Image 3.7: Overview of key features including Face Unlock ID, Dual 4G support, device weight (186g), and the 3.5mm connection port.

4. SETUP

4.1. Inserting SIM Card(s) and MicroSD Card

1. Locate the SIM card tray on the side of your phone.
2. Insert the SIM ejector tool into the small hole next to the tray and press gently until the tray pops out.
3. Place your Nano-SIM card(s) and/or MicroSD card into the designated slots on the tray. Ensure the gold contacts are facing down.
4. Carefully push the tray back into the phone until it clicks into place.

4.2. Initial Power On and Setup

1. Press and hold the Power button (usually on the right side) until the DOOGEE logo appears.
2. Follow the on-screen instructions to select your language, connect to Wi-Fi, set up your Google account, and configure security settings like Face Unlock ID.

4.3. Charging the Device

Before first use, it is recommended to fully charge your phone. Connect the USB charging cable to the phone's charging port and the power adapter, then plug the adapter into a wall outlet. The battery indicator on the screen will show charging status.

5. OPERATING

5.1. Basic Navigation

- **Touchscreen:** Tap to select, swipe to scroll, pinch to zoom.
- **Home Screen:** Access apps, widgets, and notifications.
- **Navigation Bar:** Use the Back, Home, and Recent Apps buttons (or gestures) at the bottom of the

screen.

5.2. Making Calls and Sending Messages

- **Calls:** Open the Phone app, dial a number or select a contact, then tap the call icon.
- **Messages:** Open the Messages app, tap 'Start chat', enter a recipient, type your message, and tap send.

5.3. Internet Connectivity

- **Wi-Fi:** Go to Settings > Network & internet > Wi-Fi. Turn Wi-Fi on, select a network, and enter the password if required.
- **Mobile Data:** Go to Settings > Network & internet > Mobile network. Ensure Mobile data is turned on.

5.4. Camera Usage

Open the Camera app. Tap the shutter button to take a photo. Swipe left or right to switch between photo, video, and other modes. Use the front/rear camera toggle to switch between the 13MP rear camera and the 8MP front camera.

5.5. Security Features

Your DOOGEE N55PRO supports Face Unlock ID. To set it up, go to Settings > Security > Face Unlock and follow the on-screen instructions to register your face.

6. MAINTENANCE

6.1. Cleaning the Device

Use a soft, lint-free cloth to gently wipe the screen and body of your phone. Avoid using harsh chemicals or abrasive materials, as they can damage the device's finish.

6.2. Battery Care

- Avoid exposing the phone to extreme temperatures.
- Use only the original charger or a certified compatible charger.
- Do not leave the phone charging for excessively long periods after it's fully charged.

6.3. Software Updates

Regularly check for software updates to ensure your phone has the latest features, security patches, and performance improvements. Go to Settings > System > System update to check for and install available updates.

6.4. Data Backup

It is recommended to regularly back up your important data (photos, contacts, documents) to a cloud service (like Google Drive) or a computer to prevent data loss.

7. TROUBLESHOOTING

This section addresses common issues you might encounter with your DOOGEE N55PRO.

Problem	Possible Solution
Phone does not turn on	Ensure the battery is charged. Connect to a charger for at least 10 minutes, then try powering on again. If unresponsive, perform a forced restart by holding the Power button for 10-15 seconds.
Apps are crashing or freezing	Clear the cache of the problematic app (Settings > Apps > [App Name] > Storage & cache > Clear cache). If the issue persists, restart the phone or reinstall the app.
Cannot connect to Wi-Fi	Ensure Wi-Fi is enabled. Restart your router and phone. Forget the network and reconnect. Check if other devices can connect to the same Wi-Fi network.
Poor call quality or no signal	Check if your SIM card is properly inserted. Move to an area with better network coverage. Restart your phone. Contact your mobile carrier if the issue persists.
Battery drains quickly	Reduce screen brightness, close unused apps running in the background, disable unnecessary features like GPS or Bluetooth when not in use. Check battery usage in Settings to identify power-hungry apps.

8. SPECIFICATIONS
