## 2. SETUP AND INSTALLATION

---

Attaching your phone charm strap is a simple process. Ensure your phone case has a designated loop or opening for attaching charms or straps.

1. **Identify Attachment Point:** Locate the small hole or loop on your phone case, typically near the charging port or a corner.
2. **Thread the Loop:** Take the thin string loop at the end of the phone charm strap and thread it through the attachment point on your phone case.
3. **Secure the Charm:** Pass the entire charm strap (including the Koya character and purple strap) through the loop you just created. Pull gently to tighten the knot, ensuring the strap is securely fastened to your phone case.
4. **Verify Security:** Lightly tug on the strap to confirm it is firmly attached and will not easily detach during use.

## 3. OPERATING AND USAGE

---

Once attached, the MINISO BT21 Phone Charm Strap can be used in various ways:

- **Wrist Strap:** Loop the strap around your wrist to prevent accidental drops while holding or using your phone.
- **Decorative Accessory:** Allow the charm to dangle freely, adding a personal and decorative element to your phone.
- **Easy Retrieval:** The strap makes it easier to locate your phone in a bag or purse.

## 4. MAINTENANCE

---

To ensure the longevity and appearance of your phone charm strap:

- **Cleaning:** Wipe the strap and charm gently with a soft, damp cloth. Avoid using harsh chemicals or abrasive cleaners.
- **Storage:** When not in use, store the strap in a clean, dry place away from direct sunlight to prevent discoloration or damage.
- **Avoid Excessive Force:** Do not pull or tug on the strap with excessive force, as this may damage the attachment point or the strap itself.

## 5. TROUBLESHOOTING

---

This product is simple in design, and issues are rare. However, consider the following:

- **Strap Feels Loose:** Re-thread the loop and ensure it is pulled tight. If the phone case's attachment point is worn, consider using a different case.
- **Charm Detached:** If the charm detaches from the strap, inspect the keyring. If damaged, it may need replacement.
