iHealth AD-2126

iHealth Dual-Channel TENS Unit Muscle Stimulator User Manual

Model: AD-2126

INTRODUCTION

The iHealth Dual-Channel TENS Unit Muscle Stimulator is designed to provide customizable pain relief for various muscle soreness and discomfort. This device utilizes Transcutaneous Electrical Nerve Stimulation (TENS) technology to help manage pain caused by physical activities, prolonged sitting, household chores, and is suitable for seniors and post-surgery recovery. It offers independent control over two channels, allowing for personalized treatment across different body areas.

Important Safety Note: The TENS unit should not be used on open wounds.

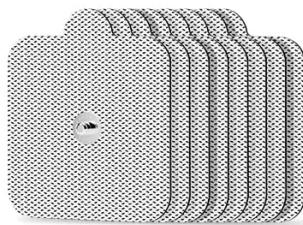

WHAT'S IN THE Box

Upon unboxing your iHealth Dual-Channel TENS Unit, please ensure all components listed below are present:

- 1 x Main Unit
- 1 x Storage Bag
- 2 x Pad Holders
- 2 x Electrode Cords (Model: 23507-3.8-1201)
- 2 x Rectangle Electrode Pads (Model: EP5010036N01)
- 8 x Square Electrode Pads (Model: EP505036N01)
- 4 x AAA Batteries
- 1 x Instruction Manual
- 1 x Quick Start Guide

iHealth tens unit

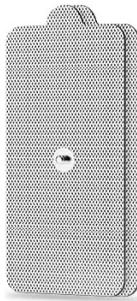

What's in the Box

Square electrode pads × 8

Pad holders × 2

Rectangle electrode pads × 2

Main unit / Storage bag × 1

Electrode cords × 2

AAA batteries × 4

Instruction manual / Quick start guide × 1

Image: All components included in the iHealth Dual-Channel TENS Unit package.

SETUP

- Insert Batteries:** Open the battery compartment on the back of the main unit. Insert 4 AAA batteries, ensuring correct polarity. Close the compartment securely.
- Connect Electrode Cords:** Plug the electrode cords into the A and B ports located at the top of the main unit.
- Attach Electrode Pads:** Snap the electrode pads onto the ends of the electrode cords. Ensure a secure connection.
- Prepare Skin:** Clean and dry the skin area where you intend to place the electrode pads. Avoid placing pads on broken skin, open wounds, or sensitive areas.
- Apply Electrode Pads:** Remove the protective film from the electrode pads and firmly press them onto the desired treatment areas on your body. Ensure good contact with the skin for optimal performance.

10 Pads

Suitable for different parts

15 Intensities

More choices, more comfortable

24 Modes

Experience versatile relief

0-30 Mins

Adjustable treatment timer

90 Hours

4 x AAA Batteries

A/B Dual Channels

Allow you to set different mode, intensity on two out put connectors.

