

## BoxWave ClearTouch Anti-Glare Privacy (2-Pack)

# BoxWave ClearTouch Anti-Glare Privacy Screen Protector

Instruction Manual for Titan Army P2510H Gaming Monitor (24.5 in)

## INTRODUCTION

---

The BoxWave ClearTouch Anti-Glare Privacy Screen Protector is designed to safeguard your Titan Army P2510H Gaming Monitor (24.5 in) while enhancing your viewing experience and ensuring privacy. This flexible film protector offers anti-glare properties, reduces fingerprints, and provides a precise fit for your device. Its primary function is to limit the viewing angle of your screen, making content visible only to you directly in front, thereby protecting your sensitive information from prying eyes.

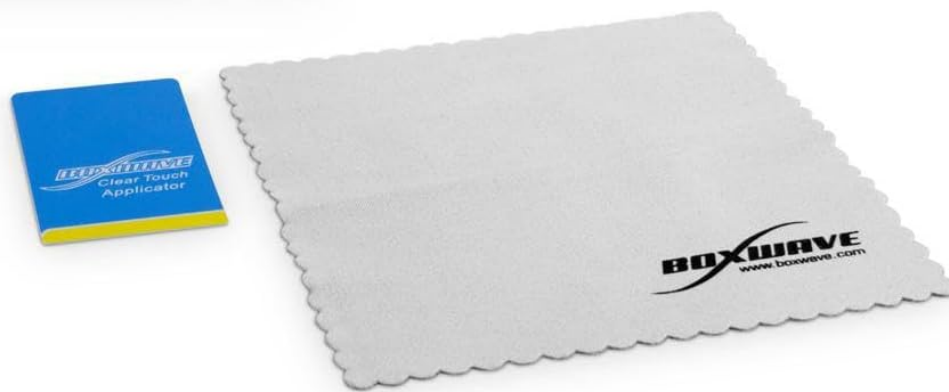

This image shows the BoxWave ClearTouch Anti-Glare Privacy Screen Protector packaging alongside the compatible Titan Army P2510H Gaming Monitor, illustrating the product in its intended use context.

## PACKAGE CONTENTS

---

Your BoxWave ClearTouch Anti-Glare Privacy (2-Pack) includes the following items:

- Two (2) ClearTouch Anti-Glare Privacy Screen Protectors
- One (1) Microfiber Cleaning Cloth
- One (1) Applicator Card

Please note this is a general product photo for display purposes.  
The actual product is tailored specifically to fit your device

This image displays the complete contents of the 2-pack, which includes two ClearTouch Anti-Glare Privacy screen protectors, a microfiber cleaning cloth, and an applicator card for installation.

## SETUP AND INSTALLATION

Follow these steps for optimal installation of your screen protector:

- 1. Prepare Your Screen:** Using the included microfiber cloth, thoroughly clean the surface of your Titan Army P2510H Gaming Monitor. Ensure there are no dust particles, smudges, or fingerprints on the screen. A clean screen is crucial for a bubble-free application.
- 2. Align the Protector:** Carefully unpeel a small section of the protective backing from one end of the screen protector. Align the exposed edge of the screen protector with the corresponding edge of your monitor screen. Take your time to ensure precise alignment with all corners and edges.
- 3. Apply Gradually:** Once aligned, slowly peel off the remaining protective backing while simultaneously applying the screen protector to the monitor surface. Use the applicator card to gently smooth out any air bubbles as you go, pushing them towards the edges of the screen. The glueless adhesive will automatically cling to your screen.

4. **Final Touches:** After the protector is fully applied, use the microfiber cloth to wipe down the surface and remove any remaining smudges or dust. If small bubbles remain, gently push them towards the nearest edge with the applicator card.

*Note:* If dust particles are trapped under the protector, carefully lift the nearest corner of the protector and use a piece of tape to dab the dust particle off both the screen and the adhesive side of the protector before reapplying.

## OPERATING FEATURES

---

The ClearTouch Anti-Glare Privacy Screen Protector offers several key features to enhance your monitor usage:

- **Privacy Protection:** This screen protector is engineered to provide privacy. When viewed directly from the front, your screen remains clear. However, from angles of 25 degrees or more to either side, the screen content becomes obscured, preventing unauthorized viewing.

