BoxWave SlimKeys Bluetooth Keyboard

BoxWave SlimKeys Bluetooth Keyboard User Manual

Model: SlimKeys Bluetooth Keyboard (bw-1173-53975-8831)

1. INTRODUCTION

The BoxWave SlimKeys Bluetooth Keyboard is a portable, ultra-thin wireless keyboard designed for use with various devices, including tablets, smartphones, and computers. It features chiclet-style keys for comfortable typing and connects via Bluetooth 3.0, offering a reliable and efficient typing experience on the go.

2. PRODUCT FEATURES

The SlimKeys Bluetooth Keyboard incorporates several features designed for user convenience and portability:

- **Ultra-Thin Design:** Measuring approximately 3/16 inch (0.5 cm) thick, the keyboard is highly portable.

- **Lightweight Construction:** Weighing approximately 8.6 ounces, it is easy to carry.

- **Chiclet-Style Keys:** Provides a tactile and comfortable typing experience.

- **Bluetooth 3.0 Connectivity:** Ensures quick and reliable wireless pairing.

- **Multi-Platform Compatibility:** Works with Android, Windows, and iOS operating systems.

- **Power-Efficient:** Features a built-in on/off switch and Bluetooth 3.0 for reduced power consumption.

Chiclet Keys

3. SETUP AND PAIRING

Follow these steps to connect your SlimKeys Bluetooth Keyboard to your device:

1. **Charge the Keyboard:** Before initial use, ensure the keyboard is fully charged using the provided charging cable. Connect the cable to the keyboard's charging port and a USB power source. The 'Charge' indicator light will illuminate during charging and turn off when fully charged.

2. **Power On:** Locate the ON/OFF switch on the top right side of the keyboard. Slide the switch to the 'ON' position. The 'Power' indicator light will briefly illuminate.

3. **Enter Pairing Mode:** Press the 'Connect' button, usually located near the ON/OFF switch. The 'Connect' indicator light will begin to blink, indicating the keyboard is in pairing mode.

4. **Enable Bluetooth on Your Device:** On your tablet, smartphone, or computer, go to the Bluetooth settings and ensure Bluetooth is enabled.

5. **Select the Keyboard:** Your device will search for available Bluetooth devices. Look for "BoxWave SlimKeys Keyboard" or a similar name in the list and select it.

6. **Confirm Pairing:** Your device may display a pairing code. Type this code on the SlimKeys keyboard and press 'Enter'. Once successfully paired, the 'Connect' indicator light on the keyboard will stop

blinking and turn off.

The keyboard should now be connected and ready for use. It will automatically attempt to reconnect to the last paired device when powered on.

Location of the ON/OFF switch and Connect button for pairing.

4. OPERATING INSTRUCTIONS

4.1 General Typing

Use the keyboard as you would a standard computer keyboard. The chiclet-style keys provide a comfortable and responsive typing experience.

4.2 Function Keys

The SlimKeys keyboard includes specialized function keys (F1-F12) that provide quick access to common commands. These functions may vary slightly depending on the operating system of your connected device.

Overview of specialized function keys and their corresponding actions.

Function Key Overview

Key	Function
Esc / **Home**	Returns to Home screen (iOS/Android) or Esc (Windows)
F1 / **Search**	Activates search function
F2 / **Select All**	Selects all text or items
F3 / **Copy**	Copies selected content
F4 / **Paste**	Pastes copied content
F5 / **Cut**	Cuts selected content
F6 / **Skip Back**	Skips to previous track/media
F7 / **Play/Pause**	Plays or pauses media
F8 / **Skip Forward**	Skips to next track/media
F9 / **Volume Down**	Decreases volume
F10 / **Volume Up**	Increases volume
F11 / **Brightness Down**	Decreases screen brightness
F12 / **Brightness Up**	Increases screen brightness
Delete / **Lock**	Deletes characters or locks the device screen

4.3 Operating System Selection

The keyboard is compatible with multiple operating systems. To optimize key functions for your specific device, use the following key combinations:

- **Fn + Q:** For Android devices
- **Fn + W:** For Windows devices
- **Fn + E:** For iOS devices

Typing comfortably across Android, Windows, and iOS devices.

5. Charging and Battery Maintenance

The SlimKeys Bluetooth Keyboard is equipped with a long-lasting internal battery.

- **Charging:** Connect the included USB charging cable to the keyboard's charging port and a standard USB power adapter (not included) or a computer's USB port. The 'Charge' indicator light will be red during charging and turn off when the battery is full.
- **Battery Life:** A full charge provides up to 30 days of continuous use or up to 6 months of standby time when powered off.
- **Power Saving:** To conserve battery, slide the ON/OFF switch to the 'OFF' position when the keyboard is not in use for extended periods.

The keyboard features a long-lasting battery, rechargeable via the included cable.

6. TROUBLESHOOTING

If you encounter issues with your SlimKeys Bluetooth Keyboard, refer to the following common solutions:

- **Keyboard Not Pairing:**

  - Ensure the keyboard is charged and powered on.
  - Make sure Bluetooth is enabled on your device.
  - Press the 'Connect' button on the keyboard to enter pairing mode.
  - Delete any previous pairings of the keyboard from your device's Bluetooth list and attempt to pair again.
  - Move the keyboard closer to your device.

- **Keys Not Responding:**

  - Check if the keyboard is powered on and connected to your device.
  - Recharge the keyboard if the battery is low.
  - Try disconnecting and re-pairing the keyboard.
  - Ensure the correct operating system mode (Fn+Q/W/E) is selected for your device.

- **Intermittent Connection:**

  - Ensure there are no obstructions between the keyboard and your device.
  - Avoid using the keyboard near strong electromagnetic interference sources.
  - Re-pair the keyboard with your device.
