AKG AKGN9HYBRIDBLKAM

AKG N9 Hybrid Wireless Over-Ear Noise Cancelling Headphones User Manual

Model: AKGN9HYBRIDBLKAM

Brand: AKG

INTRODUCTION

The AKG N9 Hybrid over-ear headphones are designed to provide an immersive audio experience with Hi-Res Audio and True Adaptive Noise Cancelling. They offer seamless connectivity via a 2.4GHz USB-C dongle or Bluetooth, and feature Zoom-certified superior call quality with four virtual adaptive beamforming microphones. The ultra-lightweight design and cushioned earcups ensure comfort for extended use, with up to 100 hours of playtime.

WHAT'S IN THE BOX

This image displays all the components included with your AKG N9 Hybrid headphones, neatly laid out. You will find the headphones, a protective carrying case, various cables, and adapters.

- 1 x AKG N9 Hybrid Headphone
- 1 x USB-C Charging Cable
- 1 x USB-C Dongle
- 1 x USB-A to C Adaptor
- 1 x 3.5mm audio cable
- 1 x Flight adaptor
- 1 x Carrying case
- 1 x Warranty/Warning (QSG)

SETUP

Initial Charging

Before first use, fully charge your AKG N9 Hybrid headphones. The charging time is approximately 3 hours. Use the provided USB-C charging cable.

Connectivity

Your AKG N9 Hybrid headphones offer versatile connectivity options:

1. **2.4GHz USB-C Dongle:** For instant and seamless connection to devices like laptops and desktops. The smart USB-C dongle is conveniently stored within the left earcup.

This image shows the dedicated storage compartment for the USB-C dongle located inside the left earcup, ensuring it's always with your headphones.

This image demonstrates how to properly insert the USB-C dongle into its storage slot, securing it when not in use.

Use the included USB-A to C adaptor if your device only has USB-A ports.

2. **Bluetooth:** Connect wirelessly to any Bluetooth-enabled device. Refer to your device's Bluetooth settings to pair with "AKG N9 Hybrid".
3. **3.5mm Audio Cable:** For wired connection to devices with a 3.5mm jack.

OPERATING INSTRUCTIONS

True Adaptive Noise Cancelling

The AKG N9 Hybrid headphones feature top-quality True Adaptive Noise Cancelling technology. This feature can be customized through the AKG Headphones App, allowing you to control how much of the outside world you wish to hear.

Immersive AKG Spatial Audio

Experience immersive spatial audio. The headphones convert any stereo content from any device into virtual surround sound.

Superior Call Quality

Equipped with 4 virtual adaptive beamforming microphones (2 on each earcup), the headphones constantly monitor environmental noise. This ensures your voice is clearly picked up during phone calls or video conferences, making them Zoom-certified for professional use.

Customizable Call Experience

Utilize the AKG Headphones app to fine-tune your voice settings for meetings, presentations, or performances. You can also adjust sound settings to add more bass or treble to other participants' voices.

Battery Life

Enjoy up to 100 hours of playtime on a single charge, providing extended use throughout your work week.

MAINTENANCE

To ensure the longevity and optimal performance of your AKG N9 Hybrid headphones:

- Clean earcups and headband regularly with a soft, dry cloth.
- Avoid exposing the headphones to extreme temperatures, humidity, or direct sunlight.
- Store the headphones in their provided carrying case when not in use to protect them from dust and physical damage.
- Do not attempt to disassemble or repair the headphones yourself. Refer to authorized service centers for any issues.

TROUBLESHOOTING

Headphone Reset

If you experience connectivity issues or unusual behavior, performing a factory reset may resolve the problem. This will restore your headphones to their original settings.

Video: AKG N9 How to Reset

This video provides a step-by-step guide on how to reset your AKG N9 Hybrid headphones to their factory settings, which can help resolve various operational issues.

To reset your headphones, press and hold the Play and Ambient Aware buttons simultaneously for 5 seconds. This action will reset the headphones to their factory settings.

General Issues

- **No Power:** Ensure the headphones are fully charged.

- **No Sound:** Check volume levels on both headphones and connected device. Ensure proper connection (Bluetooth, dongle, or 3.5mm cable).
- **Poor Sound Quality:** Verify the audio source quality. Ensure no physical obstructions are blocking the earcups.
- **Bluetooth Pairing Issues:** Make sure the headphones are in pairing mode. Delete previous pairings on your device and try again.
