1.2 Product Features

- **Curved Precision Steel Blades:** Designed for efficient cutting of various beard lengths, minimizing skin irritation.
- **Hypoallergenic Titanium Foils:** Ultra-thin foils provide a smooth, bump-free shave, suitable for sensitive skin.
- **21-Speed Strong Motor:** Adjustable RPM from 7000 to 9000 for customized shaving power.
- **LED Display:** Shows battery life and current RPM.
- **Cordless/Corded Use:** Operates on a powerful 1400 mAh Li-Ion battery or while plugged in.
- **Type-C Charging:** Convenient and widely compatible charging port.

2. SETUP

2.1 Initial Charging

Before first use, fully charge the shaver. Connect the Type-C USB charge cable to the shaver's charging port and plug the other end into a compatible USB power source (e.g., computer, laptop, USB charger, power bank). The LED display will

indicate charging status. A full charge takes approximately 2 hours and provides up to 100 minutes of runtime.

2.2 Attaching/Detaching the Protective Cover

To remove the protective cover, gently pull it upwards. To attach, align the cover with the shaver head and push down until it clicks into place.

3. OPERATING INSTRUCTIONS

3.1 Power ON/OFF

Press the ON/OFF button located on the side of the shaver to turn it on or off. The LED display will illuminate, showing the current RPM and remaining battery minutes.

3.2 Speed Adjustment

The shaver features a rotary knob for adjusting the motor speed from 7000 to 9000 RPM, offering 21 levels of adjustment. Rotate the knob clockwise to increase speed and counter-clockwise to decrease speed. A beeping sound will accompany speed changes.

3.3 Shaving Technique

For best results, hold the shaver at a right angle to your skin and move it against the direction of hair growth. Apply gentle pressure. The curved precision steel blades and hypoallergenic foils are designed to capture both short and thick hair effectively on the face, neck, jaw, or bald head.

4. MAINTENANCE

4.1 Cleaning the Shaver Head

Regular cleaning ensures optimal performance and hygiene. To clean the shaver head:

1. Ensure the shaver is turned off and unplugged from any power source.
2. Press the release button on the side of the shaver to detach the shaver head.
3. Use the included cleaning brush to remove stubble and debris from the foils and blades.
4. Rinse the shaver head under running water if it is designed for wet cleaning (refer to product specifications for water resistance).
5. Allow all parts to air dry completely before reattaching the shaver head.

DETACHABLE SHAVER HEAD

Press and hold the release button, pull out the shaver head for easy cleaning of stubble and debris with a brush

Image 4.1: Detaching the shaver head for cleaning.

4.2 Replacing Foils and Blades

Over time, foils and blades may wear down. For continued optimal performance, replace them as needed. Replacement parts can be purchased from authorized VGR retailers. Follow the instructions provided with the replacement parts for proper installation.

5. TROUBLESHOOTING

5.1 Low Battery Indicator

When the remaining usage time displayed on the LED screen is less than 10 minutes, the number indicator will flash to remind you to charge the shaver. Connect the shaver to a power source using the Type-C USB cable to recharge.

5.2 Shaver Not Turning On

- Ensure the shaver is fully charged.

- Check if the ON/OFF button is pressed firmly.

5.3 Reduced Shaving Performance

- Clean the shaver head thoroughly to remove any accumulated hair or debris.
- Ensure the foils and blades are not damaged or dull. Replace if necessary.
- Verify the motor speed setting is appropriate for your hair type.

6. SPECIFICATIONS

Feature	Detail
Model Name	V-377
Battery Type	Integrated Rechargeable Lithium-Ion (1400 mAh)
Charging Time	Approx. 2 hours
Running Time	Up to 100 minutes
