

Singer M1150

SINGER M1150 Lightweight & Portable Sewing Machine User Manual

Model: M1150

INTRODUCTION

This manual provides detailed instructions for the safe and efficient operation, maintenance, and troubleshooting of your SINGER M1150 Lightweight & Portable Sewing Machine. Please read this manual thoroughly before using your machine to ensure proper function and to maximize its lifespan. The SINGER M1150 is designed for ease of use, offering 45 stitch applications, an LED light, and a 4-step buttonhole feature, making it suitable for various sewing projects from mending to crafting.

SAFETY INFORMATION

Always follow basic safety precautions when using an electrical appliance to reduce the risk of burns, fire, electric shock, or injury to persons.

- Do not leave the machine unattended when plugged in.
- Unplug from the outlet before cleaning, removing covers, or when not in use.
- Use this appliance only for its intended use as described in this manual.
- Never operate this appliance if it has a damaged cord or plug, if it is not working properly, or if it has been dropped or damaged.
- Keep fingers away from all moving parts. Special care is required around the sewing machine needle.
- Always use the proper needle plate. The wrong plate can cause the needle to break.
- Do not pull or push fabric while stitching. This may deflect the needle causing it to break.
- Turn the sewing machine off when making any adjustments in the needle area, such as threading the needle, changing the needle, threading the bobbin, or changing the presser foot.

INCLUDED ACCESSORIES

Your SINGER M1150 sewing machine comes with the following essential accessories:

Included In Box

Image: The SINGER M1150 sewing machine with its included accessories, such as bobbins, needles, screwdriver, seam ripper/brush, all-purpose foot, buttonhole foot, and zipper foot, displayed neatly in front of it.

- All-Purpose Foot
- Buttonhole Foot
- Zipper Foot
- Seam Ripper/Brush
- Screwdriver
- Bobbins
- Needles (Pack of Needles)

SETUP

1. Unpacking and Placement

Carefully remove the sewing machine from its packaging. Place the machine on a stable, flat surface, ensuring there is enough space for your sewing projects. Connect the power cord to the machine and then to a suitable electrical outlet.

2. Threading the Machine

The SINGER M1150 features easy-to-follow threading guides to simplify the process. Follow the numbered path indicated on the machine for correct upper thread tension and needle threading.

Image: A close-up view of the SINGER M1150 sewing machine highlighting the easy-to-follow threading guides, indicated by numbers and arrows on the machine's body, ensuring correct thread path.

3. Winding and Inserting the Bobbin

The machine is equipped with a convenient top drop-in bobbin system. Follow the instructions for winding the bobbin evenly and then insert it into the bobbin case, ensuring the thread is correctly routed through the tension spring.

Image: A detailed view of the SINGER M1150 sewing machine's needle plate area, clearly showing the transparent cover over the top drop-in bobbin, indicating its easy accessibility.

OPERATING INSTRUCTIONS

1. Stitch Selection

Your SINGER M1150 offers 16 built-in stitches and 45 stitch applications. To select a stitch, simply turn the stitch selector dial located on the front of the machine. The machine features preset stitch length and width, eliminating guesswork and ensuring consistent results.

Easy Stitch Selection

45 Stitch Applications

Preset Stitch Length & Width

Image: A composite image illustrating key features of the SINGER M1150: the easy stitch selection dial, a visual representation of 45 stitch applications, and the preset stitch length and width settings for simplified operation.

2. 4-Step Buttonhole

Create perfect buttonholes with the integrated 4-step buttonhole feature. Follow the markings on the stitch selector dial and the buttonhole foot to complete each step accurately, resulting in professional-looking buttonholes.

3. Free Arm Sewing

To sew tubular items like cuffs, sleeves, or pant hems, remove the accessory storage compartment to reveal the free arm. This allows fabric to be easily maneuvered around the narrow arm for circular stitching.

4. Reverse Sewing

To secure stitches at the beginning and end of a seam, press and hold the reverse sewing lever. The machine will sew in reverse as long as the lever is held down, preventing unraveling and adding durability to your seams.

MAINTENANCE

Regular maintenance ensures the longevity and optimal performance of your sewing machine.

- **Cleaning:** Regularly clean lint and dust from the bobbin area and feed dogs using the provided brush. Unplug the machine before cleaning.
- **Needle Replacement:** Replace the needle frequently, especially after every 8-10 hours of sewing or if it becomes bent, dull, or burred. Use only SINGER brand needles for best results.
- **Lubrication:** Your SINGER M1150 is designed to be maintenance-free in terms of lubrication. Do not oil the machine.

TROUBLESHOOTING

Here are some common issues and their solutions:

Problem	Possible Cause	Solution
Needle breaking	Incorrect needle size for fabric, bent needle, pulling fabric while sewing, incorrect needle insertion.	Use correct needle, replace bent needle, guide fabric gently, re-insert needle correctly.
Skipped stitches	Incorrect needle, needle inserted incorrectly, machine not threaded properly.	Change needle, re-insert needle, re-thread machine completely.
Thread breaking	Improper threading, incorrect tension, poor quality thread, burr on needle or machine parts.	Re-thread machine, adjust tension, use good quality thread, check for burrs.
Fabric not feeding	Feed dogs lowered, lint in feed dogs.	Raise feed dogs, clean feed dog area.

SPECIFICATIONS

Model: SINGER M1150

Dimensions: 41D x 15W x 32H Centimetres

Item Weight: 4.72 kg

Material: Metal, Plastic

Stitch Applications: 45

Built-in Stitches: 16

Buttonhole: 4-step

Lighting: LED Light

Bobbin Type: Top Drop-in

Free Arm: Yes
