Aoxun G37026

Aoxun Outdoor Storage Shed 5 x 3FT Instruction Manual

Model: G37026

1. Introduction

Thank you for choosing the Aoxun Outdoor Storage Shed. This manual provides essential information for the assembly, operation, maintenance, and troubleshooting of your new storage shed. Designed for durability and functionality, this resin shed offers a secure and weather-resistant solution for your outdoor storage needs.

2. Safety Information

Please read all safety instructions carefully before assembly and operation. Adherence to these guidelines ensures safe use and longevity of your product.

- Ensure the shed is assembled on a level and stable surface to prevent tipping.
- Keep all small parts and packaging materials away from children during assembly.
- Do not store flammable liquids or hazardous materials inside the shed.
- Always secure the shed to the ground using appropriate anchoring methods, especially in windy conditions.
- Safety instructions are also included in the detailed installation manual provided in the package.

3. Setup and Assembly

The Aoxun Outdoor Storage Shed is designed for straightforward assembly, though it is recommended to have at least two people for the process. A detailed installation manual with pictures is included in your package. An installation video is also available online to assist you.

3.1. Before You Begin

- **Check Packages:** Your shed is shipped in two packages. These may be delivered on different days. Please ensure both packages have arrived before starting assembly.
- **Clear the Area:** Choose a flat, level area for assembly. Ensure sufficient space around the shed for ease of construction.
- **Identify Parts:** Lay out all components and verify against the parts list in the manual. Note that some resin panels may be mislabeled; refer to the visual diagrams for correct placement.

3.2. Assembly Tips

- **Screws:** The assembly involves a significant number of screws. Ensure all screws are tightened securely for structural integrity. Consider having additional #8 - 1/2" sheet metal screws on hand for extra reinforcement if desired.
- **Corners:** Pay close attention to the front and back corners during assembly, as these are critical for the shed's stability and alignment.
- **Roof Panel:** In some cases, the rear edge of the roof panel may need minor trimming to fit perfectly. This can be done with a standard box cutter.
- **Floor Reinforcement:** While the shed comes with a sturdy plastic floor, some users may opt to add a wooden floor (e.g., plywood) for enhanced stability and a solid base, which can also aid during assembly.
- **Side Walls:** For increased rigidity, L-shaped brackets can be added to further reinforce the side walls.
- **Glue:** Note that if the instructions call for glue, it is typically not included and would need to be purchased separately.

4. Operating Instructions

The Aoxun Outdoor Storage Shed is designed to provide secure and protected storage for various outdoor items.

- **Storage Capacity:** Utilize the spacious interior for storing garden tools, lawn equipment, accessories, garbage cans, or other items you wish to keep protected from the elements.
- **Lockable Door:** The shed features a lockable door mechanism to ensure the security of your stored items. Always ensure the doors are properly closed and locked when not in use.
- **Integrated Floor:** The sturdy plastic floor separates stored items from the wet ground, providing an additional layer of protection against moisture.
- **Sloping Roof:** The roof is designed with a slope to facilitate the runoff of rainwater and prevent the accumulation of leaves or debris, maintaining the shed's integrity and preventing water ingress.

5. Maintenance

The Aoxun Outdoor Storage Shed is constructed from durable resin materials, designed to withstand outdoor weather conditions such as UV rays, humidity, and temperature fluctuations. Regular maintenance will ensure its longevity and appearance.

- **Cleaning:** The resin material is easy to clean. Use a mild soap and water solution with a soft cloth or sponge to wipe down the exterior and interior surfaces. Avoid abrasive cleaners or harsh chemicals that could damage the material.
- **Debris Removal:** Periodically check the roof for accumulated leaves or debris and clear them to maintain proper water runoff.
- **Door Operation:** Ensure the doors slide and close smoothly. If they become stiff, clean the tracks and apply a silicone-based lubricant if necessary.
- **Structural Check:** Annually inspect all screws and connections to ensure they remain tight. Re-tighten any loose fasteners.

6. Troubleshooting

This section addresses common issues you might encounter with your Aoxun Outdoor Storage Shed.

Problem	Possible Cause	Solution
Missing parts or damaged panels upon delivery	Two packages may arrive on different days; shipping damage.	Wait for the second package if applicable. Inspect all contents immediately upon receipt. Contact Aoxun customer support with details and photos of any damage.
Difficulty with assembly / Shed feels flimsy after assembly	Panels mislabeled, insufficient tightening of screws, uneven base, lack of reinforcement.	Carefully follow the pictorial instructions. Ensure all screws are fully tightened. Consider adding L-shaped brackets or additional #8 - 1/2" sheet metal screws for reinforcement. Ensure the base is perfectly level.
Doors do not align or slide smoothly	Uneven base, improper assembly of door frame/tracks, debris in tracks.	Verify the shed is on a completely level surface. Recheck door frame and track assembly steps. Clean tracks of any dirt or debris.
Water accumulation inside the shed	Improper sealing during assembly, damaged roof/panels, clogged roof slope.	Ensure all panels are correctly interlocked and screws are tight. Check for any cracks or gaps and seal if necessary. Clear any debris from the sloping roof.
No shelves included	Shelves are not a standard inclusion with this model.	This shed model does not come with internal shelving. Shelves must be purchased separately or custom-built to fit your storage needs.

7. Specifications

Feature	Detail
Brand	Aoxun
Model Number	G37026
Color	Gray
Material	Resin (Plastic)
Product Dimensions (D x W x H)	33"D x 57"W x 64"H
Door Style	Sliding Doors

Feature	Detail
Door Width	57 Inches
Door Height	63 Inches
Item Weight	55 pounds
Water Resistance Level	Waterproof
Assembly Required	Yes
