4. SETUP AND INSTALLATION

Professional installation is recommended. Ensure the vehicle's power is disconnected before beginning installation.

4.1 Pre-Installation Check

- Verify all package contents are present.
- Confirm compatibility with your car model and dashboard configuration.
- If your car has a 52-pin connector, contact customer service for assistance before proceeding. The package includes 36 and 40-pin connectors.

4.2 Wiring Connections

Connect the provided cables according to your vehicle's wiring diagram. The unit supports a plug-and-play connection for compatible models.

- **Power Cable:** Connect to the vehicle's power harness.
- **GPS Antenna:** Mount in a location with a clear view of the sky for optimal signal reception.
- **Radio Antenna:** Connect for FM/RDS radio functionality.
- **Rear Camera:** Connect the rear camera input cable to the unit and install the camera at the rear of the vehicle.
- **USB Cables:** Connect the two USB cables for external device connectivity.
- **RCA Cable:** Use for audio/video output connections, including subwoofer output.
- **Microphone:** Connect the external microphone for improved call quality.
- **Canbus Decoder:** If your vehicle requires a Canbus decoder for steering wheel controls or other vehicle data integration, connect it as per the vehicle's specific instructions.

4.3 Mounting the Unit

Carefully insert the car stereo into the dashboard opening, ensuring all cables are properly routed and secured. Fasten the unit using the appropriate mounting brackets and screws.

5. OPERATING INSTRUCTIONS

Your VECHEL car stereo runs on Android 13 and features a 9-inch HD touchscreen for intuitive control.

5.1 Wireless CarPlay and Android Auto

Connect your smartphone wirelessly via Bluetooth or wired via USB to access CarPlay or Android Auto. This allows for seamless integration of navigation, music, calls, and voice control (Siri/Google Assistant).

- **Wireless Connection:** Enable Bluetooth on your phone and pair it with the car stereo. Follow the on-screen prompts to activate CarPlay or Android Auto.
- **Wired Connection:** Connect your phone to one of the USB ports using a compatible USB cable.

