HOTPEAK Carplay Screen for Car

HOTPEAK 7-inch Portable Carplay Screen User Manual

Model: Carplay Screen for Car
Brand: HOTPEAK

Product Overview

The HOTPEAK 7-inch Portable Carplay Screen is designed to enhance your driving experience by integrating smartphone functionalities directly into your vehicle. This unit supports both Apple CarPlay and Android Auto, offering seamless access to navigation, music, calls, and more. It features Bluetooth 5.3 for stable audio, screen mirroring, smart voice control, and OTA updates.

Key Features:

- **Stable Wireless Carplay and Android Auto:** Compatible with both Apple Carplay and Android Auto for automatic smartphone connection.
- **Upgrade Bluetooth 5.3 Audio:** Provides crystal-clear audio to your car's stereo system via FM and AUX outputs.
- **Screen Mirroring:** Allows mirroring of iPhone or Android content (e.g., YouTube, TikTok) when connected to the same Wi-Fi network.
- **Smart Voice Control:** Built-in microphone for hands-free interaction with Siri or Google Assistant.
- **OTA Online Upgrade:** Effortless system updates via Super Link mode for a smoother user experience.
- **Smart GPS Navigation:** Syncs with your smartphone for real-time navigation without frequent updates or extra costs.
- **Universal Fit with Easy Setup:** Features an extendable suction cup for secure mounting on your dashboard or windshield, with simple plug-and-play installation.

What's in the Box

- 1 x 7 Inch Carplay Screen Monitor
- 1 x 9.8 ft Car Charger Cable
- 1 x 4.65ft Aux cable
- 1 x Suction Cup Bracket
- 1 x User Manual and Tools

Setup and Installation

Follow these steps to properly set up and install your HOTPEAK Carplay Screen:

1. Mounting the Screen

1. **Attach Mount to Screen:** Securely connect the suction cup bracket to the back of the 7-inch Carplay screen.
2. **Prepare Dashboard/Windshield:** Clean the desired mounting surface on your dashboard or windshield thoroughly to ensure optimal adhesion.
3. **Apply Adhesive Base (Optional for Dashboard):**If using the dashboard, peel the red film from the round adhesive base and firmly press it onto the cleaned dashboard. Allow it to sit for 10 hours for maximum adhesion before attaching the suction cup.
4. **Attach Suction Cup:** Press the suction cup firmly onto the prepared surface (dashboard adhesive base or windshield) and press down the fixed button for additional reinforcement.
5. **Adjust Angle:** Rotate the screen left, right, up, and down to achieve your preferred viewing angle.

2. Power Connection

1. **Connect Power Cable:** Plug the car charger cable into your vehicle's cigarette lighter socket.
2. **Connect to Screen:** Plug the other end of the power cable (USB Type-C) into the designated port on

the Carplay screen. The screen will power on automatically.

Operating Instructions

1. Connecting to Apple CarPlay (Wireless)

1. **Select CarPlay Mode:** On the Carplay screen, tap the "Carplay" icon. Confirm the switch to CarPlay mode.
2. **Enable Bluetooth & Wi-Fi:** On your iPhone, go to Settings and ensure both Bluetooth and Wi-Fi are turned on.
3. **Pair Device:** In your iPhone's Bluetooth settings, locate and tap on the device name (e.g., "T86B-3F6E" or similar) displayed on the Carplay screen. Confirm the pairing request.
4. **Allow Contacts Sync (Optional):** If prompted, allow contacts and favorites to sync.
5. **CarPlay Activation:** Your iPhone will connect to CarPlay, and the CarPlay interface will appear on the screen.

2. Connecting to Android Auto (Wireless)

1. **Select Android Auto Mode:** On the Carplay screen, tap the "Android Auto" icon. Confirm the switch to Android Auto mode.
2. **Enable Bluetooth & Wi-Fi:** On your Android phone, go to Settings and ensure both Bluetooth and Wi-Fi are turned on.
3. **Pair Device:** In your Android phone's Bluetooth settings, locate and tap on the device name (e.g., "T86B-3F6E" or similar) displayed on the Carplay screen. Confirm the pairing request.
4. **Android Auto Activation:** Your Android phone will connect to Android Auto, and the Android Auto interface will appear on the screen.

