MAF 20 Inch Full Size

MAF 20 Inch Full Size Bed Frame Instruction Manual

1. Safety Information

Please read all instructions carefully before assembly and use. Keep this manual for future reference.

- Exercise caution around sharp edges during assembly.
- Do not exceed the maximum weight capacity of 3000 pounds.
- Always follow assembly instructions precisely to ensure stability and prevent injury.
- Ensure all screws and connections are tightened securely before use.

2. Product Overview

The MAF 20 Inch Full Size Bed Frame is a heavy-duty metal platform designed for durability and convenience. It features a robust steel construction capable of supporting up to 3000 pounds.

Key Features:

- **Heavy-Duty Construction:** Made from durable steel to withstand significant static pressure.
- **Rounded Corner Legs:** Designed to prevent accidental injuries.
- **Mattress Slide Stopper:** Integrated plastic anti-skid baffles on all four sides prevent mattress movement.
- **Anti-Slip Rubber Foot Cushions:** Protect floors from scuffing and reduce noise.
- **No Box Spring Needed:** Dependable metal slats provide optimal mattress support.
- **Under-Bed Storage:** Offers ample space beneath the frame for storage.
- **Easy Assembly:** Simple structure with all necessary tools included for quick installation.

3. Assembly Instructions

The MAF bed frame is designed for quick and easy assembly. All necessary tools and instructions are included in the packaging. Typically, one person can complete the assembly within 20 minutes.

Included Components:

- Bed Frame Components
- Instruction Manual
- Screws
- Wrench

General Assembly Steps:

1. Unpack all components and verify against the parts list in the included instruction manual.

2. Connect the main frame sections using the provided screws and wrench.
3. Attach the support legs to the frame.
4. Install the steel slats into the designated slots.
5. Secure the mattress slide stoppers to the frame, ensuring they are mounted outwards as shown in the detailed instructions.
6. Tighten all connections firmly. Do not overtighten.

Image 3.1: Correct installation of the mattress stopper, mounted outwards to prevent mattress sliding.

4. Operating Instructions

Once assembled, the bed frame is ready for use. Place your mattress directly onto the steel slats. A box spring is not required.

- Ensure the mattress is centered on the frame and rests securely against the mattress slide stoppers.
- Do not place excessive weight on any single point of the frame. Distribute weight evenly.

- The frame is designed for a full-size mattress (75"L x 54"W).

5. Maintenance

Regular maintenance will help prolong the life of your bed frame.

- Periodically check all screws and bolts to ensure they remain tight. Retighten if necessary.
- Clean the metal frame with a soft, damp cloth. Avoid abrasive cleaners.
- Inspect the rubber foot cushions and mattress stoppers for wear and tear. Replace if damaged.

6. Troubleshooting

Mattress Slipping:

If your mattress is slipping, ensure the plastic anti-skid baffles are correctly installed and facing outwards. Verify that the mattress is properly aligned within the frame.

Image 6.1: Visual comparison of mattress stability with and without the slide stopper feature.

Noise from Frame:

If the bed frame produces noise, check all connections and tighten any loose screws. Ensure the rubber foot cushions are in place to minimize friction with the floor. Verify that the mattress is not causing friction against the frame.

7. Specifications

Feature	Detail
Size	Full
Material	Metal
Product Dimensions (L x W x H)	74.5" x 53.4" x 20"
Inside Height (Under-bed Clearance)	18.4 inches
Compatible Mattress Size	75" x 54"

Feature	Detail
Maximum Weight Recommendation	3000 Pounds
