## SETUP

---

The Narooto Mobile Game Keyboard Mouse Converter is designed for plug-and-play functionality. Follow these steps to set up your device:

- 1. Connect Power:** Connect the provided Type-C cable to the converter's Type-C port and then to a 5V 2A power adapter (not included) or a power source. This ensures stable operation for the converter and connected peripherals.
- 2. Connect Keyboard and Mouse:** Plug your USB keyboard and USB mouse into the available USB-A ports on the converter. The converter typically has two USB-A ports for this purpose.
- 3. Power On:** Ensure the converter is powered on. An indicator light may illuminate to confirm power status.
- 4. Bluetooth Pairing:**
  - Enable Bluetooth on your mobile phone (Android or iOS).
  - Search for available Bluetooth devices. The converter should appear as a discoverable device.
  - Select the converter to pair. No special app download is required for pairing.
- 5. Launch Game:** Once paired, launch your desired mobile game. The converter will allow you to control the game using your connected keyboard and mouse.

## MOBILE GAME CONVERTER

## OPERATING INSTRUCTIONS

---

Once the converter is set up and paired with your mobile device, you can begin using your keyboard and mouse for mobile gaming.

- **Gaming Control:** The converter translates keyboard and mouse inputs into touch screen commands, allowing for precise control in compatible mobile games.
- **Uninterrupted Gaming:** The converter's stable power supply (requiring 5V 2A input) ensures long-term operation, allowing for extended gaming sessions. You can charge your mobile device separately while playing without interrupting the converter's function.
- **Compatibility:** The converter is compatible with both Android and iOS systems, providing a versatile gaming solution. It uses Bluetooth 4.0 for a stable and delay-free connection.

## MAINTENANCE

---

To ensure the longevity and optimal performance of your Naroote Mobile Game Keyboard Mouse Converter, follow these

maintenance guidelines:

- **Cleaning:** Use a soft, dry cloth to wipe the surface of the converter. Do not use liquid cleaners or abrasive materials.
- **Storage:** Store the device in a cool, dry place away from direct sunlight and extreme temperatures when not in use.
- **Cable Care:** Handle the Type-C cable gently. Avoid bending or twisting it excessively to prevent damage.
- **Port Protection:** Keep the USB and Type-C ports free from dust and debris.

## TROUBLESHOOTING

---

If you encounter issues with your Naroote Mobile Game Keyboard Mouse Converter, refer to the following common solutions:

- **Device Not Powering On:**
  - Ensure the Type-C cable is securely connected to both the converter and a working 5V 2A power adapter or power source.
  - Try a different Type-C cable or power adapter.
- **Cannot Pair via Bluetooth:**
  - Make sure Bluetooth is enabled on your mobile device.
  - Ensure the converter is powered on and within range of your mobile device.
  - Forget the device from your mobile's Bluetooth settings and attempt to pair again.
  - Restart both your mobile device and the converter.
- **Keyboard/Mouse Not Responding:**
  - Check if the keyboard and mouse are securely plugged into the converter's USB ports.
  - Test the keyboard and mouse with another device to ensure they are functional.
  - Ensure the converter is successfully paired with your mobile device.
  - Some games may require specific in-game settings for external controller support. Check game settings.
- **Mobile Device Battery Draining Quickly:**
  - The converter itself does not charge your mobile device. Ensure your mobile device is connected to its own charger if you wish to charge it while playing. The converter's stable power input (5V 2A) ensures its own continuous operation.