This diagram demonstrates how the screen protector limits viewing angles, making the screen visible only to the user directly in front and obscuring it from side views (e.g., 25 degrees and beyond).

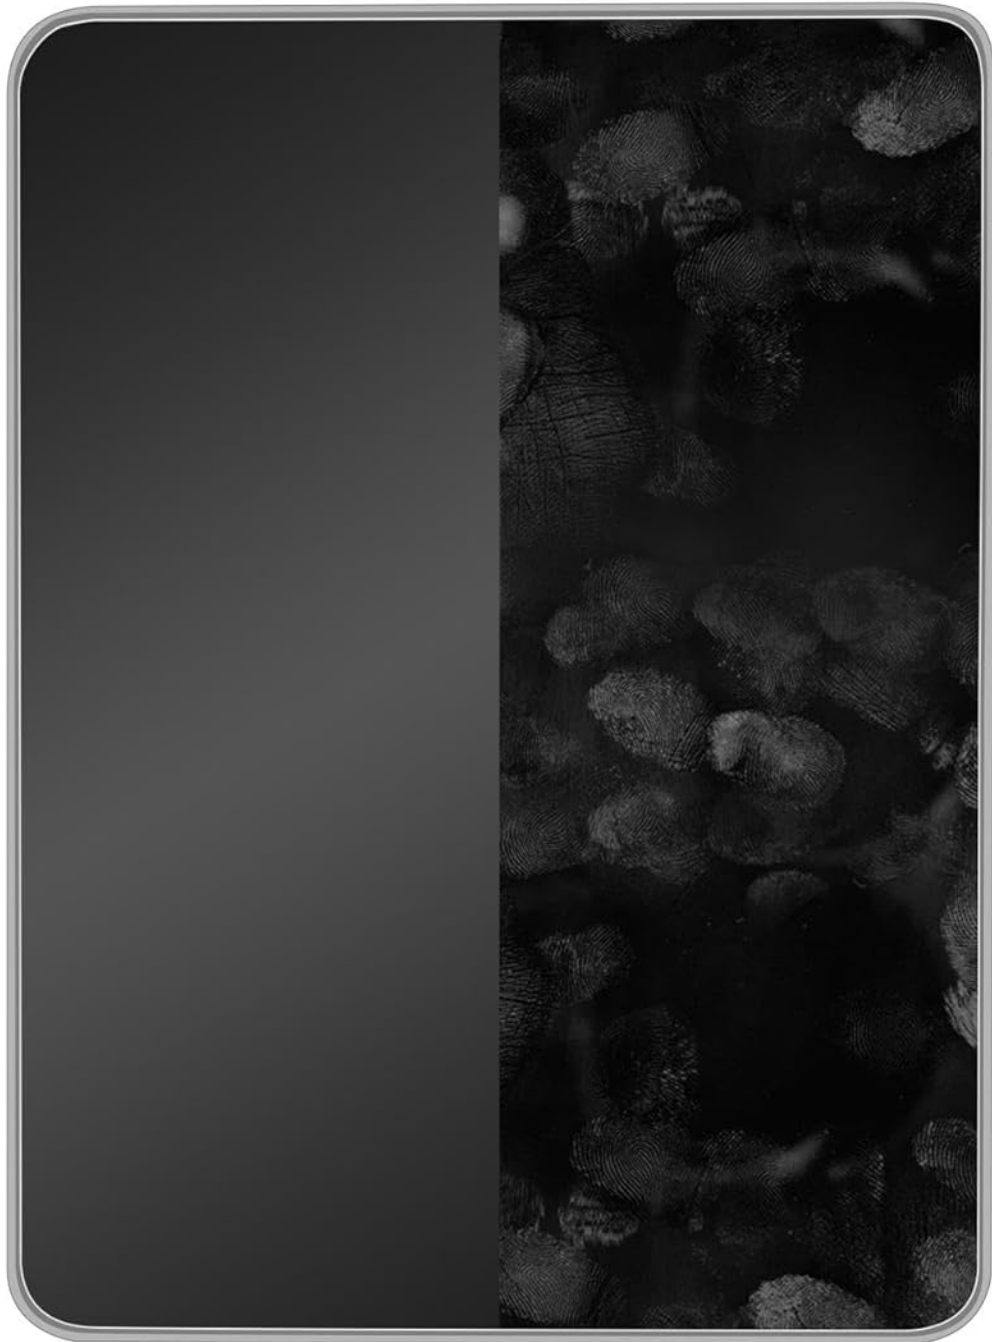

- **Anti-Glare Surface:** The matte finish of the protector effectively diffuses reflections and glare from ambient light sources, reducing eye strain and improving visibility in brightly lit environments.
- **Fingerprint Resistance:** The surface material is designed to repel smudges, dust, and fingerprints, keeping your screen cleaner for longer and reducing the need for frequent cleaning.

