3. SETUP

3.1 Initial Charging

Before first use, connect the AC power adapter to the device's charging Type-C port and a power outlet. Charge the device until the battery is full. The battery indicator will show charging status.

3.2 Attaching and Detaching the Keyboard

The keyboard connects magnetically to the tablet. Align the magnetic connectors on the tablet and keyboard until they snap into place. To detach, gently pull the tablet away from the keyboard.

3.3 Adjusting the Kickstand

The integrated kickstand allows for various viewing angles. Extend the kickstand from the back of the tablet and

adjust it to your desired position. Ensure the kickstand is fully extended and stable to prevent the device from tipping.

4.6 Camera Usage

The device includes a 2MP front camera and a 5MP rear camera. Use the built-in Camera application in Windows to take photos, record videos, or participate in video calls.

5. MAINTENANCE

5.1 Cleaning

Use a soft, lint-free cloth to clean the screen and exterior surfaces. For stubborn marks, dampen the cloth slightly with water or a screen-safe cleaner. Avoid harsh chemicals or abrasive materials.

5.2 Battery Care

To prolong battery life:

- Avoid extreme temperatures.
- Do not fully discharge the battery frequently.
- If storing the device for an extended period, charge it to about 50-70%.

10 Hour Battery Life

- Daily use: 10 hours of battery life
- Watch video(Wi-Fi OFF): 6-8 hours of battery life
- Watch video(Wi-Fi ON): 4 hours of battery life

5.3 Software Updates

Regularly check for and install Windows updates to ensure system stability, security, and access to the latest features. Go to Start > Settings > Windows Update.

5.4 Storage Management

Periodically review and manage your storage space. Delete unnecessary files, uninstall unused applications, and consider cloud storage for large files to maintain optimal performance.

6. TROUBLESHOOTING

- **Device does not power on:** Ensure the device is charged. Connect the AC adapter and try again. If unresponsive, press and hold the power button for 15-20 seconds to perform a hard reset.
- **Keyboard not responding:** Ensure the keyboard is securely attached. Check if the keyboard's power is on (if it has a separate power switch or indicator). Re-attach the keyboard.
- **Wi-Fi connectivity issues:** Check if Wi-Fi is enabled in Windows settings. Restart your router and the device. Ensure you are within range of a Wi-Fi network.
- **Slow performance:** Close unnecessary applications. Check for background processes consuming resources. Ensure sufficient free storage space. Run a system scan for malware.
- **Screen not rotating:** Ensure auto-rotation is enabled in Windows settings (Action Center).
