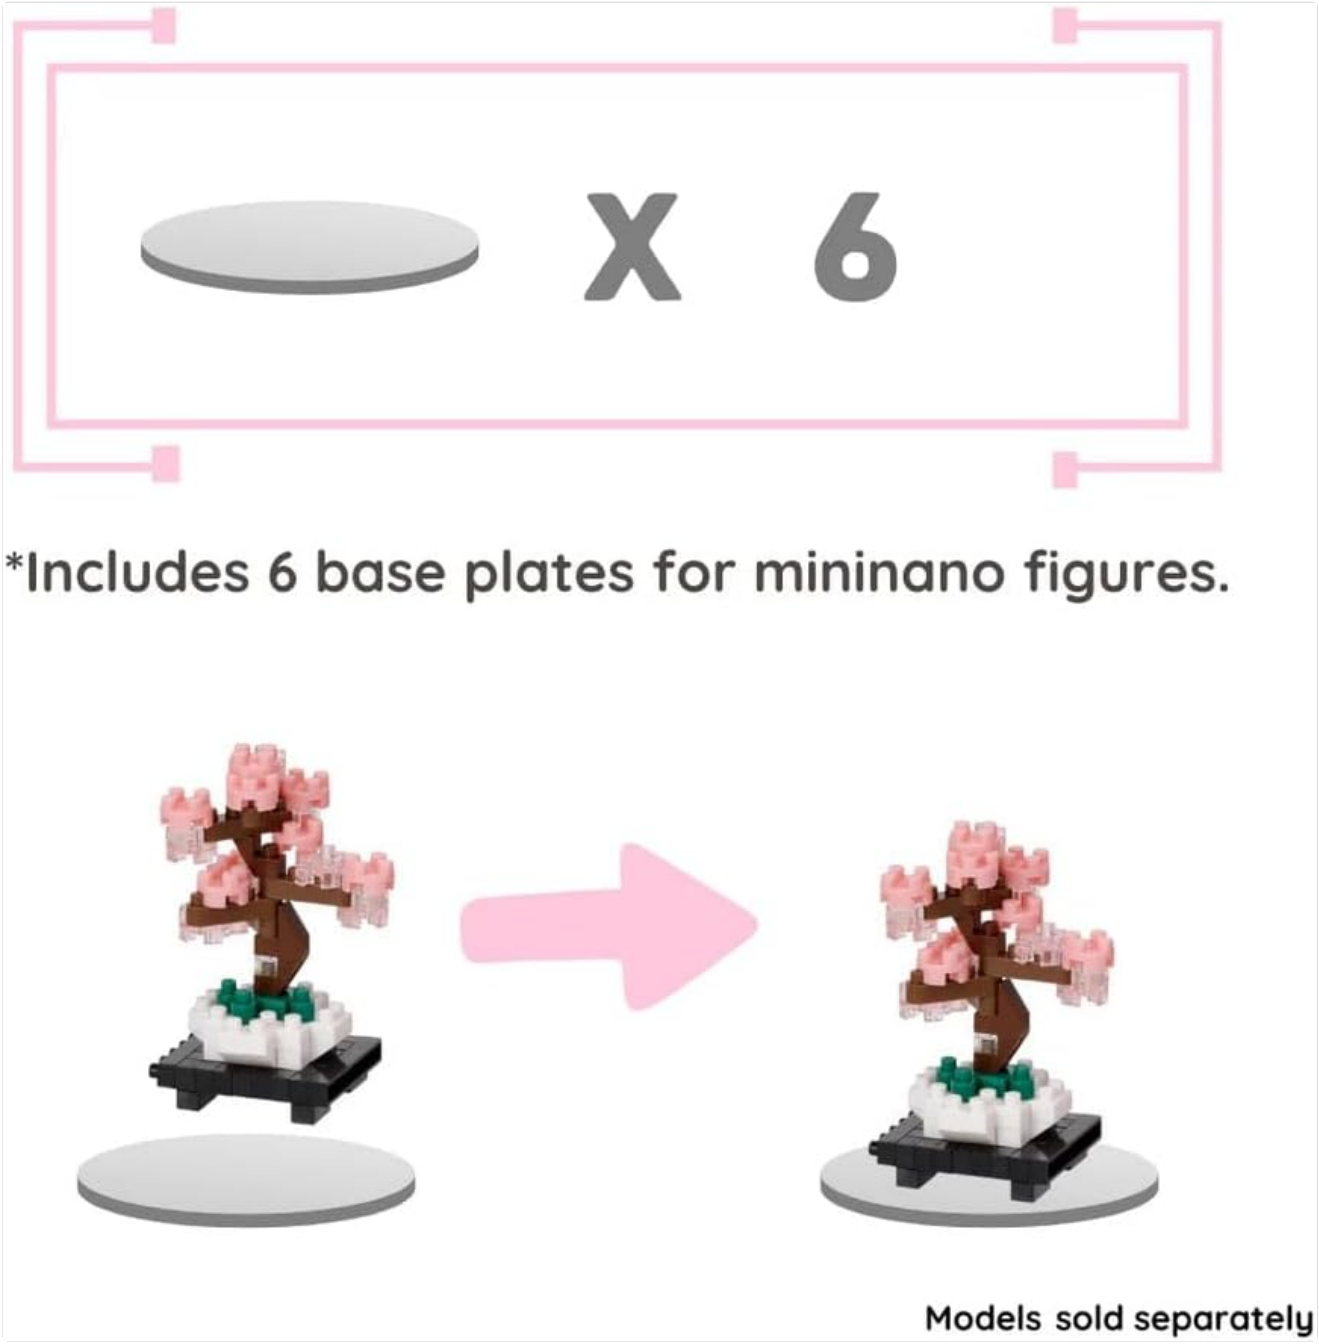

The Kawada NB-061 is a dedicated display case designed to showcase your Nanoblock Mini Nano creations. It features a clear plastic construction, allowing for an unobstructed view of your models. The case is designed to hold up to six Mini Nano finished products horizontally, protecting them from dust and accidental damage.

This image illustrates the clear design of the Kawada NB-061 display case, presenting six Nanoblock Mini Nano models arranged neatly inside. The transparent material ensures full visibility of the displayed items.

Package Contents

- 1 x Kawada NB-061 Nanoblock Mini Nano Display Case
- 6 x Mini Base Plates

This diagram highlights the inclusion of six circular base plates. These plates are designed to provide a stable foundation for individual Nanoblock Mini Nano figures within the display case, preventing them from tipping over.

Setup

1. Unpack the display case and the six mini base plates from their packaging.
2. Place your assembled Nanoblock Mini Nano figures onto the provided mini base plates. The base plates help stabilize the figures.
3. Carefully arrange the figures with their base plates inside the display case. The case is designed to accommodate up to six figures.

Usage

Displaying Your Models

The display case is designed to protect your Nanoblock Mini Nano models from dust and accidental damage while providing a clear view. Ensure the case is placed on a stable, flat surface.

