Braun IS9095BK

Braun CareStyle 9 IS9095BK Steam Generator Iron User Manual

Model: IS9095BK

INTRODUCTION

Welcome to the user manual for your Braun CareStyle 9 IS9095BK Steam Generator Iron. This manual provides essential information for the safe and efficient operation, maintenance, and troubleshooting of your appliance. Please read it thoroughly before first use and keep it for future reference.

SAFETY INSTRUCTIONS

Always follow basic safety precautions when using electrical appliances to reduce the risk of fire, electric shock, and injury to persons.

- Do not immerse the iron or base unit in water or other liquids.
- Ensure the voltage indicated on the appliance corresponds to your local mains voltage.
- Do not leave the iron unattended while it is connected to the mains supply.
- Keep out of reach of children.
- Unplug the iron from the power outlet when not in use and before cleaning.

- Do not operate any appliance with a damaged cord or plug, or after the appliance malfunctions or has been dropped or damaged in any manner.

SETUP

Unpacking and Initial Preparation

1. Carefully remove the iron and all accessories from the packaging.
2. Remove any protective films or stickers from the appliance.
3. Place the steam generator on a stable, heat-resistant, and level surface.

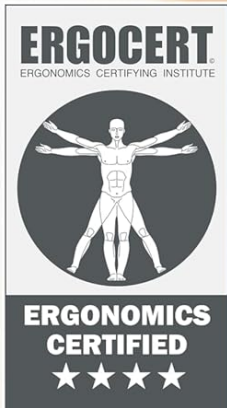

Filling the Water Tank

The CareStyle 9 features a detachable 2-liter water tank for easy refilling.

- Remove the detachable water tank from the base unit.
- Fill the tank with tap water up to the maximum fill line. For areas with very hard water, a mixture of 50% tap water and 50% distilled water is recommended. Do not use pure distilled water or additives.
- Reinsert the water tank firmly into the base unit until it clicks into place.

CareStyle 9 Steam generator iron

World's first ergonomics certified iron*

*Certified by ErgoCert (Ergonomics Certifying Institute, recognised by Accredia).

OPERATING INSTRUCTIONS

Powering On and Heating Up

1. Plug the power cord into a grounded electrical outlet.
2. Press the power button on the base unit. The iron will begin to heat up.
3. Wait for the indicator light to stop flashing, indicating the iron has reached the desired temperature.

iMode OLED Technology and Settings

The smart iMode OLED selector guides you through the ironing process, offering six settings for optimal results.

- **iCare Mode:** Provides a safe temperature for all ironable fabrics, protecting delicate garments.
- **Turbo Mode:** Delivers maximum steam performance for tough creases and heavy fabrics.
- **Eco Mode:** Reduces energy consumption by up to 55% while still providing effective steam.

- Select the desired mode using the iMode OLED selector on the iron's handle.

Auto Steam Technology
The advanced technology within the iron's handle senses the movements of your iron in any direction and steams for you.

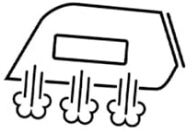

Image: Close-up of the Braun CareStyle 9's iMode OLED display, showing the "hello" greeting and illustrating the different ironing modes available.

Auto Steam Technology and Ironing

The advanced Auto Steam technology detects the iron's movements, automatically releasing the optimal amount of steam without the need to press a trigger.

- Begin ironing by gliding the iron over your garments. The steam will activate automatically.
- For stubborn creases, you can manually activate additional steam by pressing the steam button if needed.
- The FreeGlide 3D Technology with its upward curving soleplate allows for 360° glideability, making it easy to glide over buttons and pockets without snagging.

Specifications

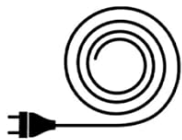

**2400 W
Power**

**750 g/min
steam shot**

**170 g/min
constant
steam**

**1,96 m
cord length**

Ergonomics and Comfort

The Braun CareStyle 9 is designed with ergonomics in mind, featuring a unique open handle for reduced wrist stress, providing a more comfortable ironing experience. It is certified by ErgoCert (Ergonomics Certifying Institute).

FreeGlide 3D Technology

Glide backwards over any obstacles like buttons and pockets.

Vertical Ironing

The iron can also be used for vertical steaming of hanging garments, curtains, or drapes.

- Hold the iron in a vertical position, close to the fabric but not touching it.
- Activate steam as needed.

MAINTENANCE

AutoClean Technology (Descaling)

The innovative AutoClean technology automatically recognizes when descaling is needed and performs the process for you, hassle-free, in just over 2 minutes.

1. When the AutoClean indicator illuminates, ensure the water tank is filled.

2. Place the iron on its base unit.
3. Follow the instructions on the iMode OLED display to initiate the AutoClean cycle.
4. The iron will automatically perform the descaling process. Once complete, the indicator will turn off.

Cleaning the Soleplate

- Ensure the iron is unplugged and completely cool.
- Wipe the soleplate with a damp cloth and a non-abrasive liquid cleaner if necessary.
- Do not use abrasive scouring pads or harsh chemicals.

Storage

- Allow the iron to cool completely before storing.
- Empty any remaining water from the tank.
- Wrap the steam hose and power cord neatly around the designated storage areas on the base unit.

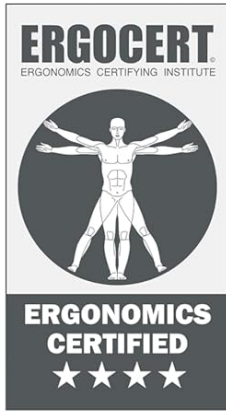

- Store the iron in a dry, safe place.

TROUBLESHOOTING

Problem	Possible Cause	Solution
No steam produced.	Water tank empty; iron not hot enough; steam button not pressed (if manual steam needed).	Refill water tank; wait for iron to heat up; press steam button.
Water leaking from soleplate.	Temperature too low for steam; iron held horizontally for too long without movement.	Increase temperature setting; ensure iron is hot enough before steaming; keep iron moving.
Iron not heating up.	Not plugged in; power button not pressed; faulty outlet.	Check power connection; press power button; try a different outlet.
AutoClean indicator on.	Descaling is required.	Perform the AutoClean cycle as per maintenance instructions.

SPECIFICATIONS

Feature	Detail
Model Number	IS9095BK
Power	2400 Watts
Steam Shot	Up to 750 g/min
Constant Steam	Up to 170 g/min
Water Tank Capacity	2 Liters (Detachable)
Soleplate Technology	FreeGlide 3D
Control System	iMode OLED
Descaling System	AutoClean Technology
Cord Length	1.96 meters
Product Dimensions	47.5 x 21.5 x 0.1 cm (Iron and Base)
Item Weight	7.8 kg
