Globlazer S72

Globlazer S72 Heavy Duty Cactus Cat Tree User Manual

Model: S72

INTRODUCTION

This manual provides detailed instructions for the assembly, operation, and maintenance of your Globlazer S72 Heavy Duty Cactus Cat Tree. Designed for large cats, this sturdy structure offers multiple levels for climbing, scratching, and resting. Please read these instructions carefully before assembly and retain for future reference.

SAFETY INFORMATION

- Ensure all components are securely fastened during assembly.
- Regularly check the firmness of all screws and connections, at least once a month, to maintain stability.
- Place the cat tree on a flat, stable surface to prevent tipping.
- An anti-tip kit is included for additional security; consider attaching the cat tree to a wall, especially for active or multiple large cats.
- Keep small children and pets away from the assembly area to prevent injury.

PACKAGE CONTENTS

Verify that all parts are present before beginning assembly. The package should include:

- Base Board
- Multiple Platforms/Levels
- Scratching Posts (Sisal-wrapped)
- Cat Condos/Caves
- Hammock
- Top Perch
- Independent Pet Bed

- Assembly Hardware (Screws, Allen Wrench)
- Anti-tip Kit
- Hanging and Spring Mouse Toys
- Instruction Manual

ASSEMBLY INSTRUCTIONS

Follow these steps carefully for proper assembly. All parts are typically labeled for easy identification.

1. Step 1: Base Assembly

Begin by attaching the lowest scratching posts to the base board. Ensure they are tightened securely to provide a stable foundation.

Figure 2: The fully assembled cat tree, illustrating the multi-level structure.

2. Step 2: First Level Platforms and Condo

Attach the first set of platforms and the lower cat condo to the posts. Make sure all connections are firm. The independent pet bed can be placed on the lowest platform or used separately.

Figure 3: The independent pet bed, suitable for placement on the base or separate use.

3. Step 3: Mid-Level Structure

Continue building upwards, attaching additional scratching posts, platforms, and the hanging basket. The triangular structure design enhances stability at this level.

Hanging Basket

Provide a warm, soft spot for cats to lie down and rest or observe their surroundings

Figure 4: A cat resting comfortably in the hanging basket, demonstrating its stability.

4. Step 4: Upper Level Condo and Platforms

Install the second cat condo and the oversized padded platform. This platform is designed for large cats to rest comfortably.

Figure 5: A large cat on the spacious padded platform, highlighting its generous dimensions.

5. Step 5: Top Perch and Toys

Finally, attach the top perch and any remaining scratching posts. Secure the hanging and spring mouse toys to designated areas on the tree.

Figure 6: Details of the two cat caves and the top perch, providing various resting and observation spots.

6. Step 6: Anti-Tip Kit Installation (Optional but Recommended)

For enhanced stability, especially with active or multiple large cats, use the provided anti-tip kit to secure the cat tree to a wall. Follow the kit's specific instructions for installation.

OPERATING INSTRUCTIONS (USAGE)

The Globlazer S72 Cat Tree is designed to provide a multi-functional environment for your cats. Encourage your pets to explore and utilize its various features:

- **Scratching Posts:** The sisal-wrapped posts are intended for scratching, helping to maintain claw health and protect furniture.
- **Platforms and Perches:** Cats can climb, jump, and rest on the multiple platforms. The oversized padded platform and top perch offer elevated views.
- **Cat Condos/Caves:** These enclosed spaces provide secure and private areas for resting, sleeping, or observing surroundings discreetly.
- **Hammock:** The hanging basket offers a cozy, soft spot for lounging.
- **Toys:** The hanging and spring mouse toys are for interactive play and stimulation.
- **Independent Pet Bed:** This bed can be used on the lowest level of the tree or placed elsewhere in your home for additional comfort.

MAINTENANCE

- **Regular Inspection:** Check the firmness of all screws and connections at least once a month. Tighten any loose fasteners to ensure the stability and safety of the cat tree.
- **Cleaning:** The plush material and pet bed can be spot cleaned. For the independent pet bed, hand wash only as per care instructions. Avoid harsh chemicals that may be harmful to pets.
- **Sisal Posts:** Inspect sisal scratching surfaces for wear and tear. While durable, heavily used areas may eventually require replacement to maintain effectiveness.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Cat tree feels wobbly or unstable.	Loose screws or uneven placement.	Ensure all screws are tightened. Place the tree on a level surface. Install the anti-tip kit if not already done.
Cat is not using the scratching posts.	Preference for other surfaces or unfamiliarity.	Encourage use by placing catnip on the posts or gently guiding your cat's paws to the sisal.
Cat is not interested in the tree.	New environment, scent, or location.	Place familiar blankets or toys on the tree. Use catnip spray. Position the tree in a favored spot, such as near a window.