Wireless Carplay & Android Auto

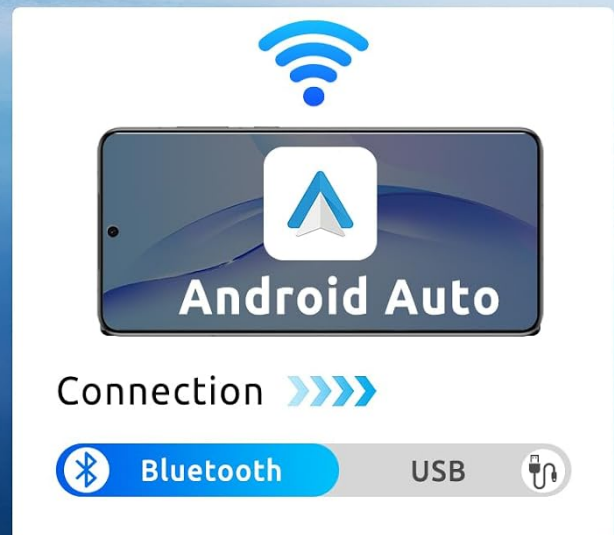

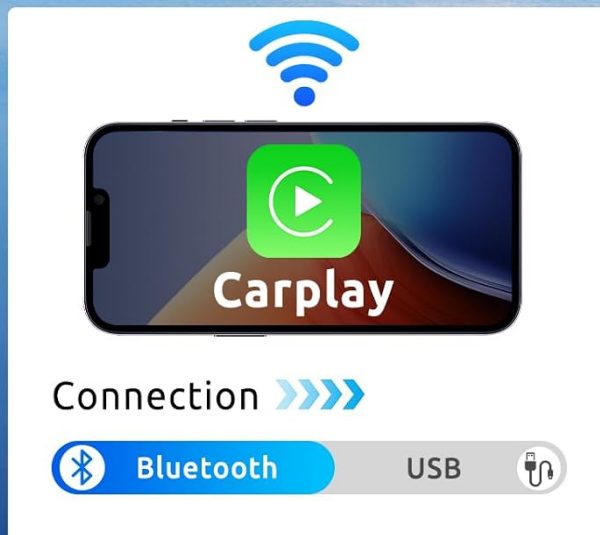

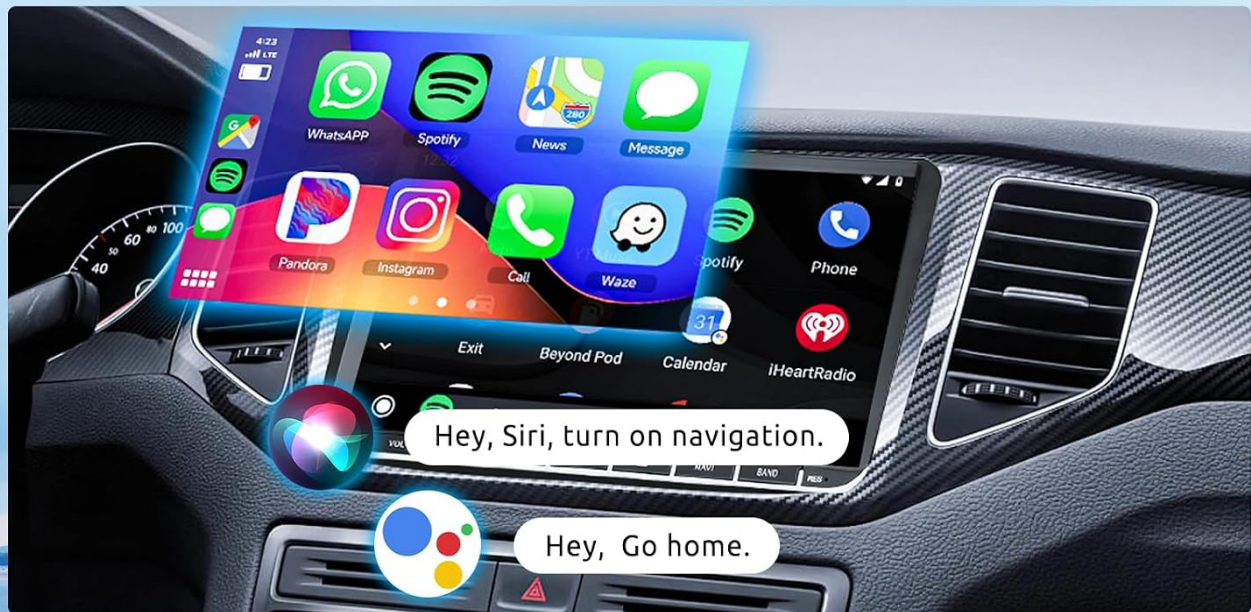

Image: The car stereo display showing the CarPlay interface with various app icons, and diagrams illustrating wireless and wired connections for CarPlay and Android Auto via Bluetooth and USB.

5.2 GPS Navigation

The unit includes a built-in GPS module. You can use pre-installed offline maps or download online maps via Wi-Fi.

- **Offline Maps:** Access pre-loaded maps without an internet connection.
- **Online Maps:** Connect to Wi-Fi to use real-time navigation services and traffic updates.

GPS Navigation

Image: Screenshots demonstrating online and offline GPS navigation on the car stereo, showing map interfaces and route details.

5.3 Wi-Fi Connectivity

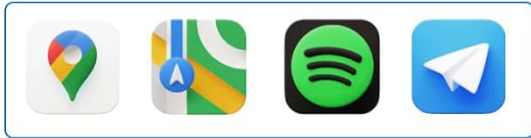

Connect the car stereo to a Wi-Fi network or your phone's hotspot to access online features.

- **App Installation:** Download and install applications from the Google Play Store.
- **Online Video:** Stream videos from platforms like YouTube.
- **Online Navigation:** Utilize real-time map services.

Online Video

Most App

Image: Displays showing online map usage, online video streaming (YouTube, Netflix, TikTok), and various app icons accessible via Wi-Fi connection.

5.4 Bluetooth Functionality

Pair your phone via Bluetooth for hands-free calling and audio streaming.

- **Hands-Free Calls:** Make and receive calls directly from the car stereo. Synchronize your phonebook for easy access to contacts.
- **Music Streaming:** Play audio from your phone through the car's speakers.

5.5 FM/RDS Radio

Tune into FM radio stations. The RDS (Radio Data System) feature displays station information where available.

- **Preset Stations:** Save up to 18 of your favorite stations for quick access.

5.6 Rear Camera Support

When the vehicle is in reverse, the display automatically switches to the rear camera view, providing a clear image for safe parking and maneuvering.

- The included camera offers HD resolution, waterproof design, night vision, and a wide-angle view.

