# Deryan Deluxe Parent-Child Bicycle 14 Inch User Manual

Model: Bike Kids | Brand: Deryan

### 1. PRODUCT OVERVIEW

The Deryan Deluxe Parent-Child Bicycle is designed for young riders, offering a safe and comfortable experience. This 14-inch model features an adjustable handlebar and saddle, a steering limiter for added safety, and durable tires suitable for various terrains. It is built with a lightweight aluminum frame for easy handling.

Figure 1: The Deryan Deluxe Parent-Child Bicycle, 14 Inch, shown with training wheels.

### Key Features:

- **Adjustable Handlebar:** Easily adjustable for optimal comfort and fit as your child grows. Features soft rubber grips for secure handling.
- **Steering Limiter:** Enhances safety by preventing over-steering, ideal for beginners to maintain control.
- **Adjustable Synthetic Leather Saddle:** Padded for maximum comfort, height-adjustable to accommodate your child's growth.
- **14-inch Tires:** Provide a comfortable ride on both paved and unpaved roads, offering stability and comfort.
- **Optimized Lightweight Design:** Streamlined design for a modern look and improved aerodynamics, making it easier for children to ride.
- **Fully Enclosed Chain Guard:** Offers additional safety by preventing clothing or body parts from getting caught in the chain.

## 2. SETUP AND ASSEMBLY

The Deryan Deluxe Parent-Child Bicycle requires minimal assembly. Please follow these steps carefully to ensure safe and correct setup.

### Assembly Steps:

1. **Unpacking:** Carefully remove all components from the packaging. Check for any damage or missing parts.
2. **Handlebar Installation:** Insert the handlebar stem into the fork tube. Ensure the handlebar is aligned straight with the front wheel. Tighten the stem bolt securely.
3. **Pedal Attachment:** Identify the left (L) and right (R) pedals. Thread the pedals into the crank arms. Note that the left pedal has a reverse thread. Tighten firmly with a wrench.
4. **Saddle Adjustment:** Insert the seat post into the frame. Adjust the saddle height so your child can comfortably touch the ground with their toes while seated. Secure the quick-release lever or bolt.
5. **Training Wheels (Optional):** If using training wheels, attach them to the rear axle according to the instructions provided with the wheels. Ensure they are securely fastened and provide stable support.
6. **Safety Check:** Before first use, ensure all bolts and fasteners are tight. Check tire pressure, brake function, and steering.

Figure 2: The bicycle's adaptable design allows for conversion between balance bike mode and pedal bike with or without training wheels.

*Figure 3: The handlebar can be adjusted vertically to suit the rider's height.*

### 3. OPERATING INSTRUCTIONS

Proper operation ensures a safe and enjoyable riding experience for your child.

#### **Riding Safely:**

- Always ensure your child wears a helmet and appropriate safety gear.
- Supervise young children while riding.
- Teach your child how to use the brakes effectively. The bicycle is equipped with caliper brakes.
- Ensure the steering limiter is engaged for beginners to prevent sharp turns and maintain stability.
- Ride in safe environments, away from traffic and hazards.

## 4. MAINTENANCE

Regular maintenance will prolong the life of your Deryan bicycle and ensure continued safe operation.

### Routine Checks:

- **Tires:** Check tire pressure before each ride. Refer to the tire sidewall for recommended PSI.
- **Brakes:** Test brake levers for proper function and responsiveness. Ensure brake pads are not excessively worn.
- **Chain:** Keep the chain clean and lightly lubricated to ensure smooth pedaling and prevent rust. The enclosed chain guard helps protect the chain.
- **Bolts and Fasteners:** Periodically check all bolts, nuts, and quick-release levers for tightness. Loose

components can affect safety and performance.

- **Cleaning:** Clean the bicycle with a damp cloth and mild soap. Avoid high-pressure washing, which can damage bearings.

## 5. TROUBLESHOOTING

This section addresses common issues you might encounter with your Deryan bicycle.

Problem	Possible Cause	Solution
Tires feel soft or flat.	Low tire pressure or puncture.	Inflate tires to recommended PSI. Check for punctures and repair if necessary.
Brakes are not responsive.	Loose brake cable or worn brake pads.	Adjust brake cable tension. Replace worn brake pads. Consult a bicycle mechanic if unsure.
Pedaling feels stiff or noisy.	Dry or dirty chain.	Clean and lubricate the chain.
Handlebar or saddle moves during riding.	Loose clamping bolts.	Tighten the handlebar stem bolt and saddle clamp bolt securely.

## 6. SPECIFICATIONS

Detailed technical specifications for the Deryan Deluxe Parent-Child Bicycle, 14 Inch.

Attribute	Detail
