ASSEMBLY INSTRUCTIONS (24-DAY COUNTDOWN)

This advent calendar is designed for a daily building experience, with each day revealing components for a specific part of the Christmas House or its accompanying figures.

- **Daily Unboxing:** Starting from December 1st, open the numbered box corresponding to the current day. Each box contains the building blocks for that day's segment.
- **Follow Detailed Instructions:** Refer to the included instruction manual for step-by-step guidance on assembling the pieces from each daily box. Ensure each step is completed accurately before proceeding.
- **Secure Connections:** Apply firm, even pressure when connecting blocks to ensure they are securely fastened. Loose connections can affect the stability of the final model.
- **Organize Pieces:** Keep unused pieces organized to prevent loss and facilitate easier assembly on subsequent days.
- **Completion:** By December 24th, all 24 boxes will have been opened and assembled, completing your Qinline Christmas House display.

24 DAYS OF COUNTDOWN SURPRISES

You can follow the instruction and enjoy the fun building it as decorations for Christmas. It will be a big hit!

MAINTENANCE AND DISPLAY

- **Cleaning:** To clean the building blocks or the assembled model, gently wipe with a dry, soft cloth. For stubborn dust, a slightly damp cloth can be used, followed by immediate drying. Avoid harsh chemicals or abrasive materials.
- **Storage:** If disassembling for storage, keep all pieces in a secure container to prevent loss. Store in a cool, dry place away from direct sunlight to prevent material degradation.
- **Display:** The completed Christmas House is designed as a decorative item. Place it on a stable surface where it can be admired without risk of being knocked over.

TROUBLESHOOTING

- **Missing Pieces:** If you discover missing pieces, thoroughly check all packaging materials and the building area. If pieces are still missing, please contact Qinline customer support for assistance.
- **Difficulty Connecting Pieces:** Ensure pieces are correctly oriented and apply firm, consistent pressure. If pieces do not fit, verify you are using the correct components as per the instructions.
- **Model Instability:** Review previous steps to ensure all connections are secure. Re-press any loose blocks. Ensure the model is built on a flat, stable surface.
