- **Speaker not turning on:** Ensure the battery is charged. Connect to the power cable or charging dock. If issues persist, perform a soft reset by holding the power button for an extended period (e.g., 10-15 seconds).
- **No sound or poor sound quality:**
 - Check volume levels on both the speaker and your connected device.
 - Ensure the speaker is properly connected via Wi-Fi or Bluetooth.
 - Move the speaker closer to your Wi-Fi router or Bluetooth device.
 - If experiencing bass issues at high volumes, reduce the volume to prevent protection mechanisms from activating.
- **Connectivity issues (Wi-Fi/Bluetooth):**
 - Restart the speaker and your connected device.
 - Forget the device in your Bluetooth settings and re-pair.
 - Verify Wi-Fi network credentials in the Devialet App.
- **Slow boot-up or connection:** This is a known characteristic; the speaker typically takes 15-25 seconds to boot and connect to Wi-Fi.
