## 4. SETUP (INSTALLATION)

Follow these steps to properly install your new toner cartridge:

1. **Preparation:** Before installation, it is recommended to use a vacuum cleaner or a soft, dry cloth to clean any remaining toner or paper scraps inside the printer. Avoid blowing air into the printer, as this can spread toner dust.
2. **Shake the Cartridge:** Take the new toner cartridge out of its packaging. Gently shake it horizontally 4-8 times to ensure the toner powder is evenly distributed within the cartridge.
3. **Remove Protection Buckles:** Locate and remove the orange protection buckles on both sides of the toner cartridge. If there is any isolation paper, slowly pull out the black isolation paper in the direction indicated.
4. **Pull the Seal:** Carefully pull the sealing strip evenly and straight until it is completely removed. Avoid tearing or breaking the seal. The length of the seal is approximately twice the length of the toner cartridge.
5. **Install into Printer:** Open the printer's toner compartment. Align the toner cartridge with the guide rails

inside the printer and push it smoothly until it clicks securely into place. Ensure it is fully seated.

## 6. MAINTENANCE

Proper handling and maintenance can extend the life and performance of your toner cartridge:

- **Drum Core Protection:** During installation or removal, avoid touching the drum core. Scratches on the drum core can significantly affect print quality.
- **Chip Handling:** Do not touch the chip on the toner cartridge. The chip is crucial for communication with the printer and ensures optimal performance.
- **Storage:** Store unused toner cartridges in their original sealed packaging in a cool, dry place away from direct sunlight and extreme temperatures.

## 7. TROUBLESHOOTING

If you encounter issues with your toner cartridge, consider the following:

- **Print Quality Issues (Streaks, Fading):** Ensure the toner cartridge was shaken properly before installation to distribute toner evenly. Check if the sealing strip was fully removed.

- **Printer Not Recognizing Cartridge:** Verify that the cartridge is fully seated in the printer. Gently remove and reinsert it. Ensure the chip on the cartridge is clean and undamaged.
- **Compatibility Check:** Due to regional variations in printer models, some models may require you to transfer the original chip from your old cartridge to the new one. Please confirm your specific printer model's requirements if issues persist.
- **Error Messages:** Refer to your printer's user manual for specific error codes and troubleshooting steps.
