Using Caster Wheels

If you have installed the optional caster wheels, you can easily move the crate around your living space. Each wheel is equipped with a lock. To move the crate, unlock all wheels. To keep the crate stationary, ensure all wheels are locked.

Pet Acclimation Tips

When introducing your pet to the new crate, allow them to explore it at their own pace. Initially, leave the doors open and place familiar bedding or toys inside. Gradually encourage them to enter and spend time in the crate. Avoid forcing your pet into the crate, as this can create negative associations. Positive reinforcement with treats and praise can help your pet feel safe and comfortable in their new space.
