SETUP AND CONFIGURATION

1. Configuring Internal Dividers

The PGYTECH Camera Insert Bag comes with adjustable dividers to customize the internal layout according to your equipment. These dividers attach securely with Velcro.

1. Open the main zipper of the bag to access the interior.
2. Identify your camera bodies, lenses, and accessories. Plan their arrangement to maximize space and protection.
3. Attach the dividers to the soft Velcro lining inside the bag. Ensure they are firmly pressed against the lining for secure placement.
4. Adjust the position of the dividers as needed to create snug compartments for each item, preventing movement during transport.

Image: The bag's interior with flexible dividers arranged to accommodate different camera equipment.

2. Converting to a Shoulder Bag (Sizes XS, S, M only)

For sizes XS, S, and M, the insert bag can be transformed into a convenient shoulder bag using the included shoulder strap. The Large (L) size is primarily designed as an insert and does not include a shoulder strap.
1. Locate the buckle attachment points on the sides of the insert bag.
2. Attach each end of the shoulder strap to these buckle points, ensuring they are securely fastened.
3. Adjust the length of the shoulder strap for comfortable carrying.

OPERATION AND USAGE

1. Organizing Your Gear

Utilize the adjustable dividers to create custom compartments that snugly fit your camera body, lenses, and other accessories. This prevents items from shifting and provides optimal protection.

Image: An overhead view of the bag's interior, showcasing a well-organized arrangement of camera equipment using the flexible dividers.

2. Quick Access and Lens Changes

When used as a shoulder bag or inserted into a larger backpack, the bag's design allows for quick and easy access to your equipment, facilitating rapid lens changes or camera retrieval.

Quick Access Capture Brilliance

MAINTENANCE

To ensure the longevity and performance of your PGYTECH Camera Insert Bag, follow these maintenance guidelines:

- **Cleaning:** For minor dirt or dust, wipe the exterior with a soft, damp cloth. For more stubborn stains, use a mild soap solution and a soft brush, then wipe clean with a damp cloth. Allow to air dry completely.
- **Water Resistance:** The bag features a water-resistant surface treatment. While it offers protection against splashes, it is not fully submersible. Avoid prolonged exposure to heavy rain or submersion in water.

Soft, Adhesive Magic Interior

Image: Detail showing water droplets beading on the bag's surface, demonstrating its splash-proof characteristic.

- **Storage:** Store the bag in a cool, dry place away from direct sunlight when not in use.
- **Zipper Care:** Periodically check the YKK zippers for any debris and clean if necessary to ensure smooth operation.

TROUBLESHOOTING

If you encounter any issues with your PGYTECH Camera Insert Bag, consider the following common scenarios:

- **Bag Deforms/Loses Shape:** Ensure the bag is not overpacked. The embedded steel frame provides structural integrity, but excessive force or improper packing can temporarily affect its shape. Repack items evenly.
- **Dividers Not Staying in Place:** Ensure the Velcro on the dividers and the interior lining are clean and free of lint or debris. Press the dividers firmly against the lining to ensure a strong adhesion.
- **Zippers Sticking:** Clean the zipper teeth with a small brush to remove any dirt. A small amount of zipper lubricant (e.g., beeswax or silicone spray) can be applied if needed, but avoid getting it on the fabric.
- **Equipment Not Fitting:** Refer to the specifications section for external and internal dimensions. Adjust dividers to optimize space. If you have the L size, remember it is designed for larger setups and does not include a shoulder strap for conversion.

SPECIFICATIONS

| Attribute	Detail
Brand	PGYTECH
Model Number	P-CB-256
Item Weight	3.08 pounds (approx. 1.4 kg)
Package Dimensions	18.9 x 13 x 7.3 inches (approx. 48 x 33 x 18.5 cm)
