# PatioZen 90 Gallon Deck Box Instruction Manual

Brand: PatioZen | Model: PZ--014-80-B

## INTRODUCTION

---

This manual provides essential information for the proper setup, operation, and maintenance of your PatioZen 90 Gallon Deck Box. Designed for versatile storage, this resin outdoor box offers a durable and functional solution for organizing various items, both indoors and outdoors. Please read these instructions carefully before assembly and use to ensure optimal performance and longevity of your product.

## PRODUCT FEATURES

---

- **Versatile Storage:** Suitable for indoor use (e.g., laundry) or outdoor use (e.g., patio cushions, garden tools, pool accessories). Can also function as a side table, patio seat, storage bench, or footstool.
- **Durable Construction:** Made from aggregate resin with a wood grain pattern, resistant to water, UV rays, fading, peeling, and warping.
- **Easy Portability:** Equipped with built-in handles on both sides for convenient moving.
- **Lockable Design:** Features a padlock hook for enhanced security (padlock not included).
- **Smooth Operation:** Includes a hydraulic rod for controlled and safe opening and closing of the lid, preventing sudden drops.
- **Reinforced Structure:** Built-in reinforcing steel enhances stability and durability.
- **High Capacity:** 90-gallon storage volume with a maximum weight recommendation of 550 pounds.

## **Imitation wood grain**

Longer Service Life Than Wood

## SETUP AND ASSEMBLY

The PatioZen 90 Gallon Deck Box is designed for straightforward assembly. One person can typically assemble all panels without the need for additional tools.

### Assembly Steps:

1. Unpack all components and verify that all parts are present according to the packing list.
2. Identify the base, side panels, front panel, back panel, and lid.
3. Connect the side panels to the base, ensuring they snap securely into place.
4. Attach the front and back panels to the assembled sides and base.
5. Secure the lid to the main body, aligning the hinges and hydraulic rod mechanism.
6. Test the lid's opening and closing action to ensure smooth operation.

For detailed visual guidance, refer to the diagrams provided in the packaging.

## OPERATING INSTRUCTIONS

## Opening and Closing the Lid:

- To open, gently lift the lid. The hydraulic rod will assist in raising the lid and holding it open.
- To close, gently push the lid downwards. The hydraulic rod will provide a controlled descent, preventing abrupt closing.

## Using the Lockable Feature:

- The deck box includes a padlock hook for security.
- To secure your items, align the padlock hook on the lid with the corresponding opening on the front panel.
- Insert a standard padlock (not included) through the aligned holes and lock it.

## General Usage:

- Distribute contents evenly to maintain balance and prevent strain on the box structure.
- Avoid exceeding the maximum weight capacity of 550 pounds.
- Ensure the lid is fully closed when not in use to protect contents from weather elements.

Image: The deck box open and filled with various items, demonstrating its storage capacity for patio cushions, gardening tools, and other outdoor essentials.

## MAINTENANCE

The PatioZen Deck Box is designed for low maintenance due to its durable resin construction.

### Cleaning:

- Clean the exterior with a mild soap and water solution.
- Use a soft cloth or sponge to wipe down surfaces.
- Rinse thoroughly with clean water and allow to air dry.
- Avoid using abrasive cleaners, harsh chemicals, or stiff brushes, as these can damage the resin finish.

### Long-Term Care:

- Periodically check all connections and hinges to ensure they remain secure.
- While the box is UV-protected, prolonged exposure to extreme direct sunlight may eventually cause slight fading over many years.
- Ensure the box is placed on a level surface to prevent warping and ensure proper lid closure.

Image: The deck box is shown enduring various weather conditions, including snow and rain, highlighting its all-weather durable resin, UV protection, and waterproof properties.

## TROUBLESHOOTING

---

### Lid Does Not Close Smoothly:

- Check for any obstructions inside the box or along the lid's closing path.
- Ensure the hydraulic rod is properly attached and not damaged.
- Verify that the box is on a level surface, as an uneven base can affect lid alignment.

### Water Inside the Box:

- Confirm the lid is fully and securely closed.
- Inspect the seals around the lid for any damage or gaps.
- Ensure the box is not placed in an area where water can pool excessively around its base.

### Difficulty Assembling Panels:

- Ensure panels are correctly oriented according to the assembly diagrams.
- Apply firm, even pressure to snap components into place.
- If a part seems stuck, re-check the alignment before applying more force.

## SPECIFICATIONS

---

Feature	Detail
Brand	PatioZen
Model Number	PZ--014-80-B
Color	Black
Material	Resin
Product Dimensions (L x W x H)	46.85" x 20.59" x 33.46"