# Anti-Smudge Surface

Protects Against Fingerprints

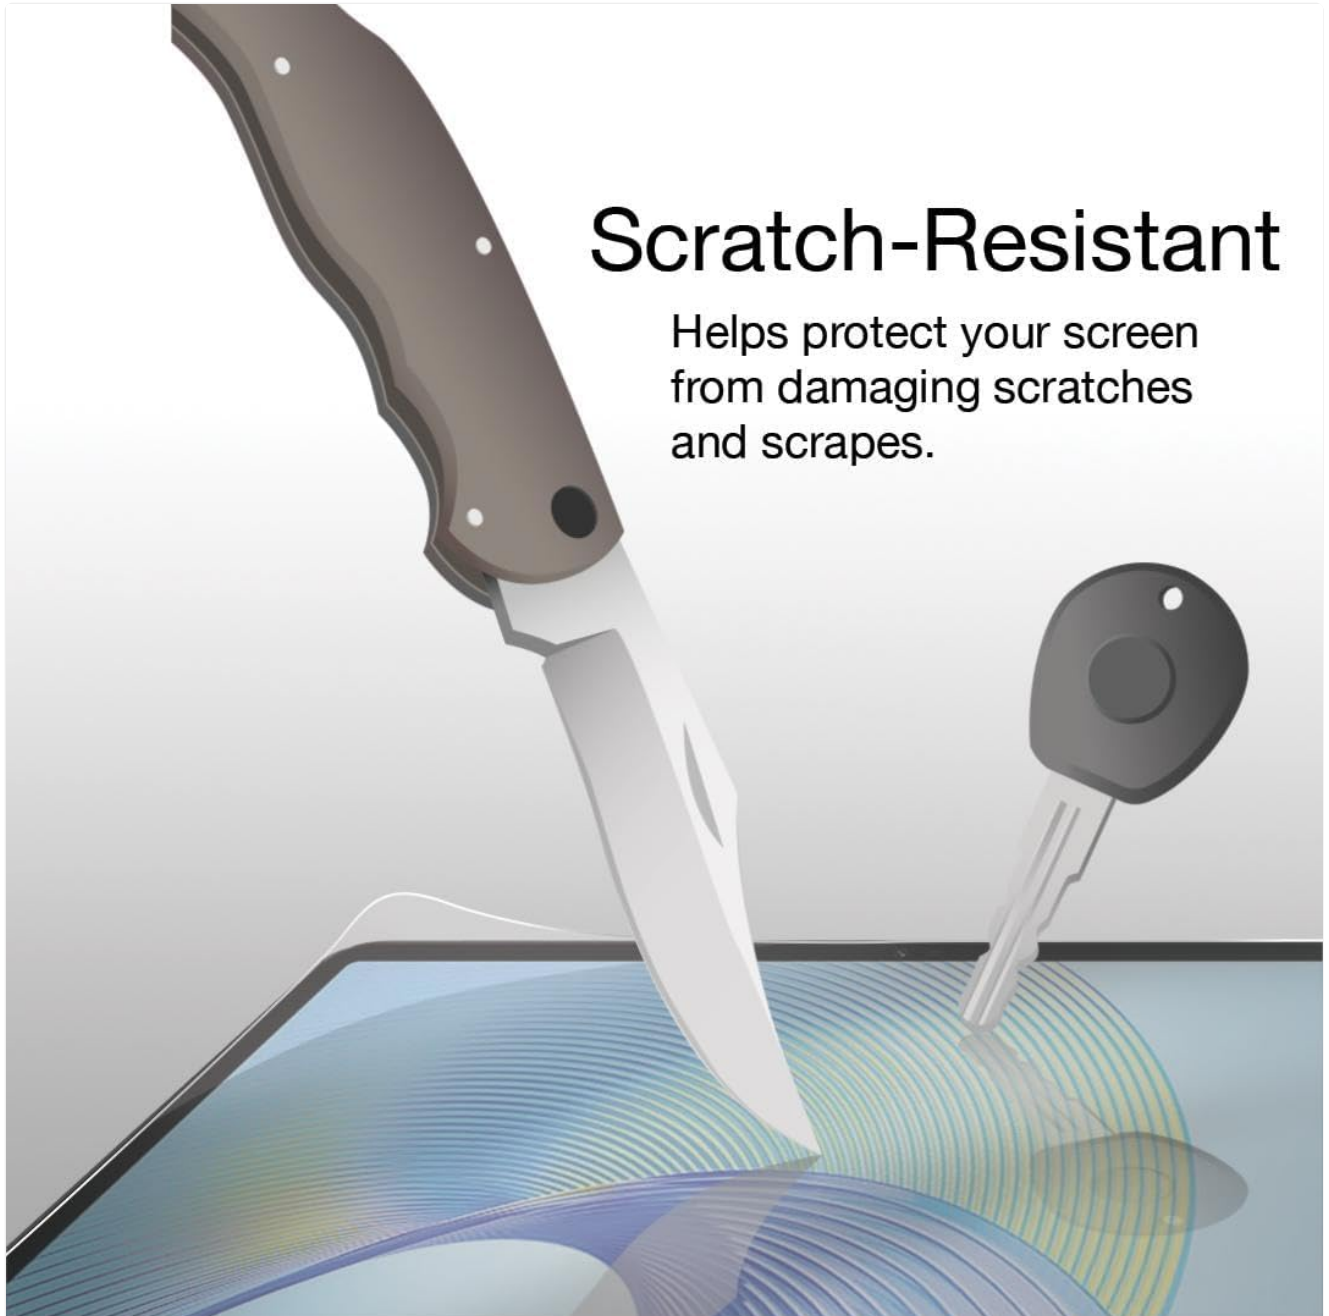

Other Brands

This image visually compares the anti-smudge properties of the screen protector, showing a clean surface on one side and a fingerprint-covered surface on the other, highlighting its resistance to smudges.

- **Scratch Resistance:** Constructed from durable, flexible material, the protector provides a protective barrier against

scratches, scuffs, and minor impacts, extending the lifespan of your monitor screen.

An illustration depicting the screen protector's scratch-resistant capabilities, showing it protecting the screen from potential damage by sharp objects like a knife and keys.

- **Precision Fit:** Each protector is precisely cut to match the dimensions of the Titan Army P2510H Gaming Monitor, ensuring full screen coverage and compatibility with all ports and buttons.
- **Reusability:** The glueless adhesive allows for easy removal and reinstallation if needed, without leaving residue on your screen.

## MAINTENANCE AND CARE

---

To maintain the clarity and effectiveness of your screen protector, follow these simple care guidelines:

- **Cleaning:** Use the provided microfiber cloth or a similar soft, lint-free cloth to gently wipe the surface of the screen protector. For stubborn smudges, slightly dampen the cloth with water or a screen-safe cleaning solution.
- **Avoid Harsh Chemicals:** Do not use abrasive cleaners, alcohol, or ammonia-based solutions, as these can damage the protector's coating.
- **Handling:** When removing or reinstalling the protector, handle it by the edges to avoid leaving fingerprints on the

adhesive side.

## TROUBLESHOOTING

Here are solutions to common issues you might encounter:

Issue	Solution
<b>Bubbles After Installation</b>	Small bubbles can often be pushed out to the nearest edge using the applicator card. For larger bubbles, gently lift the nearest edge of the protector and reapply, smoothing it down with the applicator card.
<b>Dust Particles Trapped Under Protector</b>	Carefully lift the nearest corner of the protector. Use a piece of adhesive tape to gently dab the dust particle off both the monitor screen and the adhesive side of the protector. Reapply the protector slowly.
<b>Misalignment</b>	If the protector is significantly misaligned, gently peel it off completely. Clean the screen again thoroughly and attempt reinstallation, paying close attention to initial alignment.