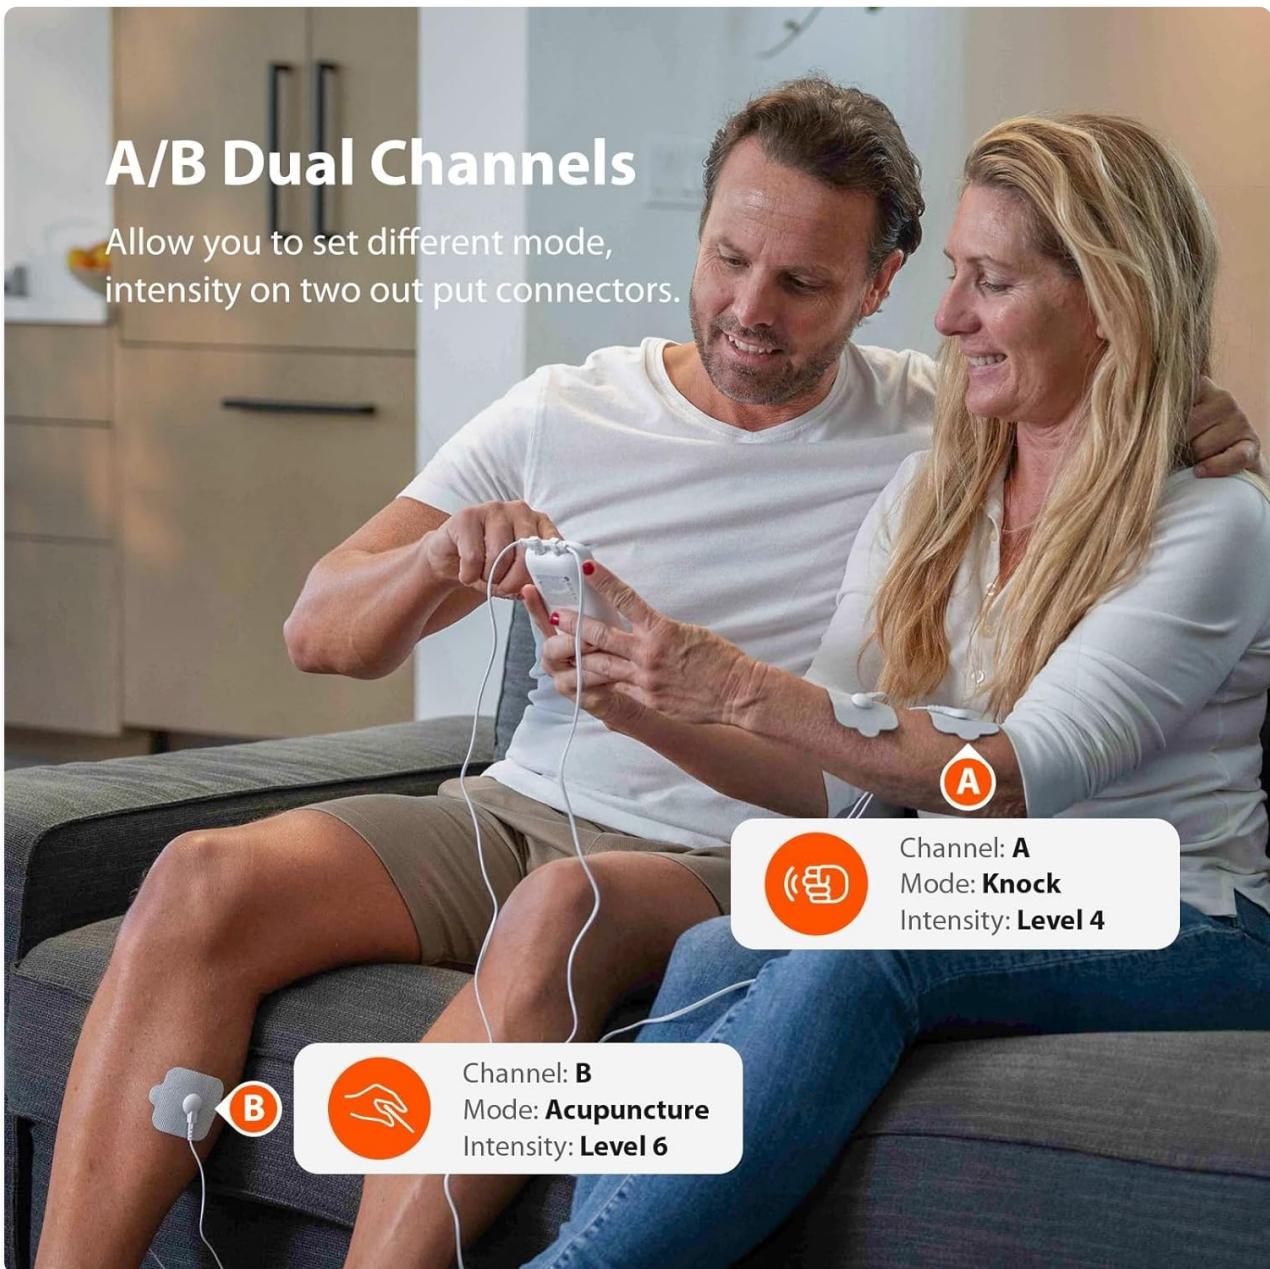

Image: Illustration of the A/B Dual Channels feature, allowing independent control of two treatment areas.

