The tablet comes with a pre-installed protective film. For additional protection, consider using a tempered glass screen protector or a protective case.

11. TROUBLESHOOTING

11.1 Tablet Not Powering On

Ensure the tablet has sufficient battery charge. Connect it to the power adapter and wait a few minutes before attempting to power it on again. If the issue persists, try holding the power button for 10-15 seconds for a forced restart.

11.2 Wi-Fi Connection Issues

Check if Wi-Fi is enabled in settings. Restart your Wi-Fi router and the tablet. Forget the network and reconnect. Ensure you are entering the correct password.

11.3 Slow Performance

Close unnecessary background apps. Clear cached data from apps (Settings > Apps > [App Name] > Storage > Clear cache). Consider uninstalling unused apps or moving large files to a MicroSD card.

11.4 Factory Reset

If you encounter persistent software issues, a factory reset may resolve them. **Warning:** This will erase all data on your tablet. Back up important data before proceeding. Go to **Settings > System > Reset options > Erase all data (factory reset)**.
