

SHREYANS 588

SHREYANS 58mm Mini Portable Inkless Thermal Printer User Manual

Model: 588

1. INTRODUCTION

Thank you for choosing the SHREYANS 58mm Mini Portable Inkless Thermal Printer. This compact and high-speed billing printer is designed for convenience and efficiency, offering seamless connectivity with mobile devices (Android/iOS) and PCs. Its inkless thermal technology ensures maintenance-free operation and long-lasting prints, making it ideal for various billing and ticketing applications.

The SHREYANS 58mm Mini Portable Thermal Printer, shown with its protective pouch, power adapter, and USB cable.

2. PACKAGE CONTENTS

Please verify that all the following items are included in your package:

- SHREYANS 58mm Mini Portable Thermal Printer (Model 588)
- Inbuilt Battery (pre-installed)
- Power Adapter
- Paper Roll (one included for initial use)
- USB Cable
- Protective Pouch
- Instruction Guide (this manual)
- Customer Care Support Card

3. SETUP GUIDE

3.1 Charging the Printer

Before first use, fully charge the printer. Connect the provided power adapter to the printer's charging port and plug it into a power outlet. The battery indicator lights will show charging status. A full charge typically provides 2-3 days of backup.

3.2 Loading Thermal Paper

1. Open the paper compartment cover by gently pushing the latch.
2. Insert a 58mm thermal paper roll, ensuring the printing side faces the thermal head (usually the smooth, shiny side).
3. Pull a small length of paper out of the compartment.
4. Close the paper compartment cover firmly until it clicks into place. Ensure the paper protrudes slightly from the slot.

The printer supports paper rolls with a width of 20mm-50mm and can fit a 20-meter roll, capable of printing up to 300 bills.

3.3 Connecting via Bluetooth (Android/iOS)

The SRS588 printer can be easily connected to your Android or iOS mobile device via Bluetooth.

1. Ensure the printer is powered on.
2. On your mobile device, go to Settings > Bluetooth and turn Bluetooth on.
3. Search for available devices. The printer will typically appear as 'SRS588' or a similar name.
4. Select the printer from the list to pair. If prompted for a PIN, enter '0000' or '1234'.
5. Once paired, you can use compatible billing or printing applications on your device to send print jobs to the printer.

TINY BUT POWERFUL

2x
SMALL

2.3x
LIGHTER

The printer supports seamless Bluetooth connectivity with both Android and iOS smartphones.

3.4 Connecting via USB (PC)

For PC connectivity, use the provided USB cable.

1. Connect one end of the USB cable to the printer and the other end to your PC.
2. Install the necessary printer drivers. Drivers can be found on the official SHREYANS website or provided on a CD/USB drive with the product.
3. Follow the on-screen instructions to complete the driver installation.
4. Once installed, the printer will be recognized by your PC, allowing you to print from various applications.

4. OPERATING INSTRUCTIONS

4.1 Basic Printing

After successful connection (Bluetooth or USB), open your desired application (e.g., billing software, document viewer) and select the print option. Choose the SHREYANS 58mm printer from the list of available printers and initiate the print job.

4.2 Application Compatibility

The SRS588 Thermal Printer is compatible with a wide range of billing and other applications. This includes, but is not limited to:

- Hotel Billing Software
- EPR Software (e.g., Tally, Vyapar)
- Electricity Billing Software
- Toll Collection Software
- Bank Collection Software
- Ticketing Software
- Food Canteens applications
- Voting Apps
- Swiggy (Desktop)
- Zomato (Desktop)
- Paytm, PhonePe, GPay
- Mybillbook, Khatabook, Zoho App
- Toll Plaza, UPPCL, Petpooja

The printer supports various printing needs, including photo printing, document printing, journal printing, QR code generation, and label printing.

PHOTOS

TO-DO LIST

The printer is versatile for photo, document, and journal printing directly from your mobile device.

MEET YOUR PRINTING NEEDS AT ANY TIME

PHOTO PRINTING

DOCUMENT PRINTING

JOURNAL PRINTING

Beyond billing, the printer can be used for personal and creative tasks like printing photos, journal entries, QR codes, and labels.

5. MAINTENANCE

5.1 Thermal Head Care

The SRS588 printer utilizes inkless thermal printing technology, eliminating the need for ink cartridges or ribbons. Its Japanese Technology Thermal head is designed for durability, capable of printing up to 50 kilometers without maintenance costs for refill or repair. To ensure optimal performance and longevity:

- Avoid touching the thermal head directly.
- Regularly clean the thermal head with a soft, lint-free cloth lightly dampened with isopropyl alcohol. Ensure the printer is off and cool before cleaning.
- Use only high-quality thermal paper to prevent residue buildup on the thermal head.

