

## ROBOTIME Cathy's Flower House

# ROBOTIME DIY Miniature House Kit CATHY'S FLOWER HOUSE AND 3D WOODEN FLOWER MODEL KIT

Instruction Manual

### Product Overview

This instruction manual provides detailed guidance for assembling your ROBOTIME DIY Miniature House Kit, specifically Cathy's Flower House, and the accompanying 3D Wooden Flower Model Kit. These kits offer an engaging and creative building experience, resulting in decorative miniature models.

The Cathy's Flower House kit allows you to construct a detailed miniature greenhouse scene, complete with furniture, plants, and an LED lighting system. The 3D Wooden Flower Model Kit enables you to assemble a beautiful wooden bouquet featuring various flowers and foliage.

## Safety Information

Please read all safety instructions before beginning assembly. Keep this manual for future reference.

- **Small Parts Warning:** This kit contains small parts which may pose a choking hazard. Keep out of reach of small children and pets.
- **Sharp Edges:** Some wooden pieces may have sharp edges. Handle with care during assembly.
- **Adhesive Use:** If adhesive is included or required, use in a well-ventilated area. Avoid contact with skin and eyes. Follow the adhesive manufacturer's instructions.
- **Electrical Components:** For kits with LED lights, ensure batteries are inserted correctly according to polarity markings. Do not mix old and new batteries, or different types of batteries.
- **Adult Supervision:** Adult supervision is recommended for younger builders.

## Assembly Instructions

Before starting, unpack all components and verify against the parts list provided in your kit. Organize pieces by type or number to facilitate assembly.

### Part 1: Cathy's Flower House Assembly

1. **Prepare the Base:** Begin by assembling the base structure of the miniature house. Ensure all pieces fit securely.
2. **Construct Walls and Frame:** Attach the wall panels and the main frame components. Pay attention to the orientation of each piece as indicated in the detailed diagrams.
3. **Install Interior Elements:** Assemble and place the miniature furniture, shelves, and decorative items within the house. Use adhesive where specified to secure these elements.
4. **Wiring the LED Lights:** Carefully follow the wiring diagram to connect the LED lights. Ensure all connections are secure and test the lights before fully enclosing the structure.
5. **Add Exterior Details:** Attach exterior decorations, plants, and the roof structure.

## Part 2: 3D Wooden Flower Model Kit Assembly

1. **Identify Flower Components:** Separate the wooden pieces for each type of flower (e.g., sunflower, rose, lilac, camellia) and foliage (e.g., eucalyptus).
2. **Assemble Individual Flowers:** Follow the diagrams to slot together the petals, centers, and stems for each flower. Some designs may require gentle bending or interlocking.
3. **Combine Foliage:** Attach the eucalyptus leaves and other greenery to their respective stems or directly to the flower stems as indicated.
4. **Arrange the Bouquet:** Once all individual flowers and foliage are assembled, arrange them into a bouquet. Use the provided wrapping materials or a vase for display.

## Operating LED Lights (Cathy's Flower House)

The Cathy's Flower House kit includes an LED lighting system to illuminate your miniature scene.

1. **Battery Installation:** Locate the battery compartment, typically on the underside or back of the base. Insert the required batteries (e.g., AAA or button cells, as specified in your kit's packaging) ensuring correct polarity (+/-).
2. **Power On/Off:** Locate the small switch, usually near the battery compartment or on the side of the base. Flip the switch to the 'ON' position to illuminate the house. Flip to 'OFF' to conserve battery life.
3. **Battery Replacement:** When lights dim or stop working, replace all batteries with new ones of the same type.

## Maintenance and Care

Proper care will ensure the longevity and appearance of your assembled models.

- **Cleaning:** Dust the models regularly with a soft, dry brush or a microfiber cloth. Avoid using wet cloths or harsh cleaning agents, which can damage the wood or painted surfaces.
- **Storage:** Store the models in a dry environment, away from direct sunlight and extreme temperatures, to prevent warping or fading of materials.
- **Handling:** Handle the assembled models gently, especially delicate parts like miniature plants or small accessories, to prevent breakage.
- **Battery Care:** If the LED lights will not be used for an extended period, remove the batteries to prevent leakage and damage to the electrical components.

### Troubleshooting

Refer to the table below for common issues and their solutions.

Problem	Possible Cause	Solution
Pieces do not fit together	Incorrect orientation; excess material; slight manufacturing variance.	Check diagrams carefully. Gently sand edges if needed. Do not force pieces.
LED lights do not turn on	Batteries incorrectly installed; dead batteries; loose wiring connection.	Verify battery polarity. Replace batteries. Check all wire connections.
Assembled model is unstable	Adhesive not fully cured; pieces not fully seated; missing support.	Allow adhesive to dry completely. Press pieces firmly into place. Review assembly steps for missed supports.

### Product Specifications

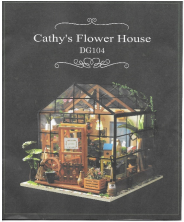

- **Product Name:** ROBOTIME DIY Miniature House Kit (Cathy's Flower House) & 3D Puzzle Wooden Flower Model Kit
- **Brand:** ROBOTIME
- **Model:** Cathy's Flower House
- **Material:** Wood, paper, fabric, plastic, LED components
- **Assembly Time:** Varies by individual, typically 20-40 hours for the house, 2-4 hours for the flower kit.
- **Recommended Age:** 14+
- **ASIN:** B0DF7Q61PC

### Warranty and Support
