

Lubluelu SL60D

Lubluelu SL60D Robot Vacuum and Mop Combo User Manual

Model: SL60D | Brand: Lubluelu

INTRODUCTION

Welcome to the Lubluelu SL60D Robot Vacuum and Mop Combo user manual. This guide provides comprehensive instructions for setting up, operating, maintaining, and troubleshooting your new robotic cleaner. The SL60D is designed to simplify your floor cleaning routine with advanced LiDAR navigation, powerful suction, and versatile vacuuming and mopping capabilities.

Image: The Lublu SL60D Robot Vacuum and Mop Combo, showcasing its sleek design and integrated mopping system.

PRODUCT OVERVIEW AND PACKAGE CONTENTS

Before starting, please ensure all components are present and undamaged. Refer to the image below for a visual guide to the package contents.

Product list

1X English Manual

1X Charging Base

1X AU Power Adapter

2X Cloth Mops

4X Side Brushes

2X HEPA Filters
(1 in the robot)

1X 2-in-1 Dust Box

1X MINI Comb Clean Tool

Image: A detailed view of the Lubluelu SL60D Robot Vacuum and Mop Combo's package contents, including the main unit, charging base, power adapter, mop cloths, side brushes, 2-in-1 dust box, HEPA filters, and cleaning tool.

Package Contents:

- 1 x SL60D Robot Vacuum
- 1 x 2-in-1 Dustbin and Water Tank
- 1 x Charging Base
- 1 x Power Adapter
- 1 x Mop Cloth
- 1 x Mop Holder
- 4 x Side Brush
- 1 x Cleaning Tool
- 1 x User Manual (this document)
- 2 x HEPA Filters (1 in the robot)

SETUP

1. Charging Base Placement

Place the charging base against a wall in an open, uncluttered area. Ensure there is at least 0.5 meters (1.6 feet) of clear space on both sides and 1.5 meters (4.9 feet) in front of the charging base. Connect the power adapter to the charging base and plug it into a power outlet.

2. Initial Charging

Place the robot vacuum onto the charging base. Ensure the charging contacts on the robot align with those on the base. The robot will automatically begin charging. For first-time use, fully charge the robot before operation (approximately 4-5 hours).

3. App Connection (2.4GHz Wi-Fi Only)

Download the "Smart Life" app from your mobile app store. Follow the in-app instructions to connect your Lubluelu SL60D to your home Wi-Fi network. **Note: The SL60D only supports 2.4GHz Wi-Fi networks.**

Image: The Lubluelu SL60D Robot Vacuum demonstrating its compatibility with the Smart Life app, Amazon Alexa, and Google Home for smart control.

OPERATING INSTRUCTIONS

1. LiDAR Navigation and Mapping

The SL60D utilizes LDS9.0 LiDAR mapping technology for precise navigation and efficient route planning. During its initial runs, the robot will create a detailed map of your home. It can store up to 5 editable maps, allowing for customized cleaning plans across multiple floors or distinct areas.

Image: Illustration of the Lublu SL60D's multi-floor mapping capability, showing how it can save up to 5 different floor plans for customized cleaning.

2. Cleaning Modes

The robot offers various cleaning modes accessible via the app:

- **Automatic Cleaning:** The robot intelligently cleans the entire mapped area.
- **Edge Cleaning:** Cleans along walls and furniture edges.
- **Zone Cleaning:** Cleans specific user-defined zones.
- **Spot Cleaning:** Focuses on a small, concentrated area for intensive cleaning.
- **Double Cleaning:** Performs two passes over the cleaning area for thoroughness.

- **Scheduled Cleaning:** Set specific times for the robot to clean automatically.
- **Y-shaped Mopping:** Mimics manual mopping for effective wet cleaning.

3. Suction Power Adjustment

The SL60D features 4000Pa suction power with 3 adjustable modes (Low, Medium, High). You can adjust the suction level via the app to suit different floor types and cleaning needs. The robot automatically increases suction on carpets for deeper cleaning (Boost-Intellect Technology).

Image: Visual representation of the Lublu SL60D's strong suction power, highlighting its brushless motor, wide cleaning area, and high-efficiency filtration.

4. 2-in-1 Vacuum and Mop Function

The integrated 2-in-1 dustbin and water tank allows for simultaneous vacuuming and mopping. The precision micro-control water pump supports 3 levels of water flow adjustment (High/Medium/Low) via the app.

2-in-1 Vacuum and Mop

Easy cleaning of cat hair, dog hair and long hair

Image: The Lubluelu SL60D Robot Vacuum and Mop Combo cleaning a floor with pet hair and debris, demonstrating its 2-in-1 functionality.

3 Adjustable Water Levels

Select the level of water to mop via the mobile app

Image: An illustration showing the three adjustable water levels for mopping, controlled via the mobile app.

Important: It is not recommended to use the mopping function on carpets. Ensure the mopping pad is removed when cleaning carpeted areas.

