## Whirlpool MAGIC CLEAN 6.5 GREY

# Whirlpool 6.5 Kg 5 Star Magic Clean Semi-Automatic Top Loading Washing Machine User Manual

Model: MAGIC CLEAN 6.5 GREY

## 1. PRODUCT OVERVIEW

The Whirlpool 6.5 Kg 5 Star Magic Clean Semi-Automatic Top Loading Washing Machine is designed for efficient and convenient laundry care. This semi-automatic washing machine features a 6.5 kg capacity, making it suitable for small to medium-sized families. It boasts a 5-star energy rating for best-in-class efficiency and a powerful 1400 RPM motor for faster drying.

Key features include the Ace Wash Station for easy sorting, stacking, and carrying of clothes, three distinct wash programs for customized fabric care, an in-built scrubber for effective collar cleaning, and Max Dry Vents for quick drying during the spin cycle. The machine is also equipped with 4 large wheels for enhanced mobility and a rust-proof body with rat protection for durability.

## 2. SETUP AND INSTALLATION

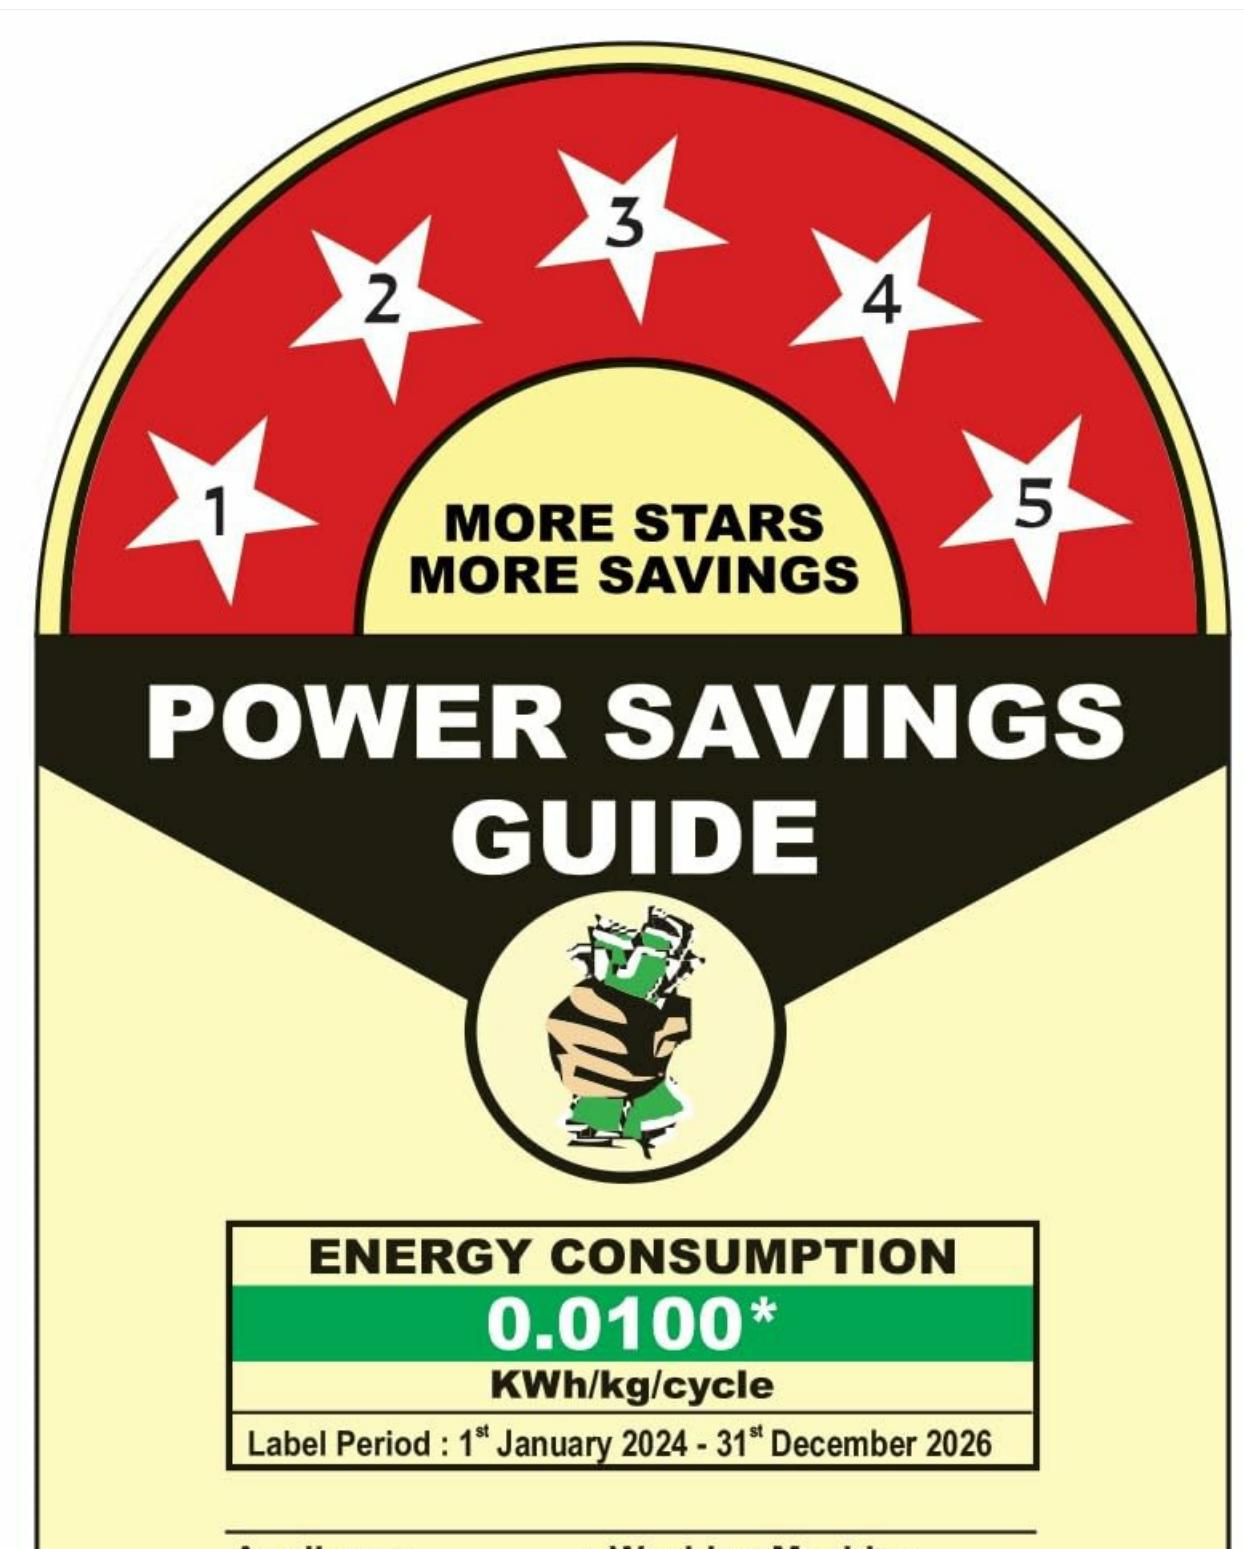

Before operating your new washing machine, ensure proper setup and installation. The machine is designed for freestanding installation.

## 2.1 Unpacking

Carefully remove all packaging materials. Inspect the machine for any damage incurred during transit. Keep packaging materials away from children.

## 2.2 Placement

Place the washing machine on a firm, level surface. Ensure there is adequate space around the machine for ventilation and access. The machine is equipped with 4 large wheels for ease of mobility, allowing you to move it to your desired location with minimal effort.

## Simple & Easy to use control panel

Whirlpool®

Dedicated knobs for wash timer, dry timer and drain selector

Image 5: Back view of the washing machine, showing the drain hose connection point.

### 2.3 Water and Drain Connections

Connect the water inlet hose to a suitable water tap. Ensure the connection is secure to prevent leaks. Insert the provided drain hose into a drain pipe or sink, ensuring it is positioned to allow for proper water drainage.

## 3. OPERATING INSTRUCTIONS

This section details how to operate your Whirlpool semi-automatic washing machine for optimal cleaning results.

