## Piegricdiat N370-F

# Piegricdiat Replacement Filters for INSE K370/N370 Cordless Vacuum Cleaners

Model: N370-F

## INTRODUCTION

---

This instruction manual provides essential information for the proper installation, maintenance, and care of your Piegricdiat replacement filters. These filters are designed to maintain the performance of your INSE K370 or N370 cordless vacuum cleaner.

## PRODUCT OVERVIEW AND COMPATIBILITY

---

The Piegricdiat replacement filter kit includes high-quality HEPA filters designed for specific INSE cordless vacuum cleaner models. These filters are crucial for trapping fine dust and allergens, ensuring efficient cleaning and maintaining air quality.

**Important:** These replacement accessories are specifically designed for and compatible with the following models:

- INSE K370 Cordless Vacuum Cleaner
- INSE N370 Cordless Vacuum Cleaner

Please verify your vacuum cleaner model before installation to ensure proper fit and function. These filters are **not universal**.

## INSTALLATION INSTRUCTIONS

---

Follow these steps to replace the filter in your INSE K370 or N370 cordless vacuum cleaner. No special tools are required for this process.

1. **Power Off:** Ensure your vacuum cleaner is turned off and unplugged from any charging source before beginning.
2. **Locate Filter Compartment:** Identify the filter compartment on your INSE K370/N370 vacuum. Refer to your vacuum's original manual if you are unsure of its location.
3. **Remove Old Filter:** Carefully open the filter compartment. Grasp the old filter, typically by a tab or edge, and pull it out. Dispose of the old filter responsibly.
4. **Insert New Filter:** Take a new Piegricdiat replacement filter. Ensure the filter is oriented correctly (usually, it will only fit one way). Gently push the new filter into the compartment until it is securely seated.
5. **Close Compartment:** Close the filter compartment cover firmly.
6. **Test:** Turn on your vacuum cleaner to ensure it operates correctly with the new filter installed.

# FIT FOR K370/N370

*Image: An illustrative diagram showing two Piegricdiat filters and an arrow pointing towards an INSE K370/N370 cordless vacuum cleaner, indicating the filters are compatible and for installation into the vacuum.*

## MAINTENANCE AND CARE

Regular maintenance of your vacuum filters is essential for optimal performance and longevity of your vacuum cleaner. These filters are designed to be washable and reusable.

- **Cleaning:** Periodically remove the filter from the vacuum. Tap it gently over a waste bin to dislodge loose dust and debris. For a more thorough cleaning, rinse the filter under cool, running water until the water runs clear.
- **Drying:** Allow the filter to air dry completely for at least 24 hours before reinserting it into the vacuum. Do not use heat to dry the filter, as this can damage the filter material.
- **Replacement Frequency:** For best performance, it is recommended to replace the filters every 3 months, depending on usage frequency and the amount of debris collected. Consistent replacement helps maintain strong suction and efficient filtration.

# **WASHABLE & REUSEABLE**

## **FIT FOR INSE K370/N370**

### **TROUBLESHOOTING**

If you experience issues with your vacuum cleaner after installing new filters, consider the following common solutions:

- **Reduced Suction:**
  - Ensure the filter is clean and completely dry. A wet or heavily clogged filter can restrict airflow.
  - Verify the filter is correctly seated in its compartment.
  - Check for blockages in the vacuum's hose or brush roll.
- **Unusual Noises:**
  - Confirm the filter compartment is securely closed.
  - Ensure the filter is properly installed and not loose.

If problems persist, consult your INSE K370/N370 vacuum cleaner's original user manual or contact the

vacuum cleaner manufacturer for further assistance.

## PRODUCT SPECIFICATIONS

Feature	Detail
Brand	Piegricdiat
Model Number	N370-F
Compatible Devices	INSE K370, INSE N370 Cordless Vacuum Cleaners
Material	Paper, Plastic (HEPA Filter)
Item Weight (per filter)	Approximately 0.03 lb (15.4 g)
Product Dimensions (per filter)	2.72" L x 0.47" W x 2.72" H (69mm x 12mm x 69mm)
Reusability	Reusable (Washable)
Recommended Replacement	Every 3 months
