2. SAFETY INFORMATION

Please read and understand all safety instructions before assembly and use. Failure to follow these instructions may result in injury or damage to the product.

- This product has a maximum load capacity of **176 lbs (80 kg)**. Do not exceed this weight limit to prevent structural damage or collapse.
- The product contains small parts. Keep all small components and packaging materials away from children to prevent choking hazards.
- Ensure the product is stable and secure during assembly and after placement. Use anti-tip hardware if provided and recommended for your specific setup.
- Always assemble the unit on a soft, clean surface to prevent scratches to the high-gloss finish.
- Do not stand or climb on the TV cabinet.
- Periodically check all connections and fasteners to ensure they remain tight and secure.

3. PRODUCT FEATURES

The HOMCOM High Gloss LED TV Cabinet Stand offers a range of features designed for functionality and aesthetic appeal:

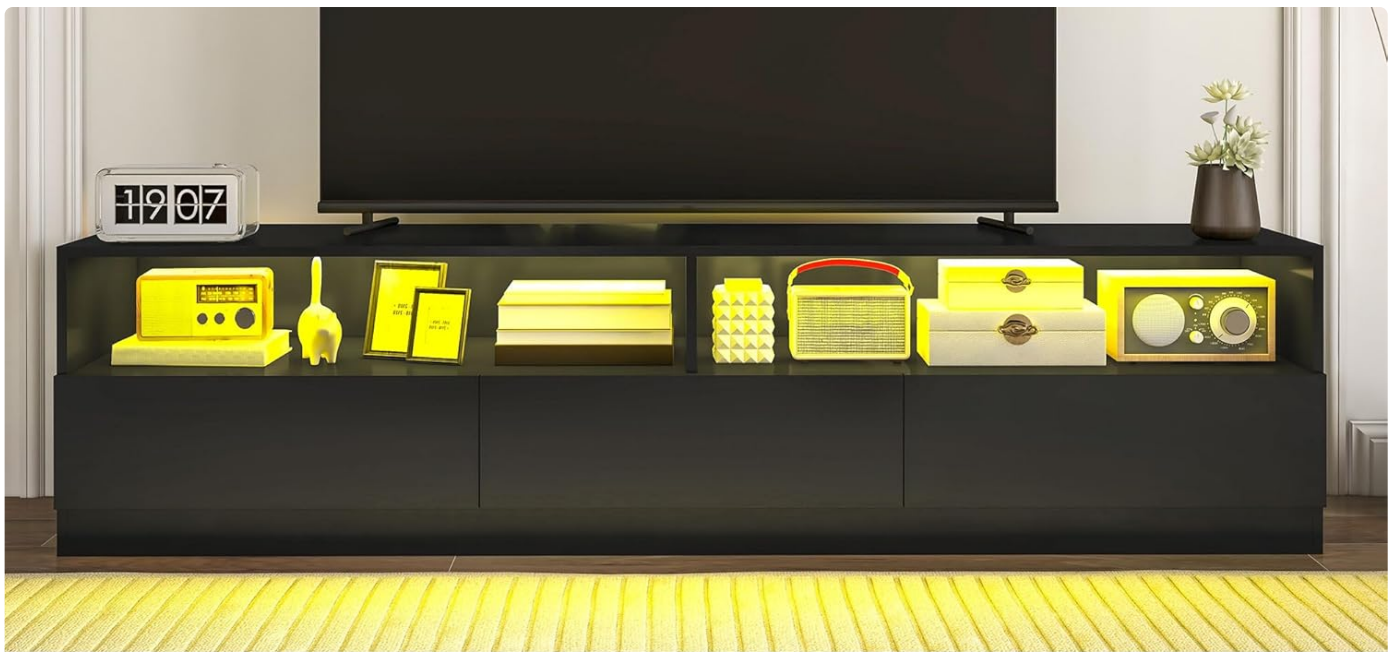

- **Dazzling LED Lights:** Integrated LED lighting system with 16 different colors and 4 light change modes (Flash, Strobe, Fade, Smooth). Light intensity is adjustable via the included remote control.
- **Sturdy Build:** Constructed from quality engineered wood (MDF) for durability and stability. Features anti-slip foot

pads for improved stability.

