3. SETUP

3.1. SIM Card Installation

1. Locate the SIM card tray on the side of your device.
2. Insert the provided SIM ejector tool into the small hole on the SIM tray to open it.
3. Place your Nano-SIM card(s) and/or microSD card (if applicable) into the tray with the gold contacts facing down,

ensuring they are correctly oriented. This device supports Dual SIM Dual Standby.

4. Gently push the tray back into the phone until it clicks into place.

3.2. Initial Power On

1. Press and hold the Power button (usually on the right side) until the screen lights up.
2. Follow the on-screen prompts to select your language, connect to a Wi-Fi network, and set up your Google account.

3.3. Charging the Battery

Before first use, it is recommended to fully charge the device. Connect the USB cable to the phone's charging port and the other end to the provided charger. Plug the charger into a power outlet.

4. OPERATING YOUR DEVICE

4.1. Basic Navigation

- **Touch:** Tap icons to open apps or select items.
- **Swipe:** Move your finger across the screen to scroll through pages or content.
- **Pinch:** Use two fingers to zoom in or out on images and web pages.

4.2. Making Calls and Sending Messages

- Open the **Phone** app to dial numbers or access your contacts.
- Open the **Messages** app to compose and send text messages.

4.3. Camera Functions

The viquee S24U features a 50MP front camera and a 108MP rear camera with AI beauty technology. Open the Camera app to capture photos and videos.

- **Rear Camera:** Utilize the high-resolution 108MP sensor for detailed photos.
- **Front Camera:** The 50MP front camera is enhanced with AI beauty features for optimized selfies.
- **Modes:** Explore various camera modes such as Portrait, Panorama, and Pro mode for different shooting scenarios.

Front 72 million Brightness camera

Our phone's front camera boasts an impressive 72 megapixels and is equipped with AI beauty technology. It automatically allocates suitable beauty schemes for different scenes and people, allowing for real-time adjustments of facial features on the photographing interface. With this advanced technology, you can easily reshape your ideal beauty and capture stunningly beautiful

5. MAINTENANCE

5.1. Battery Care

- The device is equipped with a 6800mAh battery. For optimal battery life, avoid extreme temperatures.
- Use only the provided charger and cable.
- Avoid completely draining the battery frequently.

5.2. Storage Management

Your device comes with 256GB of internal storage. To manage storage effectively:

- Regularly delete unnecessary files, photos, and videos.
- Uninstall unused applications.

- Consider backing up important data to cloud storage or an external device.

5.3. Cleaning Your Device

Use a soft, lint-free cloth to clean the screen and body of the phone. Avoid using harsh chemicals or abrasive materials.

6. TROUBLESHOOTING

If you encounter issues with your device, refer to the following common solutions:

Issue	Possible Solution
Device does not power on	Ensure the battery is charged. Press and hold the Power button for at least 10 seconds.
Cannot connect to Wi-Fi	Check if Wi-Fi is enabled in Settings. Restart your router and phone. Verify the Wi-Fi password.
Poor network signal	Ensure your SIM card is properly inserted. Check your location for network coverage. Restart the phone.
Apps are crashing or freezing	Clear the app's cache (Settings > Apps > [App Name] > Storage > Clear cache). Update the app. Restart the phone.
Battery drains quickly	Reduce screen brightness. Close unused apps. Disable unnecessary features like GPS or Bluetooth when not in use. Check battery usage in Settings.

If the issue persists, consider performing a factory reset (back up your data first) or contact customer support.
