

Kircuit Micro-USB 5V Charging Cable

Kircuit Micro-USB 5V Charging Cable User Manual

Model: Micro-USB 5V Charging Cable

INTRODUCTION

This manual provides comprehensive instructions for the Kircuit Micro-USB 5V Charging Cable. This cable is designed to supply DC 5V power for charging compatible devices, specifically various models of RunningSnail and DaringSnail emergency weather radios. Please read this manual carefully to ensure proper use and maintenance of your charging cable.

PRODUCT OVERVIEW

The Kircuit Micro-USB 5V Charging Cable is a reliable power supply cord engineered to meet the charging requirements of your compatible devices. It converts AC power from an electrical outlet (when used with a suitable AC adapter, not included) into the DC power needed by your device, or connects to a USB power source for charging.

Key Features:

- **Connector Type:** USB Type-A to Micro-USB Type-B.
- **Power Output:** DC 5V.
- **Compatibility:** Specifically designed for RunningSnail and DaringSnail emergency weather radios, including models MD-090P, 090PG, 097, 088, 088P, 098, 096, 096B, 092P, and 090.
- **Durability:** Tested for reliable performance.

Image 1: The Kircuit Micro-USB 5V Charging Cable. This image displays the black cable coiled, featuring a standard USB Type-A connector on one end and a Micro-USB Type-B connector on the other, both black.

SETUP

1. **Identify Ports:** Locate the Micro-USB charging port on your compatible device (e.g., RunningSnail emergency weather radio) and a standard USB Type-A port on your power source (e.g., wall adapter, computer, power bank).
2. **Connect to Power Source:** Insert the standard USB Type-A end of the charging cable into the USB port of your power source.
3. **Connect to Device:** Carefully insert the Micro-USB Type-B end of the charging cable into the Micro-USB charging port on your device. Ensure the connector is oriented correctly to avoid damage.
4. **Verify Connection:** Confirm that both ends of the cable are securely connected. Your device should indicate that it is charging (e.g., a charging indicator light or on-screen icon).

OPERATING INSTRUCTIONS

Once the cable is properly connected as described in the "Setup" section, your device will begin charging. The charging process is automatic. Monitor your device's charging indicator to determine when the battery is full.

- For optimal charging, use a power source that provides a stable 5V DC output.
- Avoid bending or twisting the cable excessively during use.
- Disconnect the cable from both the power source and the device once charging is complete or when the device is not in use.

MAINTENANCE

Proper maintenance extends the life of your charging cable.

- **Cleaning:** Use a soft, dry cloth to wipe the cable and connectors. Do not use liquid cleaners or solvents.

- **Storage:** Store the cable in a cool, dry place away from direct sunlight and extreme temperatures. Avoid tightly coiling or knotting the cable, as this can damage the internal wires.
- **Handling:** Always grasp the connector head when plugging or unplugging the cable, rather than pulling on the cable itself.
- **Inspection:** Periodically inspect the cable for any signs of wear, fraying, or damage to the connectors. Discontinue use if damage is observed.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Device not charging.	Loose connection, faulty power source, damaged cable, incompatible device.	Ensure both ends of the cable are securely connected. Try a different USB power source or wall adapter. Inspect the cable for visible damage. If damaged, replace it. Verify your device is compatible with a Micro-USB 5V charging cable.
Slow charging.	Low power output from source, device drawing too much power, cable resistance.	Use a power source with adequate current output (e.g., 1A or 2A USB adapter). Ensure no other high-power devices are connected to the same power source. Clean the connectors to ensure good contact.

SPECIFICATIONS

Feature	Detail
Brand	Kircuit
Connector Type	USB Type B (Micro-USB)
Cable Type	USB
Compatible Devices	RunningSnail and DaringSnail emergency weather radios (Models: MD-088, 088P, 098, 096B, 092P, 090, 090P, 090PG, 097, 097O, 097B, 097G, 097R)
Color	Black
Connector Gender	Male-to-Male
Manufacturer	Shenzhen Waweis Technology Co., Ltd

WARRANTY AND SUPPORT

For warranty information or technical support regarding your Kircuit Micro-USB 5V Charging Cable, please refer to the documentation provided with your purchase or contact the retailer. Keep your proof of purchase for warranty claims.
