oneisall PW04 F

oneisall PW04 Cat Water Fountain Replacement Filters Instruction Manual

Model: PW04 F

Introduction

This manual provides essential instructions for the proper use and maintenance of your oneisall PW04 Cat Water Fountain Replacement Filters. Adhering to these guidelines will ensure optimal performance and longevity of the filters, contributing to clean and fresh water for your pet.
These replacement filters are specifically designed for the oneisall PW04 3.5L Wireless Cat Water Fountain (compatible with fountain models B0DNJT76WJ and B0DSJ9F3M2). They are not compatible with the PW03 wired model.

Package Contents

- 6 x oneisall PW04 Cat Water Fountain Replacement Filters

Figure 1: Contents of the replacement filter package.

Setup and Installation

1. **Preparation:** Before first use, soak the new filter in clean water for 5 minutes. This helps to remove any loose carbon dust and ensures proper water flow. After soaking, rinse the filter thoroughly under running water for another 5 minutes.

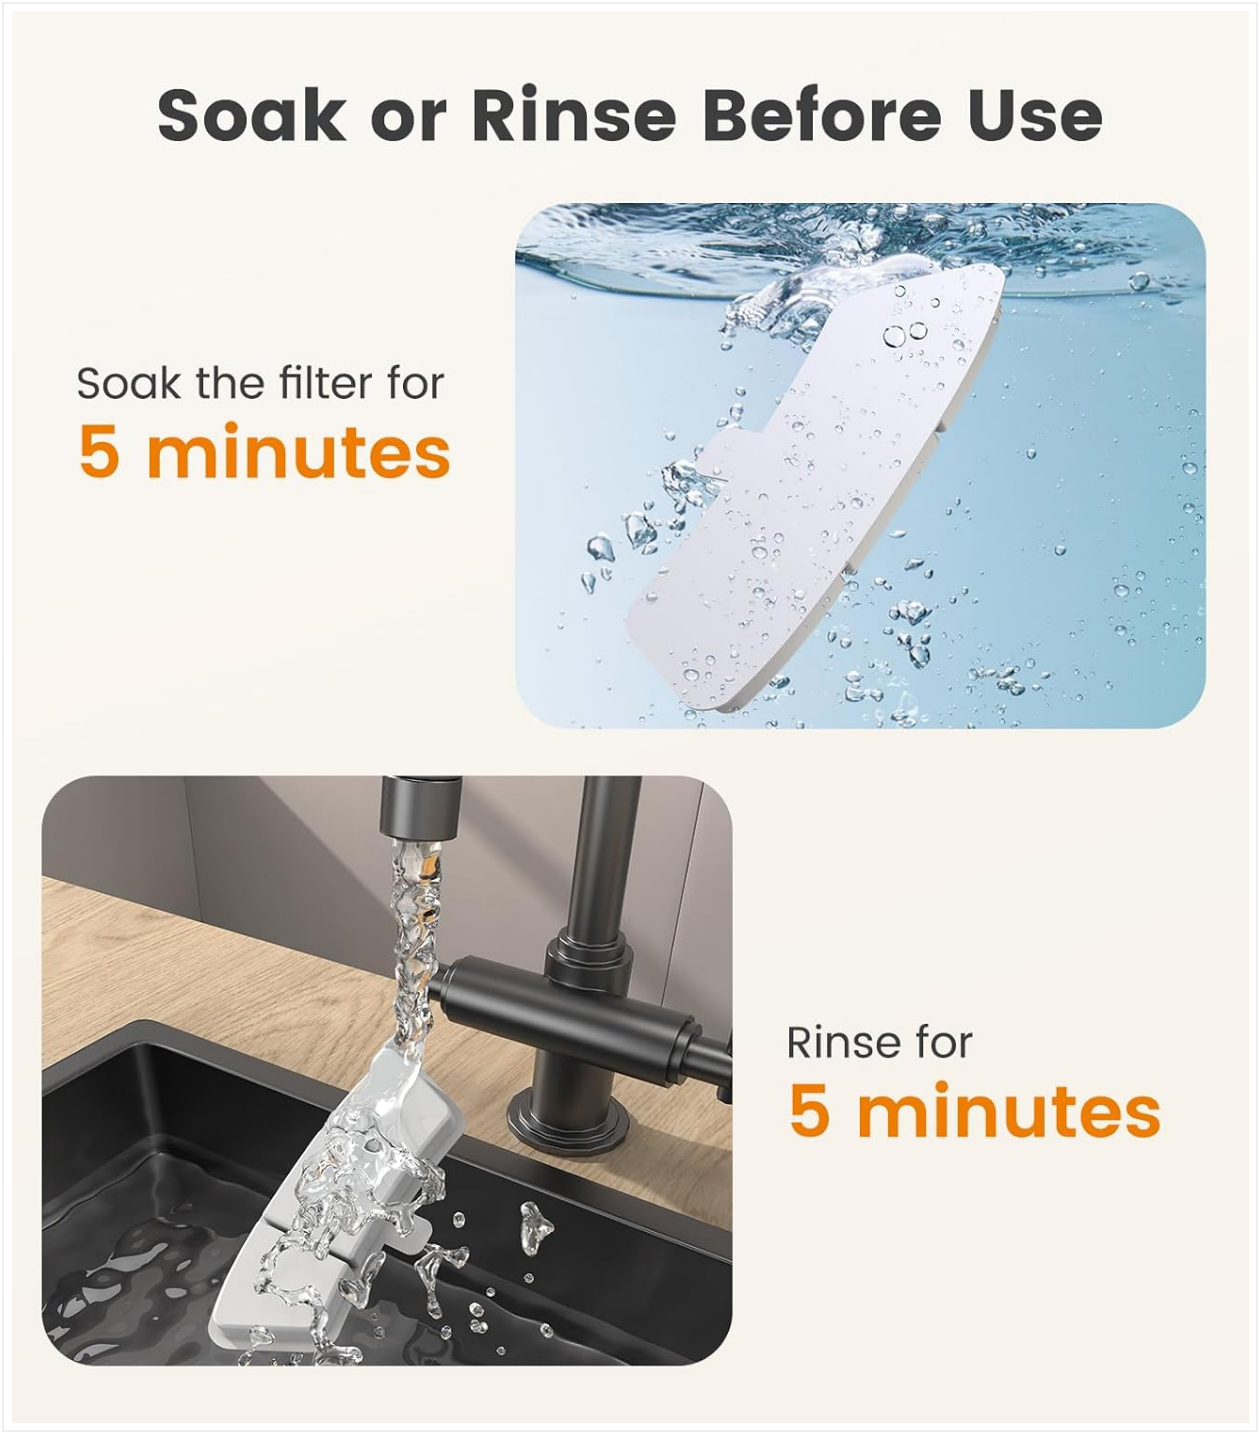

Figure 2: Filter preparation steps (soaking and rinsing).

2. **Remove Old Filter:** Disassemble your oneisall PW04 Cat Water Fountain according to its instruction manual. Locate and carefully remove the used filter from its designated slot.

3. **Install New Filter:** Place the prepared new filter into the filter tray of the fountain. Ensure it is seated correctly and securely.

Figure 3: Installation of the new filter and pre-filter sponge.

4. **Reassemble Fountain:** Reassemble the cat water fountain components. Ensure all parts are correctly aligned and secured before filling with water.
5. **Fill with Water:** Fill the fountain reservoir with clean water up to the maximum fill line.

Filter Functionality

The oneisall PW04 replacement filters feature a multi-layer filtration system designed to provide clean and healthy drinking water for your pet.

- **Pre-Filter Sponge:** Captures larger particles such as hair and debris.
