SAFETY INFORMATION

WARNING: To avoid serious injury, adult supervision is required. Never use in roadways, near motor vehicles, on or near steep inclines or steps, swimming pools or other bodies of water. Always wear shoes. Never allow more than one rider. This product is not intended for children under 36 months due to small parts. Maximum weight capacity is 66 lbs (30 kg).

- Always ensure the child is securely seated and the safety belt is fastened.
- Operate the vehicle on flat, dry surfaces only. Avoid sand, loose dirt, or gravel.
- Keep hands, hair, and clothing away from moving parts.
- Do not modify the electrical system.
- Charge the battery only with the provided charger.

PACKAGE CONTENTS

Please check the package carefully to ensure all items are present:

- Mercedes-Benz AMG CLA 45 Ride-On Car Body

- Steering Wheel
- Wheels (4)
- Seat
- Remote Control
- Charger
- Instruction Manual
- 12V Rechargeable Battery (pre-installed or separate)

SETUP AND ASSEMBLY

Follow these steps to assemble your ride-on car. Refer to the diagrams for visual guidance.

1. **Wheel Installation:** Attach each wheel to its axle, ensuring all washers and pins are correctly secured.
2. **Steering Wheel Attachment:** Connect the steering wheel's electrical connector to the car's column, then firmly push the steering wheel onto the steering column until it clicks into place.
3. **Seat Installation:** Place the seat onto the designated area and secure it with the provided screws or clips. Ensure the safety belt is accessible.
4. **Battery Connection:** If the battery is not pre-connected, locate the battery compartment (usually under the seat) and connect the red terminal to the red wire and the black terminal to the black wire.
5. **First Charge:** Before initial use, fully charge the battery for 8-12 hours. Do not overcharge.

OPERATING INSTRUCTIONS

Manual Operation

- Power On:** Press the power button on the dashboard.
- Start/Stop:** Press the foot pedal to move forward or backward. Release the pedal to stop.
- Steering:** Turn the steering wheel left or right to change direction.
- Speed Selection:** Use the speed switch on the dashboard to select between low and high speeds (1.9-3.1 mph).
- Interactive Features:** Press the buttons on the steering wheel for horn sounds and pre-loaded music.

Remote Control Operation

The remote control allows parents to safely guide the vehicle. Ensure the remote control is paired with the car before use.

REMOTE CONTROL INCLUDED

Remote Distance:
15m/49 FT

Image: A person holding the remote control, demonstrating its use for controlling the ride-on car from a distance.

- **Pairing:** Follow the instructions in the remote control manual for initial pairing.
- **Controls:** Use the directional buttons to move the car forward, backward, left, and right.
- **Emergency Stop:** The remote control typically has an emergency stop button to halt the car immediately.
- **Remote Priority:** The remote control overrides manual operation for safety.

Additional Features

- **LED Lights:** The car features working LED headlights for enhanced realism.
- **Spring Suspension:** Rear wheel suspension provides a smoother ride on various surfaces.
- **Auxiliary Wheels:** When the power is off, the car can be easily moved using the auxiliary wheels located at the rear.

SMOOTH DRIVING

Rear wheels are equipped with shock-absorbed system

CHARGING THE BATTERY

- **Charging Port:** Locate the charging port on the vehicle (refer to the manual diagram if unsure).
- **Connect Charger:** Plug the charger into a standard wall outlet, then connect the charger's plug to the vehicle's charging port.
- **Charging Time:** For optimal battery life, charge for 8-12 hours for the first charge. Subsequent charges should be 8-12 hours, or until the indicator light on the charger turns green. Do not charge for more than 18 hours.
- **Battery Type:** This vehicle uses a 12V rechargeable battery.
- **Safety:** Always charge in a dry, well-ventilated area. Do not allow children to charge the battery.

MAINTENANCE

- **Cleaning:** Wipe the vehicle with a soft, damp cloth. Do not use abrasive cleaners or solvents.
- **Storage:** Store the vehicle in a dry, cool place away from direct sunlight. If storing for extended periods, disconnect the battery and charge it monthly to prolong its lifespan.
- **Battery Care:** Avoid completely draining the battery. Recharge after each use.
- **Inspection:** Regularly check for loose screws, damaged wires, or worn parts. Replace any damaged components immediately.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Car does not move	Battery is low or disconnected; Loose wire connection; Overload protection activated.	Charge battery; Check battery connections; Reduce load, wait a few minutes for reset.
Short battery life	Battery not fully charged; Old battery; Frequent use on rough surfaces.	Ensure full charge (8-12 hours); Consider battery replacement; Use on smoother surfaces.
Remote control not working	Remote batteries low; Remote not paired; Interference.	Replace remote batteries; Re-pair remote control; Move away from other electronic devices.
Car moves slowly	Low battery; Overloaded; Motor issue.	Charge battery; Ensure rider weight is within limits; Contact customer support if motor issue suspected.