Prints from the thermal head can hold their legibility for up to 1 year, making it suitable for various sectors.

5.2 Battery Care

The printer is powered by a 2000mAh Li-ion battery. To maximize battery life:

- Avoid fully discharging the battery frequently.
- Store the printer in a cool, dry place when not in use for extended periods.
- Charge the printer regularly, even if not in constant use, to maintain battery health.

6. TROUBLESHOOTING

If you encounter issues with your SHREYANS printer, please refer to the following common problems and solutions:

- **Printer not turning on:** Ensure the battery is charged. Connect the adapter and try again.
- **No print output:** Check if thermal paper is loaded correctly and the paper compartment is closed. Verify Bluetooth or USB connection is active.
- **Poor print quality:** Ensure you are using thermal paper. Clean the thermal print head as described in the Maintenance section.
- **Bluetooth pairing issues:** Ensure the printer is discoverable. Turn off and on Bluetooth on both the printer and your device. Remove previous pairings and try again.
- **PC not detecting printer:** Reinstall USB drivers. Try a different USB port or cable.

For further assistance, please contact our customer support team using the details provided on the Customer Care Support Card.

7. SPECIFICATIONS

Feature	Specification
Model Number	588
Product Dimensions	8D x 8W x 9H Centimeters
Item Weight	20 g
Connectivity Technology	Bluetooth, USB
Printing Technology	Thermal
Maximum Media Size	58 mm
Max Print Speed (Monochrome)	30 ppm
Compatible Devices	Smartphones (Android, iOS), PC
Battery	2000mAh Li-ion (2-3 days backup)
Thermal Head Life	Up to 50 Kms
Print Retention	Up to 1 Year
Country of Origin	India

8. WARRANTY AND SUPPORT

Your SHREYANS 58mm Mini Portable Thermal Printer comes with a standard manufacturer's warranty. Please refer to the Customer Care Support Card included in your package for specific warranty terms and

conditions.

For any technical support, installation guidance, or usage queries, you can contact our dedicated customer care team. Additionally, helpful YouTube links for product installation and usage videos are provided with your purchase for visual guidance.

We are committed to providing excellent service and support for your SHREYANS product.

Part One: Overview.

The following information applies to certain items of third-party technology that are included along with certain Xilinx software tools.

Licensee's use of the GNU compiler (including associated libraries and utilities) may cause Licensee's software application or board-support package to be governed by certain third-party "open source" license agreements, as further described below. Licensee can avoid this result by using alternative compilers, libraries, and utilities of its own choosing in lieu of the GNU compiler (and associated libraries and utilities).

Note: Licensee is solely responsible for checking the header files and other accompanying source files of all software applications created from the use of the GNU compiler and associated libraries and utilities because such header and/or source files may contain or describe various copyright notices and license terms and conditions governing such files, which vary from case to case based on Licensee's usage and are beyond the control of Xilinx. This summary and the license information provided below is for reference purposes and is not intended to be a comprehensive list of all copyright notices or third-party license terms and conditions applicable to Xilinx software tools. Licensee is solely responsible for complying with the terms and conditions imposed by third parties as applicable to the Licensee's software applications created from the use of the GNU compiler (and associated libraries and utilities).

The remainder of this document is organized into various parts, as follows:

Part Two: Licensee Redistributable Content.

Index.

Licensees and Notices:

Part Two contains a list of notices, licenses and/or other information related to certain items of third-party technology that Xilinx has identified and categorized in a "Licensee Redistributable Content", which means that Xilinx has included this third-party technology with the Xilinx Software for the purpose of enabling a Xilinx customer to distribute it (or a portion of it, or a derivative form of it as part of such customer's design or product).

Part Three: Other Third-Party Content.

Index.

Licensees and Notices:

Part Three contains a list of additional notices, licenses and/or other information related to certain items of third-party technology other than as provided in Part Two. Please note that by listing certain items in this Part Three as opposed to Part Two above, Xilinx does not design or describe in any respect the design, development, or Licensee's right to make use of any applicable, with respect to any license that may be applicable, with respect to the design or future distribution of such items. With respect to any license that requires Xilinx to make available to recipients of object code distributed by Xilinx pursuant to such license the corresponding source code, and if you desire to receive such source code from Xilinx, please refer to the Xilinx website at <https://www.xilinx.com/products/design-tools/gateware-measures.html>. If you cannot access the Internet to obtain a copy thereof, then Xilinx hereby offers (which offer is valid for as long as required by the applicable license, and we may charge for the cost of our efforts to provide the license to you) such copy of such source code, which source code will be made available to you upon request.
