## 5. MAINTENANCE

To ensure the longevity and optimal performance of your Portronics Vlogmate 2, follow these maintenance guidelines:

- Cleaning:** Use a soft, dry cloth to clean the microphones and charging case. Avoid using liquid cleaners or abrasive materials.
- Storage:** Store the device in its charging case when not in use to protect it from dust and physical damage. Keep it in a cool, dry place away from direct sunlight and extreme temperatures.
- Battery Care:** For long-term storage, charge the device to about 50% every few months to preserve battery health. Avoid fully discharging the battery frequently.
- Avoid Water:** The device is not waterproof. Keep it away from water and high humidity.

## 6. TROUBLESHOOTING

If you encounter issues with your Vlogmate 2, refer to the following common solutions:

Problem	Possible Cause	Solution
Microphone not pairing.	Microphones or receiver not powered on; receiver not properly connected; out of range.	Ensure all components are powered on. Re-plug the receiver firmly into your device. Move closer to the receiver.
No sound or low sound.	Microphone volume too low; device volume too low; microphone not properly positioned; noise cancellation active in quiet environment.	Check device volume settings. Ensure microphone is clipped correctly. Disable noise cancellation if not needed.
Poor sound quality / Static.	Interference; low battery; microphone too far from source.	Move away from other wireless devices. Charge microphones fully. Ensure microphone is within optimal range.
Battery not charging.	Charging cable or adapter faulty; improper connection.	Try a different charging cable or adapter. Ensure connections are secure.
