2. SAFETY INFORMATION

- Ensure all components are present and undamaged before assembly. Do not use if any parts are missing or broken.
- Keep children and pets away from the desk during operation to prevent injury.
- Do not overload the desk. The maximum load capacity is 154 lbs (70 kg).
- Ensure there are no obstructions above or below the desk during height adjustment.
- Only use the provided power adapter. Disconnect power before cleaning or maintenance.
- Avoid placing liquids directly on the desk surface without protective coasters.
- This desk is intended for indoor use only.

4. ASSEMBLY INSTRUCTIONS

Assembly typically takes approximately 60-90 minutes. It is recommended to have a second person for assistance during certain steps. Follow the included step-by-step diagrams and instructions carefully.

1. **Unpack Components:** Lay out all parts on a clean, soft surface to prevent scratches. Verify all parts against the package contents list.
2. **Assemble Desktop:** The desktop consists of two sections. Align and secure these sections according to the provided hardware. Ensure the connection is tight and flush.
3. **Attach Desk Legs:** Secure the desk legs to the assembled desktop using the designated screws. Ensure all screws are tightened firmly.
4. **Install Foot Pads:** Attach the adjustable foot pads to the bottom of the desk legs. These can be adjusted later to level the desk on uneven surfaces.
5. **Mount Monitor Stand and Drawers:** Attach the monitor stand and integrate the fabric drawers into their designated slots on the desktop.
6. **Install Control Panel and Headphone Hooks:** Mount the control panel to the underside of the desktop in an accessible location. Attach the headphone hooks to the sides of the desk as desired.
7. **Connect Power:** Connect the power adapter to the desk motor and then to a power outlet.

Important Note:

- When inserting screws, ensure they are aligned straight with the pre-drilled holes to prevent damage to the desktop material.
- A power drill can expedite assembly, but manual tools are sufficient.

Ultimate Stability

5. OPERATING INSTRUCTIONS

5.1. Height Adjustment

The YIHAYO Electric Standing Desk offers an adjustable height range from 27.6 inches to 45.3 inches. Use the up and down arrow buttons on the control panel to adjust the desk height.

- Press the **Up Arrow** button to raise the desk.
- Press the **Down Arrow** button to lower the desk.
- Release the button at your desired height.

Wide Height Adjustment

Height Adjustment Range: 27.6"- 45.3"

5.2. Memory Presets

The control panel features three memory buttons (1, 2, 3) to store and recall your preferred sitting and standing heights.

1. Set a Memory Height:

- Adjust the desk to your desired height using the up/down arrows.
- Press the **S** button (Set).

- Immediately press one of the memory buttons (1, 2, or 3) until you hear a beep or see a confirmation on the display. The current height is now saved to that button.

2. Recall a Memory Height:

- Press the desired memory button (1, 2, or 3). The desk will automatically move to the saved height.

Image 5.2: The smart keypad allows for precise height adjustments and saving up to three preferred positions.

5.3. Anti-Collision Technology

The desk is equipped with an automatic anti-collision system. If the desk encounters an obstruction during height adjustment, it will automatically stop and reverse slightly to prevent damage or injury. Ensure the area around the desk is clear, but this feature provides an additional layer of safety.

The motor operates quietly, typically below 40 dB, ensuring minimal disruption during use, even in quiet environments.

6. MAINTENANCE

- **Cleaning:** Wipe the desk surface and frame with a soft, damp cloth. Avoid abrasive cleaners or harsh chemicals.
- **Check Connections:** Periodically check all screws and connections to ensure they remain tight. Retighten if necessary.
- **Cable Management:** Organize cables to prevent tangling or interference with the desk's movement.