5.7 Steering Wheel Control (SWC)

If your vehicle supports it and the Canbus decoder is correctly installed, you can control basic functions of the car stereo (e.g., volume, track skipping) directly from your steering wheel buttons.

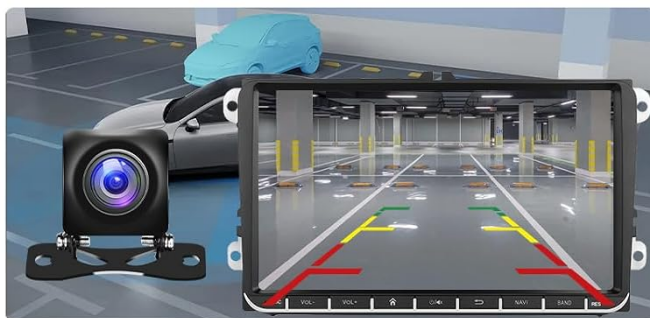

5.8 Mirror Link

Mirror Link allows you to display your smartphone's screen content directly onto the car stereo's display.

5.9 Split Screen Functionality

The 9-inch touchscreen supports split-screen mode, allowing you to run two applications simultaneously (e.g., navigation and music player).

Dimensions (L x W x H)	21.4 x 13.3 x 5.5 cm
Country of Origin	China

7. TROUBLESHOOTING

This section addresses common issues you might encounter. For problems not listed here, please contact customer support.

7.1 No Power / Unit Not Turning On

- Check all power connections to ensure they are secure.
- Verify the vehicle's fuse for the car stereo is intact.
- Ensure the car's ignition is on.

7.2 No Sound or Distorted Sound

- Check speaker wire connections.
- Adjust the volume level on the unit and ensure it is not muted.
- Verify audio settings (EQ, balance, fader) are correctly configured.
- If using Bluetooth audio, ensure the phone's volume is also up.
- *User review mentioned sound cutting out at certain volumes:* If sound cuts out at high volumes, reduce the volume. This could indicate an impedance mismatch or power supply issue. Consult a professional installer if the problem persists.

7.3 Bluetooth Disconnection Issues

- Ensure your phone is within range and Bluetooth is enabled.
- Delete the device pairing from both the car stereo and your phone, then re-pair.
- Restart both the car stereo and your phone.
- Check for any interference from other wireless devices.

7.4 GPS Signal Loss or Inaccuracy

- Ensure the GPS antenna is securely connected and mounted in a location with a clear view of the sky, away from obstructions.
- Check GPS settings on the unit.
- Update map data if available.

7.5 Rear Camera Not Displaying

- Verify the rear camera and its input cable are correctly connected to the unit.
- Ensure the camera's power supply is correctly wired (usually to the reverse light circuit).
- Check the camera settings in the car stereo menu.
- *User review mentioned inability to connect rear camera:* Double-check all wiring connections, especially the trigger wire that signals the unit to switch to camera view when reversing. If issues persist, contact support.

7.6 Incompatible Wiring Harness or Fit

- If the provided harness does not match your vehicle's connectors or the unit does not fit your dashboard, do not force installation.
- Contact customer service immediately with your car's model, year, and photos of your original car stereo and connectors.

8. MAINTENANCE

8.1 Cleaning the Screen

Use a soft, lint-free cloth to gently wipe the touchscreen. For stubborn smudges, slightly dampen the cloth with water or a screen-safe cleaner. Avoid abrasive materials or harsh chemicals.

8.2 Software Updates

Periodically check for software updates via the system settings menu (requires Wi-Fi connection). Keeping your system updated ensures optimal performance and access to new features.

8.3 General Care

- Avoid exposing the unit to extreme temperatures or direct sunlight for prolonged periods.
- Do not spill liquids on the unit.
- Ensure proper ventilation around the unit to prevent overheating.

9. WARRANTY AND SUPPORT

9.1 Warranty Information

This VECHTEL car stereo comes with a **three-year warranty** from the date of purchase. This warranty covers manufacturing defects and malfunctions under normal use. It does not cover damage caused by improper installation,

misuse, accidents, or unauthorized modifications.

9.2 Customer Support

For technical assistance, warranty claims, or any questions regarding your product, please contact VECHTEL customer support. When contacting support, please provide your product model number (7b2555ed-a449-4467-b7d2-e0d4d6e070b9) and a detailed description of the issue.

You can typically find contact information for VECHTEL through the retailer where you purchased the product or on the official VECHTEL website.
