7. TROUBLESHOOTING

Problem	Possible Cause	Solution
Cat not using the tree.	Unfamiliarity, location, preference for other scratching surfaces.	Place the tree in a high-traffic area. Use catnip to attract your cat. Gently guide your cat's paws to the scratching posts.
Tree feels wobbly.	Loose connections, uneven floor, anti-tip kit not installed.	Ensure all screws are tightened. Place on a level surface. Install the anti-tip kit securely to a wall stud.
