Eilimy Pet Grooming Brush

Eilimy Pet Grooming Brush with Electronic Mist Spray - Instruction Manual

Model: Pet Grooming Brush | Brand: Eilimy

PRODUCT OVERVIEW

The Eilimy Pet Grooming Brush with Electronic Mist Spray is designed to provide a gentle and effective grooming experience for your cats and dogs. This innovative tool combines soft bristles with an electronic mist spray to help reduce shedding, detangle fur, and promote a healthy, shiny coat.

- **Electronic Mist Spray:** Moisturizes fur, reduces static, and enhances comfort during grooming.
- **Reduces Shedding:** Effectively removes loose fur, minimizing hair around your home.
- **Promotes a Healthy Coat:** Rehydrates hair and stimulates natural oil production for a softer, shinier coat. Conditioners or softeners can be added to the mist for enhanced results.
- **Gentle on Pets:** Soft bristles and mist spray ensure a soothing grooming process, reducing skin irritation.
- **Easy to Use:** Simple button activation for the electronic mist feature and one-touch hair removal.
- **Enhanced Grooming Experience:** Helps detangle fur, making grooming quicker and more effective.

PACKAGE CONTENTS

Upon unboxing, please ensure all items are present:

- Eilimy Pet Grooming Brush with Electronic Mist Spray
- Hair Smoothing Comb
- Water Refill Bottle
- USB Charging Cable

SETUP

1. **Charge the Device:** Connect the USB charging cable to the brush and a suitable power source. Ensure the device is fully charged before first use.
2. **Fill the Water Tank:**
 - Locate the small cap on the top of the brush head.
 - Carefully open the cap.
 - Use the provided water refill bottle to fill the water tank with clean water. You may also add a small amount of pet-safe conditioner or softener for added benefits.
 - Securely close the cap to prevent leakage.

OPERATING INSTRUCTIONS

1. **Power On:** Press the power button to turn on the brush. The indicator light will illuminate.
2. **Activate Mist Spray:** Press the mist spray button to activate the electronic mist. A fine mist will be emitted from the

brush head.

3. Grooming Your Pet:

- Hold the brush comfortably.
- Use gentle but firm strokes in the direction of your pet's hair growth.
- Adjust pressure based on your pet's fur type and sensitivity.
- Start with larger sections of the coat and gradually move to smaller, more detailed areas.
- Brush the entire coat evenly to ensure thorough grooming and mist distribution.
- The mist spray helps to detangle long or matted hair and reduces static, making the process smoother.

4. **Hair Removal from Brush:** After grooming, press the one-touch hair removal button. The bristles will retract, allowing collected fur to be easily removed in a single clump.

5. **Power Off:** Press the power button again to turn off the brush.

MAINTENANCE

1. **Cleaning the Brush Head:**

- Regularly use the one-touch hair removal feature to clear accumulated fur.
- If necessary, use the provided hair smoothing comb or a soft cloth to remove any remaining hair or debris from the bristles.
- Wipe the brush head with a damp cloth. Do not submerge the entire brush in water.

2. **Cleaning the Water Tank:** Periodically empty and rinse the water tank to prevent mineral buildup or residue from conditioners. Allow it to air dry completely before refilling.

3. **Storage:** Store the brush in a clean, dry place away from direct sunlight and extreme temperatures.

One-touch Cleaning Design

Press the button to remove hair from the comb

Reduce hair loss

Prevent hair tangling

Promote skin and hair health

Pet Comfort

TROUBLESHOOTING

If you encounter any issues with your Eilimy Pet Grooming Brush, please refer to the following common solutions:

| Problem | Possible Cause | Solution |
|--|--|---|
| Mist spray not working. | Water tank is empty or clogged. | Refill the water tank. Check for any blockages in the mist nozzle and gently clear if found. |
| Brush not turning on. | Battery is low or depleted. | Charge the brush using the provided USB cable. Ensure the charging indicator light is on. |
| Hair not easily removed from bristles. | Excessive fur buildup or improper use of the one-touch button. | Ensure the one-touch button is fully pressed. If fur is matted, use the comb to loosen it before using the brush. |

| Problem | Possible Cause | Solution |
|---------------------------------------|---------------------------------------|---|
| Pet shows discomfort during grooming. | Excessive pressure or sensitive skin. | Reduce pressure and use softer strokes. Ensure the mist spray is active to reduce pulling and static. |