7. TROUBLESHOOTING

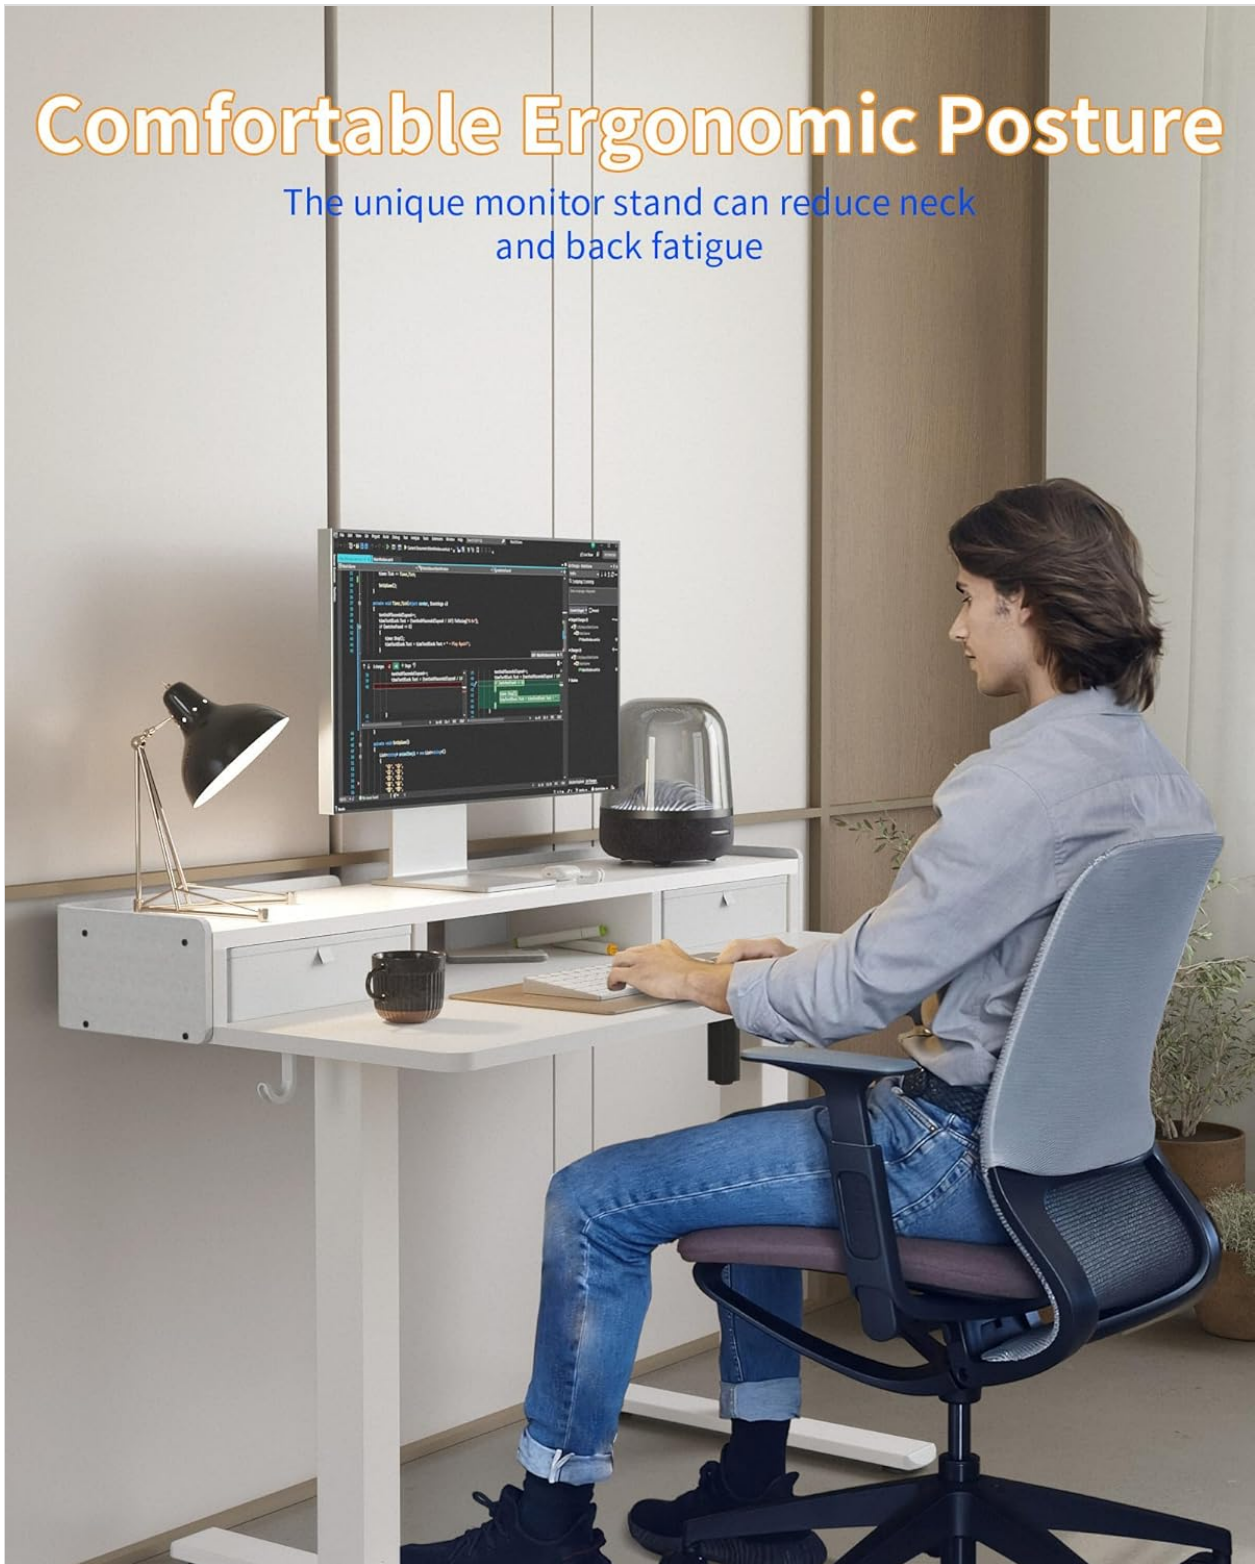

Problem	Possible Cause	Solution
Desk does not move	Power cable disconnected; Motor error; Overload	Check power connections; Unplug and replug power after 10 seconds; Reduce load on desk.
Uneven desk surface	Uneven floor; Foot pads not adjusted	Adjust the screw-in foot pads at the base of the legs until the desk is level.
Desk stops during adjustment (anti-collision activated)	Obstruction detected	Remove any objects obstructing the desk's path. Resume adjustment.
Wobbling at maximum height	Loose connections; Uneven load	Ensure all assembly screws are tightened. Distribute weight evenly on the desktop.

If you encounter issues not listed here or if solutions do not resolve the problem, please contact customer support.
