- **Cleaning:** Wipe the desktop and metal frame with a soft, damp cloth. Avoid harsh chemicals or abrasive cleaners. For fabric drawers, spot clean with a mild detergent and allow to air dry.
- **Inspection:** Periodically check all screws and connections to ensure they remain tight. Retighten if necessary.
- **Avoid Overloading:** Do not overload the fabric drawers or the side storage bag, as this can cause sagging or damage over time.
- **Heat Protection:** Use coasters or protective pads under hot items to prevent damage to the desktop surface.

7. TROUBLESHOOTING

If you encounter any issues with your desk, refer to the following common solutions:

Problem	Possible Cause	Solution

Fabric drawers sag or are difficult to open/close.	Overloaded drawers; improper installation.	Reduce the weight in the drawers. Ensure drawers are correctly seated on their supports.
