SETUP AND ASSEMBLY

Your DNYN Twin Over Twin Bunk Bed requires assembly. All necessary tools are included. Please follow the detailed assembly instructions provided in the packaging. It is recommended that two people assemble this product.

- **Estimated Assembly Time:** Approximately 40 minutes.
- **Suggested Number of People:** 2.
- **Tools Required:** All tools are included in the package.

OPERATING INSTRUCTIONS

Using the Ladder:

The integrated ladder provides safe access to the upper bunk. Always use the ladder when entering or exiting the upper bunk. Ensure hands and feet are clean and dry to prevent slipping. Do not jump on or off the upper bunk.

Using the Storage Unit:

The bunk bed features a versatile storage unit with four drawers and three open shelves. These can be used to store clothing, books, toys, and other personal items. Ensure drawers are closed completely when not in use to prevent tripping hazards.

Mattress Requirements:

- **Upper Bed:** Maximum recommended mattress thickness is 6 inches.
- **Bottom Bed:** Maximum recommended mattress thickness is 8 inches.

Using mattresses thicker than recommended may compromise the safety of the guardrails on the upper bunk.

MAINTENANCE

- **Cleaning:** Wipe the bed frame and storage unit with a soft, damp cloth. Avoid using harsh chemicals or abrasive cleaners, as these can damage the finish.
- **Hardware Check:** Periodically check all bolts, screws, and connections to ensure they remain tight. Retighten as necessary to maintain structural integrity and safety.
- **Moving the Bed:** When moving the bunk bed, lift it rather than dragging it to prevent damage to the frame and floor.

TROUBLESHOOTING

- **Squeaking Noises:** If the bed makes squeaking noises, check all bolts and screws and tighten them securely. Ensure the bed is on a level surface.
- **Wobbly Frame:** A wobbly frame usually indicates loose connections. Re-check and tighten all assembly hardware.
- **Drawers Sticking:** Ensure the drawer slides are clean and free of debris. Check that the drawers are properly aligned on their tracks.
