Favoto FT0376_US Outdoor Bicycle Cover Instruction Manual

Model: FT0376_US

1. INTRODUCTION AND OVERVIEW

This manual provides instructions for the proper use and care of your Favoto Outdoor Bicycle Cover. Designed to protect your bicycle from various environmental elements, this cover features a multi-layer construction for enhanced durability and performance.

The Favoto bike cover is constructed from sturdy Oxford fabric, incorporating a triple-layer protection system: a waterproof coating, high-density Oxford fabric, and a UV protection coating. This design ensures resistance against water pressure up to 3000mmH₂O, offering reliable protection against rain, dust, sun, and wind.

Key Features:

- **Material:** Triple-layer Oxford fabric (Waterproof, High-Density, UV Protection)
- **Water Resistance:** Withstands water pressure up to 3000mmH₂O
- **Universal Fit:** Dimensions 79 x 27.5 x 44 inches (200 x 70 x 110 cm), suitable for one 29" bicycle or two 26" bicycles.
- **Windproof Design:** Elastic band at the bottom and a central windproof buckle.
- **Security:** Two aluminum alloy lock holes for securing your bike.
- **Storage:** Includes a storage bag for convenient organization.

2. SETUP INSTRUCTIONS

1. **Unpack the Cover:** Carefully remove the bicycle cover from its storage bag.
2. **Position the Bicycle:** Ensure your bicycle (or bicycles) is parked in its desired static storage location (e.g., garage, yard, roadside).
3. **Drape the Cover:** Begin by placing the cover over the handlebars and seat of your bicycle. Gently pull the cover down over the entire bicycle, ensuring it fully encloses the wheels and frame.
4. **Secure the Elastic Hem:** The cover features an elastic band around the bottom hem. Adjust this elastic to ensure a snug fit around the base of your bicycle, preventing dust and debris from entering.
5. **Fasten the Windproof Buckle:** Locate the windproof buckle positioned in the center of the cover. Connect the two buckle ends and tighten the strap to secure the cover firmly, especially in windy conditions.
6. **Utilize Lock Holes (Optional):** If additional security is desired, use the two aluminum alloy lock holes located near the wheels. Pass a bicycle lock (not included) through these holes and around your bicycle's wheel or frame to deter theft.

ANTI-THEFT LOCK HOLE

The Anti-theft lock hole also makes it windproof.

3. OPERATING INSTRUCTIONS

Using your Favoto bicycle cover is straightforward:

1. **Covering:** Follow the steps outlined in the 'Setup Instructions' section to properly place and secure the cover over your bicycle(s).
2. **Uncovering:** Unfasten the windproof buckle and remove any locks from the lock holes. Gently lift the cover off the bicycle, starting from the front or rear.
3. **Important Note:** This cover is designed exclusively for static storage in locations such as garages, yards, or roadside areas. It is **not** recommended for use on moving vehicles like cars or recreational vehicles (RVs), as this can lead to damage to the cover or the vehicle.

4. MAINTENANCE

Proper maintenance will extend the lifespan of your Favoto bicycle cover:

- **Cleaning:** To clean the cover, wipe it down with a damp cloth and mild soap. Avoid harsh chemicals or abrasive cleaners, as these can damage the waterproof and UV protection coatings. Rinse thoroughly with water and allow it to air dry completely before folding or storing.
- **Drying:** Ensure the cover is completely dry before folding and storing to prevent mold or mildew growth.
- **Storage:** When not in use, fold the cover neatly and place it in the provided storage bag. Store in a cool, dry place away from direct sunlight.

Foldable for Convenient Storage

Image 4.1: The included storage bag, demonstrating how the cover can be folded for convenient storage when not in use.

5. TROUBLESHOOTING

This section addresses common issues you might encounter:

- **Cover does not fit:** Verify the dimensions of your bicycle(s) against the cover's specifications (79 x 27.5 x 44 inches). Ensure the cover is oriented correctly over the bike. If covering two bikes, ensure they are positioned closely together.
- **Cover blows off in wind:** Ensure the elastic hem is snug around the bottom of the bike. Confirm that the central windproof buckle is securely fastened and tightened. For extreme wind conditions, consider using additional tie-downs through the lock holes.
- **Water pooling on cover:** While the cover is waterproof, prolonged pooling of water can occur if the bike is positioned in a way that creates depressions. Ensure the bike is parked on level ground and the cover is draped to allow water runoff.

6. SPECIFICATIONS

Feature	Detail
---------	--------

Brand	Favoto
Model Name	FT0376_US
Item Dimensions (LxWxH)	79 x 27.5 x 44 inches (200 x 70 x 110 cm)
