bprotect CAMECHO A3731

BROTECT Matte Screen Protector User Manual

Compatible with CAMECHO A3731

PRODUCT OVERVIEW

The BROTECT Matte Screen Protector is designed to provide comprehensive protection for your CAMECHO A3731 device screen. This product offers a matte surface to reduce glare and reflections, an anti-fingerprint coating for easy cleaning, and a highly scratch-resistant surface to guard against daily wear and tear. The advanced adhesive layer ensures a bubble-free installation.

PACKAGE CONTENTS

- 2 x BROTECT Matte Screen Protector compatible with CAMECHO A3731

INSTALLATION GUIDE

Follow these steps carefully for a bubble-free installation of your BROTECT Matte Screen Protector.

Instructions in various languages can be found inside.

Anbringungsanleitung

Instructions

1.

Nutze zur Montage einen staubarmen Ort (z.B. Badezimmer) und reinige das Display gründlich von Staub und Verschmutzungen.

Before assembling, locate a dust free area (e.g. bathroom) and carefully remove any dust or dirt from the display.

2.

Löse das Trägermaterial zur Hälfte von der Displayschutzfolie ab und setze die Displayschutzfolie an einer Seite auf dem Display an. Die Displayschutzfolie sollte in aufgezogenem Zustand mittig auf dem Display ausgerichtet sein.

Remove half of the thin cover film of the screen protector and align the screen protector on one side with your screen. Make sure that the screen protector will be centered on the middle of your screen.

3.

Streiche die Displayschutzfolie leicht mittels einer mit einem weichen Tuch umwickelten Kreditkarte von einer Seite zur anderen auf das Display. Ziehe dabei gleichzeitig den Rest des Trägermaterials ab.

Cover a credit card with a soft cloth and carefully slide over the screen protector from one side to the other on your screen, enabling you to remove the rest of the thin cover film.

4.

Eventuell vorhandene Luft einschüsse herausstreichen - fertig!

Smooth out any remaining air bubbles with your credit card. It's that easy!

Image: The back of the BROTECT packaging, displaying a visual step-by-step guide for screen protector installation.

1. **Preparation:** Locate a dust-free area (e.g., a bathroom) and thoroughly clean your device screen to remove any dust, dirt, or fingerprints. Ensure the screen is completely dry before proceeding.
2. **Peel and Align:** Carefully peel back half of the main cover film from the screen protector. Align the exposed portion of the screen protector precisely with one side of your device screen. Ensure the screen protector is centered.
3. **Application:** Using a credit card or a similar flat, soft tool wrapped in a cloth, gently smooth the screen protector onto the screen from the aligned side, pushing out any air bubbles as you go. Simultaneously, slowly peel off the remaining backing film.
4. **Final Smoothing:** Once the screen protector is fully applied, use the credit card to smooth out any remaining small air bubbles towards the edges of the screen.

FEATURES AND BENEFITS

- **Anti-Glare:** The matte surface significantly reduces light and sun reflections, improving screen visibility in bright conditions.
- **Anti-Fingerprint:** An oleophobic coating repels fingerprints and smudges, making the screen easier to keep clean.
- **Scratch-Resistant:** Engineered with a high-quality, hard-coated surface to protect your device screen from scratches and abrasions.
- **Bubble-Free Installation:** Features a newly developed adhesive layer designed for smooth, bubble-free application.

CARE AND MAINTENANCE

To maintain the effectiveness and appearance of your BROTECT Matte Screen Protector:

- Clean the screen protector regularly with a soft, lint-free cloth.
- For stubborn smudges, lightly dampen the cloth with water or a screen-safe cleaning solution. Avoid harsh chemicals or abrasive materials.
- Do not attempt to peel off and reapply the screen protector, as this may compromise its adhesive properties and introduce dust.

TROUBLESHOOTING

Common issues and their solutions:

- **Bubbles after installation:** Small bubbles can often be pushed out to the edges using a credit card wrapped in a soft cloth. For larger bubbles, ensure the screen was thoroughly cleaned before application. If dust is trapped, it may be difficult to remove without reapplying, which is not recommended.
- **Dust particles under the protector:** This usually occurs if the screen was not perfectly clean during installation. Prevention is key; ensure a dust-free environment and thorough cleaning.
- **Screen protector not adhering properly:** Ensure the screen is clean and dry. The adhesive is designed for a single, firm application.

SPECIFICATIONS

Attribute	Value
Brand	bprotect
Compatible Devices	CAMECHO A3731
Material	Polyethylene Terephthalate
Screen Surface Description	Matte
Special Feature	Anti-Fingerprint, Anti-Glare, Scratch-Resistant, Bubble-Free
Number of Items	2