OPERATING INSTRUCTIONS

- Power On:** Press and hold the power button (U) to turn on the device. The large backlit LCD display will illuminate.
- Select Mode:** Use the mode button to cycle through the 6 available treatment modes: Composite, Knock, Press, Slap, Acupuncture, and Muscle Relaxation. Each mode has 4 variations.
- Adjust Intensity:** Use the up (^) and down (v) arrow buttons to adjust the intensity level. There are 15 intensity levels available. Start with a low intensity and gradually increase until you feel a comfortable, stimulating sensation.
- Set Timer:** The device features an adjustable treatment timer from 0 to 30 minutes. Use the timer controls to set your desired session duration.
- Dual-Channel Control:** The A/B button allows you to switch between and independently control the intensity and mode for each channel (A and B). This is useful for treating two different areas simultaneously with different settings.

6. **Power Off:** Press and hold the power button (U) to turn off the device after your session.

RELIEVE YOUR PAIN

*Safe, non-invasive pain
relief without medication.*

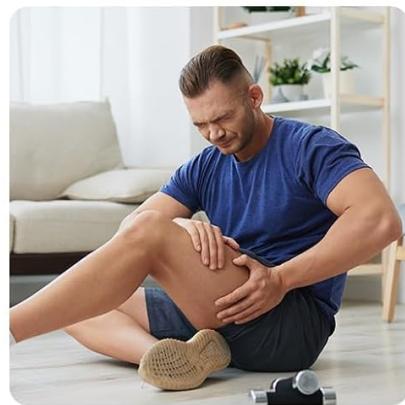

Image: The iHealth TENS unit provides safe, non-invasive pain relief for various body parts.

MAINTENANCE

- **Cleaning Electrode Pads:** After each use, gently wipe the adhesive side of the electrode pads with a damp cloth to remove any residue. Allow them to air dry completely.
- **Storing Electrode Pads:** To extend the lifespan of your electrode pads, place them back onto the provided pad holders after cleaning and drying. This protects the adhesive from dust and debris.
- **Battery Replacement:** When the battery indicator on the display shows low power, replace all 4 AAA batteries with new ones to ensure consistent performance.
- **Device Storage:** Store the main unit, electrode cords, and pads in the convenient storage bag provided when not in use. Keep the device in a cool, dry place away from direct sunlight and extreme temperatures.

High-Performance Reusable Pad

Electrode Detachment Warning

A Channel A Status

Flashing indicator warns of electrode detachment.

1) Electrode Attachment Issues:

- Loose or improper electrode placement.
- Insufficient contact with skin surface.
- Electrode pad has exceeded recommended usage life.

2) Wire-to-electrode connection needs adjustment.

3) Cable not fully inserted into device.

Image: Proper storage of electrode pads and the TENS unit for longevity and portability.

TROUBLESHOOTING

If you encounter any issues with your iHealth Dual-Channel TENS Unit, please refer to the following common

troubleshooting steps:

- **No Sensation or Weak Sensation:**

- Ensure the electrode pads are firmly attached to your skin and the cords are securely plugged into the device.
- Increase the intensity level gradually using the up arrow button.
- Check the battery level on the display. Replace batteries if low.
- The electrode pads may have lost their adhesiveness. Clean them or replace them if necessary.

- **Electrode Detachment Warning:** The device features an electrode detachment warning. If a flashing indicator appears for Channel A or B, it means there is an issue with the electrode attachment. This could be due to loose or improper pad placement, insufficient contact with the skin surface, or the electrode pad exceeding its recommended usage life. Also, check if the wire-to-electrode connection needs adjustment or if the cable is not fully inserted into the device.

Easy to Use in Simple Steps

Follow our intuitive quick-start guide for immediate relief.

Insert 4 AAA batteries (included).

Attach electrode pads securely to desired treatment areas.

Choose your preferred therapy mode and adjust intensity level for comfort.

Begin your therapy session and relax.