### 3.1 Control Panel Overview

The control panel features dedicated knobs for the wash timer, drain selector, and dry timer, allowing for easy selection of wash cycles and drying options.

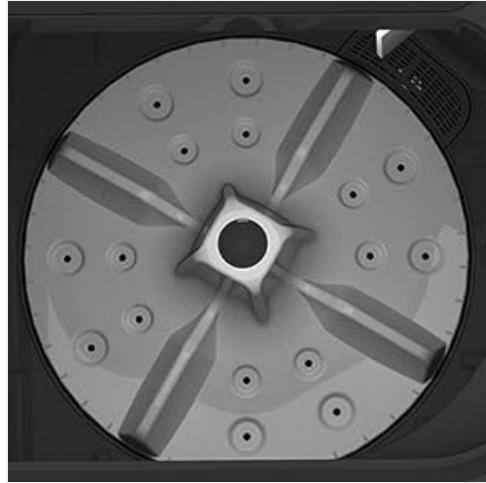

Image 6: Close-up of the control panel, showing the wash timer, drain selector, and dry timer knobs.

### 3.2 Ace Wash Station

The integrated Ace Wash Station provides a convenient area on the lid for sorting, stacking, and carrying clothes before and after washing. This feature simplifies the laundry process.

Image 7: The Ace Wash Station on the washing machine lid, demonstrating its utility for laundry preparation.

### 3.3 Wash Programs

The machine offers three wash programs to cater to different fabric types and soil levels:

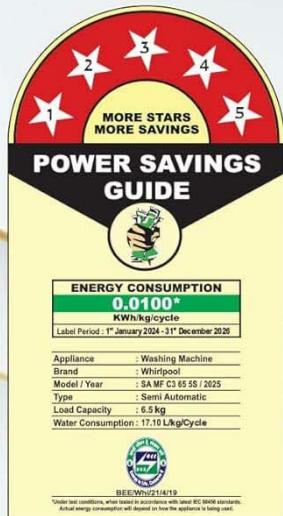

- **Delicate Cycle:** Ideal for washing delicate fabrics such as silk, lace, and wool.
- **Normal Cycle:** A versatile option for everyday washing of various fabrics.
- **Heavy Cycle:** Suitable for cleaning heavily soiled items such as bedding and towels.

### 3.4 In-Built Scrubber

For efficient cleaning of stubborn dirt, especially on collars, utilize the unique in-built scrubber located within the wash tub.

### 3.5 Drying with Max Dry Vents

The spin lid is equipped with specially designed Max Dry Vents that facilitate quick drying of your clothes during the spin cycle, reducing overall drying time.

Image 9: View of the pulsator inside the wash tub, designed for thorough cleaning.

### 3.6 Detergent Dispenser

Add detergent to the designated dispenser. Refer to your detergent's instructions for appropriate quantities based on load size and water hardness.

#### Comes with **In-built Lint Filter**

Triple-layer filtration traps lint, delivering cleaner, fresher clothes every wash.

## 4. MAINTENANCE

---

Regular maintenance ensures the longevity and optimal performance of your washing machine.

### 4.1 Cleaning the Lint Filter

The machine comes with an in-built lint filter. Regularly clean the lint filter to prevent lint buildup and ensure cleaner, fresher clothes with every wash.

Image 11: Close-up of the in-built lint filter, showing its design for trapping lint.

### 4.2 Exterior Care

The machine features a rust-proof body for long-lasting durability. Wipe the exterior with a soft, damp cloth to keep it clean. Avoid using abrasive cleaners.

Image 12: Illustration of the machine's rust-proof body and rat protection features.

### 4.3 Rat Protection

The machine is designed with rat protection features to prevent damage from rodents. Ensure the machine is placed in an area where these features are not compromised.

## 5. TROUBLESHOOTING

This section provides solutions to common issues you might encounter. If the problem persists, please contact customer support.

- Machine not starting:** Check if the power cord is securely plugged in and if there is power supply to the outlet. Ensure the lid is properly closed.
- Water not filling:** Verify that the water tap is open and the water inlet hose is not kinked or blocked.
- Water not draining:** Check if the drain hose is properly positioned and not clogged. Ensure the drain selector is set correctly.
- Excessive vibration/noise:** Ensure the machine is on a level surface. Distribute the laundry evenly inside the tub.
