OPERATING INSTRUCTIONS

Adjusting Seat Height

To adjust the seat height, locate the lever on the right side beneath the seat. While seated, pull the lever up to lower the seat. To raise the seat, stand up slightly and pull the lever up. Release the lever at your desired height to lock it in place. The seat height can be adjusted from 49 cm to 58 cm.

Tilting Function

The chair features a rocking function for added comfort. To activate or deactivate the tilt, push or pull the same lever used for height adjustment. To adjust the tension of the tilt, rotate the round knob located beneath the seat, usually at the front. Turn clockwise to increase tension (making it harder to tilt) and counter-clockwise to decrease tension (making it easier to tilt).

MAINTENANCE

- **Cleaning the Velvet Fabric:** The velvet fabric is soft and skin-friendly, as well as easy to maintain. For general cleaning, gently vacuum the fabric to remove dust and debris. For spills, blot immediately with a clean, dry cloth. For stubborn stains, use a mild fabric cleaner specifically designed for velvet, testing on an inconspicuous area first. Avoid harsh chemicals or abrasive cleaners.
- **Caster Maintenance:** Periodically check the wheels for any accumulated hair or debris that might hinder smooth movement. Clean them as needed.
- **Hardware Check:** Every few months, inspect all screws and bolts to ensure they are tight. Re-tighten if necessary to maintain stability and safety.