5. No-Go Zones and Virtual Walls

Using the app, you can set up to 10 electronic No-Go Zones or virtual walls to restrict the robot from entering certain areas (e.g., pet areas, children's play areas, or areas with delicate items).

10 Editable Electronic No-Go Zones

It's easy to set up your own quiet, secure area with the electronic invisible wall

Image: A visual guide to setting up editable electronic No-Go Zones within the app, creating virtual boundaries for the robot vacuum.

6. Breakpoint Continuous Cleaning

If the battery level drops to 15% during cleaning, the robot will automatically return to its charging base. Once charged to 80%, it will resume cleaning from where it left off, ensuring complete coverage without missing spots.

Continuous Cleaning After Breakpoints

When the power drops to 15%, the machine automatically recharges and when it reaches 80%, the machine returns to the break point to continue cleaning

Image: Diagram illustrating the robot vacuum's ability to return to its charging base when the battery is low and then resume cleaning from the exact spot it left off.

7. Anti-Collision and Anti-Fall

The SL60D is equipped with AI recognition technology to accurately avoid obstacles and prevent falls from stairs or edges. Its off-road wheels allow it to cross obstacles up to 18mm (0.71 inches) high.

MAINTENANCE

Regular maintenance ensures optimal performance and extends the lifespan of your Lubluelu SL60D.

1. Emptying the Dustbin and Cleaning Filters

It is recommended to empty the 2-in-1 dustbin after each cleaning cycle, especially if you have pets. Open the dustbin, discard debris, and clean the primary filter and HEPA filter with the provided cleaning tool or a soft brush. Do not wash HEPA filters with water.

2. Cleaning the Main Brush and Side Brushes

Periodically remove the main brush and side brushes to clear any tangled hair or debris. Use the cleaning tool to cut and

remove hair wrapped around the main brush. Wipe the side brushes clean.

3. Cleaning the Mopping Pad

After each mopping session, remove the mopping pad from the water tank and wash it thoroughly with water. Allow it to air dry completely before reattaching.

4. Cleaning Sensors and Charging Contacts

Wipe the anti-drop sensors, anti-collision sensors, and charging contacts on both the robot and the charging base with a clean, dry cloth to ensure proper functionality.

TROUBLESHOOTING

If you encounter issues with your Lubluelu SL60D, refer to the common problems and solutions below:

Problem	Possible Cause	Solution
Robot does not turn on or charge.	Battery low; charging contacts dirty; power adapter not connected.	Ensure robot is on charging base; clean charging contacts; check power connection.
Robot gets stuck frequently.	Obstacles (cables, small items); high thresholds.	Clear obstacles; use No-Go Zones for problematic areas. Robot can cross obstacles up to 18mm.
Poor cleaning performance.	Dustbin full; filters clogged; brushes tangled.	Empty dustbin; clean/replace filters; clean main and side brushes.
Mopping function not working or leaking.	Water tank empty; water flow setting too low; electronic water pump issue.	Refill water tank; adjust water flow in app; ensure tank is properly installed.
Cannot connect to Wi-Fi/App.	Incorrect Wi-Fi band; weak signal; incorrect password.	Ensure 2.4GHz Wi-Fi; move robot closer to router; re-enter password.
Robot does not return to charging base.	Charging base obstructed; robot too far from base.	Clear area around charging base; manually place robot near base.

Frequently Asked Questions (FAQs)

- Does Lubluelu robot vacuum support a 5GHz Wi-Fi network?**
No, Lubluelu robot vacuums only support a 2.4Ghz Wi-Fi network at present.
- Does the robot vacuum work with Alexa?**
This robot vacuum works with Alexa and Google Assistant by voice commands. However, it is only turned on or off by voice control, not for detailed commands.

SPECIFICATIONS

Feature	Detail
Brand	Lubluelu
Model Name	Robot Vacuum Cleaner (SL60D)
Navigation Type	LDS 9.0 LiDAR Navigation

Feature	Detail
Suction Power	Up to 4000Pa (3 modes)
Cleaning Modes	Automatic, Edge, Zone, Spot, Double, Scheduled, Y-shaped Mopping
Mapping Capability	Up to 5 editable maps
No-Go Zones	Up to 10 electronic No-Go Zones
Water Flow Levels	3 levels (High/Medium/Low)
Obstacle Clearance	Up to 18mm (0.71 inches)
Battery Life	150 minutes
Control Method	App, Voice (Amazon Alexa, Google Assistant)
Product Dimensions	12.8"L x 12.8"W x 3.6"H
Item Weight	9.68 pounds
Filter Type	Cloth (HEPA)

WARRANTY AND SUPPORT

Lubluelu is committed to customer satisfaction and provides comprehensive support for your product.

- **Warranty:** The product comes with a 24-month warranty.
- **Full Refund:** A 90-day full refund policy is available.
- **Technical Support:** Lubluelu offers full life-cycle technical support. If you encounter any problems during use, please contact their professional FAE technical support team.
- **Customer Service:** 7-24h customer service is available.

For assistance, please send a message to Lubluelu customer service detailing the issue you are experiencing.
