## 6. MAINTENANCE

---

Proper care will extend the life and appearance of your nightstand.

- **Cleaning:** Wipe surfaces with a soft, damp cloth. Avoid harsh chemicals or abrasive cleaners.
- **Spills:** Clean up spills immediately to prevent staining, especially on the engineered wood surfaces.
- **Dusting:** Regularly dust all surfaces to maintain cleanliness.
- **Drawer Care:** The fabric drawers can be spot cleaned with a mild detergent if necessary. Ensure they are completely dry before reinserting.
- **Electrical Components:** Ensure the charging station and LED light strip remain dry. Do not attempt to disassemble or repair electrical components yourself.

## 7. TROUBLESHOOTING

---

If you encounter issues with your HOOBRO WT160UDBZ01 Nightstand, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Charging station not working.	Power cord not fully plugged in; wall outlet not active; device not compatible.	Check power cord connection to both nightstand and wall outlet. Test wall outlet with another device. Ensure your device is compatible with 120V AC or 5V 2A USB.
LED light strip not turning on or changing colors.	Remote control battery depleted; remote not pointed at receiver; LED strip connection loose.	Replace remote control battery. Ensure clear line of sight between remote and LED receiver. Check all connections to the LED strip.
Nightstand is wobbly.	Adjustable feet not properly adjusted; loose assembly screws.	Adjust the four adjustable feet on the bottom of the nightstand to stabilize it. Tighten all assembly screws.
Drawers do not slide smoothly.	Drawers are overloaded; fabric is catching.	Reduce the weight in the drawers, ensuring it does not exceed 20 lb per drawer. Check for any fabric obstructions.

If the problem persists after attempting these solutions, please contact HOOBRO customer support.
