

## RISTERN XR13CW2W

# RISTERN White Metal Storage Cabinet User Manual

MODEL: XR13CW2W

## 1. Introduction

This manual provides essential information for the safe and efficient assembly, operation, and maintenance of your RISTERN White Metal Storage Cabinet. Please read these instructions thoroughly before beginning assembly or use. Keep this manual for future reference.

## 2. Safety Information

- Always assemble the cabinet on a soft, clean surface to prevent scratches.
- Ensure all screws and fasteners are securely tightened before use.
- Do not overload shelves. The maximum weight capacity is 100 pounds per shelf.
- To prevent tipping, especially in households with children or pets, always install the provided anti-tipping device to secure the cabinet to a wall.
- Keep small parts and packaging materials away from children.

## COMPARISON OF 3 SIZES

**Figure 2.1:** Installation of the anti-tipping device. This device helps prevent the cabinet from accidentally tipping over, enhancing safety.

### 3. Package Contents

Verify that all components are present before beginning assembly. If any parts are missing or damaged, please contact customer support.

- Cabinet Panels (Side, Back, Top, Bottom)
- Adjustable Shelves (3 included)
- Doors (2 included)
- Door Handles (2 included)
- Adjustable Feet (4 included)
- Assembly Hardware (screws, pins, anti-tipping kit)

## 4. Setup and Assembly

Estimated assembly time: Approximately 1 hour. Two people are recommended for assembly.

**Figure 4.1:** Product dimensions and estimated installation time.

1. **Prepare the Base:** Attach the adjustable feet to the bottom panel of the cabinet. Ensure they are securely tightened.
2. **Assemble the Frame:** Connect the side panels to the bottom and top panels using the provided hardware. Ensure all connections are firm.
3. **Install Shelves:** Insert the shelf support pins into the desired height holes on the side panels. Place the adjustable shelves onto these pins. You have 3 adjustable shelves to customize your storage space.
4. **Attach Doors:** Carefully align the door hinges with the pre-drilled holes on the cabinet frame and secure them with screws. Ensure the doors open and close smoothly.
5. **Install Door Handles:** Attach the gold handles to the doors using the provided screws.
6. **Install Anti-Tipping Device:** Secure the cabinet to a wall using the anti-tipping kit. This is a critical safety step.

### Door Shaft Installation Video

Your browser does not support the video tag.

**Video 4.2:** This video demonstrates the correct procedure for installing the door shafts, ensuring proper door function and alignment.

## 5. Operating Instructions

- **Adjusting Shelves:** The cabinet features 3 adjustable shelves. To change a shelf's height, remove any items, lift the shelf, remove the support pins, reposition the pins to the desired height, and then place the shelf back on the pins.
- **Magnetic Doors:** The double doors are equipped with magnetic catches to ensure they remain securely closed. Simply push the doors gently to engage the magnets.

Figure 5.1: Details of adjustable feet, internal support, and smooth handles.

## 6. Maintenance

Your RISTERN metal storage cabinet is designed for durability and easy maintenance.

- **Cleaning:** Wipe the cabinet surfaces with a damp cloth. Avoid abrasive cleaners or harsh chemicals that could damage the electrostatic powder coating.
- **Durability:** Made from cold-rolled steel with a waterproof, wear-resistant, high-hardness, and corrosion-resistant finish, the cabinet requires minimal special care.

Figure 6.2: The cabinet features waterproof metal paint for easy cleaning.

## 7. Troubleshooting

Problem	Possible Cause	Solution
Doors do not close properly or are misaligned.	Incorrect door shaft installation or uneven cabinet placement.	Review the door shaft installation video (Video 7.1). Adjust the cabinet's adjustable feet to ensure it is level on the floor.
Spring indentation on door.	Minor manufacturing variation or assembly issue.	Refer to the spring indentation solution video (Video 7.2) for guidance.
Door panel appears warped.	Possible assembly error or minor panel distortion.	Consult the door panel warping solution video (Video 7.3) for corrective actions.
Cabinet feels unstable.	Feet not properly adjusted or anti-tipping device not installed.	Ensure all adjustable feet are making firm contact with the floor and the anti-tipping device is securely anchored to the wall.