- **Ion Exchange Resin:** Helps to soften water and reduce heavy metal ions.
- **Activated Carbon:** Removes odors, chlorine, and other impurities, improving water taste.
- **Filter-Cotton:** Provides additional fine filtration.

Figure 4: Diagram of the five-layer filtration system.

Maintenance and Replacement

Regular filter replacement is crucial for maintaining water quality and the overall health of your pet. It is recommended to replace the filter approximately every 2 weeks.

- **Frequency:** Replace the filter every 2 weeks under normal usage conditions. If you have multiple pets or notice increased debris, more frequent replacement may be necessary.
- **Fountain Cleaning:** Always clean the fountain thoroughly when replacing the filter to prevent buildup and maintain hygiene.
- **Disposal:** Dispose of used filters responsibly.

Troubleshooting

If you encounter issues with your fountain's water quality or flow after installing a new filter, consider the following:

- **Reduced Water Flow:** Ensure the filter was properly soaked and rinsed before installation. A new filter that wasn't adequately prepared might restrict water flow. Check for any debris or hair that might be clogging the pre-filter sponge or pump.
- **Unpleasant Odor/Taste:** If the water develops an odor or taste shortly after replacement, ensure the filter was new and properly installed. Consider replacing the filter sooner if environmental factors (e.g., high humidity, multiple pets) contribute to faster degradation.
- **Filter Not Seated Correctly:** Recheck the installation steps to ensure the filter is securely placed in its tray, allowing water to pass through it effectively.

Specifications

Brand:	oneisall
Model Name:	PW04 F
Material:	Activated Carbon, Ion Exchange Resin, Filter-Cotton
Number of Items:	6 (per package)

Care Instructions:	Replace filter approximately every 2 weeks
Compatible Fountain Models:	oneisall PW04 3.5L Wireless Cat Water Fountain (B0DNJT76WJ, B0DSJ9F3M2)
