2. SETUP

Follow these steps to set up your Wireless Sound Card Earphones for first-time use.

2.1 Charging the Device

Before initial use, ensure the earphones are fully charged. Connect the provided Type-C charging cable to the charging port on the device and a suitable power source. The power display will indicate charging status.

2.2 Connecting to a Device

The earphones can connect wirelessly via Bluetooth or directly using the included microphone and receiver for live streaming.

1. Wireless Connection (Bluetooth):

- Ensure the earphones are powered on.
- Activate Bluetooth on your smartphone or audio device.
- Search for "Wireless Sound Card Earphones" in the list of available devices and select to pair.
- A confirmation sound will indicate successful pairing.

2. Live Streaming Connection (Microphone & Receiver):

- **Step 1: Turn on the microphone.** Press and hold the power button on the microphone unit until the indicator light illuminates.
- **Step 2: Connect the receiver to your phone.** Insert the appropriate receiver (Lightning for iOS or Type-C for Android) into your phone's charging/data port. The receiver will automatically connect to the microphone.
- Once connected, you can begin live broadcasting or recording.

MULTIPLE COLORS

3. OPERATING INSTRUCTIONS

Understand how to use the various functions of your earphones.

3.1 Basic Controls

The earphones feature a three-button control system for media playback and calls.

- **Power On/Off:** Press and hold the multi-function button.
- **Play/Pause:** Single press the multi-function button.
- **Volume Up/Next Track:** Press the '+' button for volume up, long press for next track.
- **Volume Down/Previous Track:** Press the '-' button for volume down, long press for previous track.
- **Answer/End Call:** Single press the multi-function button during an incoming call or active call.
- **Reject Call:** Long press the multi-function button during an incoming call.

3.2 Bluetooth and Card Mode Switching

The earphones support both Bluetooth streaming and playback from a TF memory card.

- To switch between Bluetooth mode and TF card mode, use the designated mode switch button or follow the instructions in the device's menu if applicable.
- Insert a TF memory card into the dedicated slot to play music directly from the card, even when your phone's battery is low.

5. MAINTENANCE

Proper care ensures the longevity and optimal performance of your earphones.

- **Cleaning:** Use a soft, dry cloth to wipe the earphones. Do not use abrasive cleaners or solvents.
- **Storage:** Store the earphones in a cool, dry place away from direct sunlight and extreme temperatures.
- **Water Exposure:** While waterproof and sweatproof, avoid prolonged submersion in water. Ensure charging ports are dry before charging.
- **Charging:** Use only the provided Type-C cable or a certified equivalent for charging.

6. TROUBLESHOOTING

Refer to this section for common issues and their solutions.

Problem	Possible Cause	Solution
No power	Battery is depleted.	Charge the earphones using the Type-C cable.
Cannot pair via Bluetooth	Earphones are not in pairing mode or too far from device.	Ensure earphones are powered on and in pairing mode. Move closer to the device. Restart both devices.
No sound	Volume is too low, device not connected, or incorrect audio output selected.	Increase volume. Reconnect earphones. Check audio output settings on your device.
Microphone not working for live streaming	Microphone not turned on, receiver not properly connected, or app permissions.	Ensure microphone is powered on. Verify receiver is fully inserted into phone. Check app microphone permissions.
TF card not playing	Card not inserted correctly, unsupported file format, or mode not switched.	Reinsert TF card. Ensure music files are in a supported format. Switch to TF card playback mode.