- **Ample Storage Space:** Includes 2 open shelves and 3 bottom drawers, providing convenient storage for remotes, game controllers, media devices, and other accessories.
- **High Gloss Design:** The sleek high-gloss finish adds a modern and stylish atmosphere to any home decor.
- **Cable Management:** Two strategically placed cable management holes on the back of the unit simplify wire organization and direct connection to power outlets.
- **TV Compatibility:** Designed to accommodate TVs up to 75 inches.

5. SETUP AND ASSEMBLY

Assembly of the HOMCOM High Gloss LED TV Cabinet Stand is required. It is recommended to have two people for assembly due to the weight and size of the components.

1. **Unpack and Verify:** Carefully unpack all components and hardware. Refer to the included assembly manual to ensure all parts are present and undamaged.
2. **Prepare Workspace:** Choose a spacious, clean, and soft surface (e.g., a carpeted area or a blanket) to prevent scratching the high-gloss finish during assembly.
3. **Follow Instructions:** Adhere strictly to the step-by-step assembly instructions provided in the separate assembly manual. Each piece is typically labeled for easy identification.
4. **Secure Connections:** Ensure all screws, cam locks, and other fasteners are tightened securely but do not overtighten, which could damage the engineered wood.
5. **Install LED Lights:** Follow the specific instructions for installing the LED light strip and connecting the power supply.

6. **Final Placement:** Once assembled, carefully move the TV cabinet to its desired location. Ensure it is placed on a level surface.

6. OPERATING THE LED LIGHTS

The integrated LED lighting system provides customizable ambiance for your entertainment area.

- **Power On/Off:** Use the power button on the included remote control to turn the LED lights on or off.
- **Color Selection:** The remote control allows you to choose from 16 different static colors. Press the corresponding color button to select your desired hue.
- **Light Modes:** Cycle through 4 dynamic light change modes:
 - *Flash:* Rapid color changes.
 - *Strobe:* Flashing of a single color.
 - *Fade:* Gradual transition between colors.
 - *Smooth:* Slow, continuous color changes.
- **Brightness Adjustment:** Use the brightness control buttons on the remote to increase or decrease the intensity of the LED lights to suit different occasions and preferences.

7. MAINTENANCE

Proper care will help maintain the appearance and longevity of your HOMCOM TV cabinet.

- **Cleaning:** Wipe the surfaces with a *dry, soft cloth*. Avoid using abrasive cleaners, harsh chemicals, or wet cloths, as these can damage the high-gloss finish.
- **Dusting:** Regularly dust the unit to prevent buildup, which can dull the finish over time.
- **Spills:** Immediately wipe up any spills with a dry cloth to prevent staining or damage to the material.
- **LED Lights:** Ensure the LED strip and remote control are kept dry. Do not attempt to clean the LED strip with liquids.

8. TROUBLESHOOTING

If you encounter any issues with your TV cabinet, refer to the following common troubleshooting steps:

Problem	Possible Cause	Solution
LED lights not turning on or responding to remote.	<ul style="list-style-type: none"> Remote control battery is dead or incorrectly inserted. LED strip not properly connected to power source. Power adapter issue. 	<ul style="list-style-type: none"> Replace the remote control battery (CR2025 or similar, check remote for type). Ensure correct polarity. Check all connections between the LED strip, controller, and power adapter. Ensure they are secure. Verify the power adapter is plugged into a working outlet. Try a different outlet.
Cabinet appears unstable or wobbly.	<ul style="list-style-type: none"> Loose assembly fasteners. Uneven floor surface. Weight exceeding capacity. 	<ul style="list-style-type: none"> Re-tighten all screws and cam locks. Do not overtighten. Adjust the anti-slip foot pads or place shims under the feet to level the unit. Ensure the total weight on the cabinet, especially on the top surface, does not exceed 176 lbs (80 kg). Distribute weight evenly.
Scratches or damage on high-gloss surface.	<ul style="list-style-type: none"> Improper handling during assembly or use. Abrasive cleaning materials. 	<ul style="list-style-type: none"> Minor scratches may be buffed out with specialized high-gloss furniture polish (test in an inconspicuous area first). Always use soft cloths for cleaning and handling.