Stacking Multiple Cases

For expanding your display, multiple NB-061 cases can be stacked securely. The top surface of one case features convex elements that align with corresponding indentations on the bottom of another case, ensuring stability when stacked.

This image demonstrates the stackable feature of the NB-061 display cases. Two cases are shown stacked one on top of the other, illustrating how they interlock to form a stable, multi-level display unit for multiple collections.

Maintenance

To maintain the clarity and appearance of your display case:

- Clean the case regularly with a soft, dry, lint-free cloth.
- For smudges or fingerprints, lightly dampen the cloth with water and gently wipe. Avoid abrasive cleaners or solvents, as these can damage the plastic.
- Ensure the case is completely dry before placing models back inside.

Troubleshooting

Models do not stand securely:

Ensure each model is placed on one of the provided mini base plates. The base plates are designed to improve stability.

Cases slide when stacked:

Verify that the convex elements on the top of the lower case are properly aligned with the indentations on the bottom of the upper case. This interlocking design prevents slipping.

Specifications

Feature	Detail
Model Number	NB-061
Brand	KAWADA
Material	Plastic
Product Dimensions (L x W x H)	28 cm x 7 cm x 14 cm (11.0 in x 2.8 in x 5.5 in)
Weight	380 g
Recommended Age	12 years and up
Assembly Required	No
GTIN	04972825226582