3. Audio Output Options

The Carplay screen offers multiple ways to output audio to your car's speakers:

- **Built-in Speaker:** Audio plays directly from the screen's internal speakers.
- **Bluetooth Audio:** Connect your phone's Bluetooth to your car's original stereo system for enhanced sound quality.
- **FM Transmitter:** Tune your car's FM radio to the frequency displayed on the Carplay screen to transmit audio.
- **AUX Output:** Use the provided AUX cable to connect the Carplay screen to your car's AUX input.

Image: A visual representation of the four audio output options: Bluetooth, AUX Connection, Built-in Speaker, and FM Transmitter.

4. Screen Mirroring (Super Link / Airplay)

To mirror your phone's screen to the Carplay unit:

1. **Select Super Link (Android) or Airplay (iPhone):** On the Carplay screen, tap the appropriate icon.
2. **Connect to Wi-Fi:** Ensure your phone and the Carplay screen are connected to the same Wi-Fi network (e.g., "EVELINK-DDDA37" with password "12345678").
3. **Activate Screen Mirroring:** On your phone, initiate screen mirroring and select "SmartScreen" or the device name.

Image: The main interface of the HOTPEAK screen, highlighting the options for Wireless Carplay, Android Auto, and Airplay/Super Link for screen mirroring.

5. Smart Voice Control

Utilize the built-in microphone for hands-free control:

- **Activate Voice Assistant:** Say "Hey Siri" (for iPhone) or "Hey Google" (for Android) to activate your phone's voice assistant.
- **Issue Commands:** Use voice commands for navigation, making calls, sending messages, playing music, and more.

Image: The Carplay screen showing voice command prompts for Siri and Google Assistant, illustrating hands-free operation for calls and music.

6. GPS Navigation

Access real-time navigation through your connected smartphone:

- **Open Maps App:** Select your preferred navigation app (e.g., Apple Maps, Google Maps) from the CarPlay or Android Auto interface.
- **Enter Destination:** Use the touchscreen or voice control to enter your destination.

- **Follow Directions:** Receive turn-by-turn directions and real-time traffic updates on the screen.

Image: The Carplay screen showing a detailed GPS navigation map with route information, enhancing driving safety and convenience.

Maintenance

- **Cleaning:** Use a soft, dry cloth to clean the screen. Avoid abrasive cleaners or solvents.
- **Software Updates:** Regularly check for OTA (Over-The-Air) updates to ensure optimal performance and access to new features. Follow the on-screen prompts for "Super Link" mode to update the system.
- **Cable Management:** Ensure all cables are neatly routed and not pinched to prevent damage.
- **Storage:** If removing the device for extended periods, store it in a cool, dry place away from direct sunlight.

Troubleshooting

Problem	Possible Solution
Screen does not power on.	• Ensure the power cable is securely plugged into both the cigarette lighter and the Carplay screen. • Check if the vehicle's cigarette lighter socket is functioning.
Cannot connect to Apple CarPlay/Android Auto.	• Verify Bluetooth and Wi-Fi are enabled on your smartphone. • Ensure the correct CarPlay/Android Auto mode is selected on the screen. • Forget the device in your phone's Bluetooth settings and try pairing again. • Restart both your phone and the Carplay screen.
No audio from car speakers.	• Check the selected audio output mode on the Carplay screen (Bluetooth, FM, AUX). • If using Bluetooth, ensure your phone is paired to your car's original stereo. • If using FM, ensure your car radio is tuned to the correct frequency. • If using AUX, ensure the AUX cable is securely connected to both devices.

Problem	Possible Solution
Screen mirroring not working.	• Ensure your phone and the Carplay screen are connected to the same Wi-Fi network. • Verify that "Super Link" (Android) or "Airplay" (iPhone) mode is active on the screen. • Check your phone's screen mirroring settings and select the correct device.
