## EROMMY WQG026

# EROMMY 12'x20' Hardtop Gazebo Instruction Manual

Model: WQG026

## 1. INTRODUCTION

---

Thank you for choosing the EROMMY 12'x20' Hardtop Gazebo. This manual provides essential information for the safe and correct assembly, operation, and maintenance of your new outdoor pavilion. Please read these instructions thoroughly before beginning assembly and retain them for future reference.

This gazebo features a durable galvanized steel double roof and a robust aluminum frame, designed for long-term outdoor use. It includes detachable curtains and netting for privacy and insect protection, and offers ample space for various outdoor activities.

## 2. SAFETY INFORMATION AND PRECAUTIONS

---

- Always check the snow capability and wind rating specifications for your region before installation.
- Carefully inspect all instructions and accessories before beginning installation.
- Assembly requires a minimum of 2-3 people.
- Prepare necessary tools such as ladders and gloves for safe installation.
- Ensure the four anchoring stands are sturdily anchored into the ground to prevent movement.
- The dark color and high heat conductivity of aluminum may cause the gazebo to heat quickly under direct sunlight. Exercise caution during hot weather.
- While designed for weather resistance, heavy rain may reveal slight leaks in the roof system, which can be minimized by ensuring tight installation.

## 3. PACKAGE CONTENTS

---

Your EROMMY gazebo package includes all necessary components for assembly, such as the galvanized steel roof panels, aluminum frame sections, curtains, netting, and hardware. Please verify all parts are present and undamaged against the packing list provided in the box before starting assembly. Contact customer service immediately if any parts are missing or damaged.

## 4. SETUP AND ASSEMBLY

The EROMMY gazebo manual includes detailed picture examples to guide you through the assembly process. With 2-3 people, assembly typically takes approximately 3 hours. Follow the steps outlined in the provided manual carefully.

Figure 4.1: Overall view of the EROMMY 12'x20' Gazebo with key dimensions and features highlighted.

### 4.1 Frame Assembly

Assemble the aluminum frame components according to the step-by-step instructions. Ensure all connections are secure and tightened appropriately. The frame features a sturdy triangular structure for enhanced stability.

Figure 4.2: Detail of the durable aluminum frame and sturdy triangular structure, designed for stability.

## 4.2 Roof Installation

Install the galvanized steel double roof panels. The double-top design promotes ventilation and air circulation while reducing wind pressure. Ensure the protective net is properly installed in the top mesh screens for insect protection.

Figure 4.3: The galvanized steel double roof features mesh screens for ventilation and insect protection.

### 4.3 Anchoring

Secure the gazebo to the ground using the pre-drilled base plates and anchor stakes. Proper anchoring is crucial for stability, especially in windy conditions.

# Anchor Base

Equipped with pre-drilled base plates coated with rust-resistant powder, combined with anchor stakes, to ensure a more secure anchoring.

Figure 4.4: The anchor base ensures secure attachment to the ground for enhanced stability.

## 5. OPERATING INSTRUCTIONS

### 5.1 Curtains and Netting

The gazebo is equipped with detachable netting and curtains. These can be easily slid along the dual tracks and secured with straps, allowing you to customize your space for ventilation, privacy, or insect protection.

Figure 5.1: The dual track design allows for smooth operation of the curtains and netting.

Figure 5.2: The detachable curtains and netting offer flexible options for privacy and airflow.

## 5.2 Ventilation and Lighting

The double roof design includes top mesh screens for continuous ventilation. Convenient 'J' and 'U' shaped hooks are integrated into the roof structure, allowing for the suspension of fans or lights to enhance comfort and ambiance.

Figure 5.3: Integrated hooks provide options for hanging fans or lighting fixtures.

## 6. MAINTENANCE

To ensure the longevity and appearance of your EROMMY gazebo, regular maintenance is recommended:

- **Cleaning:** Clean the galvanized steel roof and aluminum frame periodically with mild soap and water. Rinse thoroughly and dry to prevent water spots.
- **Fabric Care:** The yarn-dyed curtains and netting are designed to be waterproof, fade-resistant, and offer UV protection. Clean them as needed with a gentle detergent and allow them to air dry completely before storing or reattaching.
- **Inspection:** Regularly check all bolts, screws, and connections to ensure they remain tight. Re-tighten any loose fasteners.
- **Anchoring:** Periodically inspect the ground anchors to ensure they are still securely fastened, especially after strong winds or heavy rain.
- **Winter Care:** In areas with heavy snowfall, it is advisable to remove accumulated snow from the roof to prevent structural damage. Consider disassembling and storing the gazebo during extreme winter conditions for optimal

preservation.

## 7. TROUBLESHOOTING

While the EROMMY gazebo is designed for durability and ease of assembly, occasional issues may arise. Here are some common concerns and general advice:

- **Missing Parts:** If you discover any missing parts upon unboxing, please contact EROMMY customer service immediately with your purchase details.
- **Assembly Difficulties:** Refer to the detailed picture examples in your manual. Ensure you have 2-3 people assisting with assembly. If a step is unclear, review the instructions or contact support.
- **Roof Leaks:** Minor leaks during heavy rain can sometimes occur if roof panels are not installed with sufficient tightness. Re-check the installation of all roof panels and ensure all fasteners are secure.
- **Stability Concerns:** Ensure the gazebo is properly anchored to the ground using the provided base plates and anchor stakes. Verify the ground surface is level and firm.

## 8. SPECIFICATIONS

Attribute	Detail
Brand	EROMMY
Model Number	WQG026
Material	Galvanized Steel Roof, Aluminum Frame
Product Dimensions (L x W x H)	233.6" x 139.1" x 120.4" (12'x20')
Item Weight	421 Pounds
Water Resistance Level	Water Resistant
Ultraviolet Light Protection	99%
Assembly Required	Yes
Occupancy	4-6 People
Color	Brown
